Renascent Empire:

Renascent Empire? Glenn Joseph Ames, 2000 Dit boek is gebaseerd op uitgebreid onderzoek in archieven in Portugal India Engeland en Frankrijk en is de eerste monografische studie van een cruciale maar totnogtoe weinig bestudeerde periode in de geschiedenis van Portugals Aziatische rijk de jaren 1640 1683 Ames revisionistische werk laat zien dat in tegenstelling tot het traditionele beeld van onvermijdelijk verval en stagnatie in het Estado da India na 1640 deze jaren een vernieuwende en dynamische hervorming laten zien die de geo politieke en economische stabilisatie van Portugees Azi rond 1683 tot gevolg hadden Glenn Ames gaat in op de details van deze fundamentele verandering in het koloniale beleid jegens Azi zoals dat werd geïnitieerd door prins Regent Pedro van Braganza 1668 1702 en later zeer effectief in praktijk werd gebracht door Viceroy Luis de Medon a Furtado e Albuquerque

Entangled Empires Jorge Canizares-Esguerra, Jorge Cañizares-Esguerra, 2018-02-01 According to conventional wisdom in the sixteenth century Spain and Portugal served as a model to the English for how to go about establishing colonies in the New World and Africa By the eighteenth century however it was Spain and Portugal that aspired to imitate the British Editor Jorge Cañizares Esguerra and the contributors to Entangled Empires challenge these long standing assumptions exploring how Spain Britain and Portugal shaped one another throughout the entire period from the sixteenth to the nineteenth centuries They argue that these empires were interconnected from the very outset in their production and sharing of knowledge as well as in their economic activities Willingly or unwillingly African slaves Amerindians converso traders smugglers missionaries diplomats settlers soldiers and pirates crossed geographical linguistic and political boundaries and cocreated not only local but also imperial histories Contributors reveal that entanglement was not merely a process that influenced events in the colonies after their founding it was constitutive of European empire from the beginning The essays in Entangled Empires seek to clarify the processes that rendered the intertwined histories of these colonial worlds invisible including practices of archival erasure as well as selective memorialization Bringing together a large geography and chronology Entangled Empires emphasizes the importance of understanding connections both intellectual and practical between the English and Iberian imperial projects The colonial history of the United States ought to be considered part of the history of colonial Latino America just as Latin American history should be understood as fundamental to the formation of the United States Contributors Ernesto Bassi Benjamin Breen Jorge Cañizares Esguerra Bradley Dixon Kristie Flannery Eliga Gould Michael Guasco April Hatfield Christopher Heaney Christopher Schmidt Nowara Mark Sheaves Holly Snyder Cameron Strang

Protection and Empire Lauren Benton, Adam Clulow, Bain Attwood, 2018 This book situates protection at the centre of the global history of empires thus advancing a new perspective on world history

Filhos da Terra António Manuel Hespanha, 2024-12-09 Filhos da Terra narrates the history over time of the so called Portuguese communities living outside the boundaries of the Portuguese Empire but identified locally and by other European empires as Portuguese Concepts such as tribe diaspora and society of m

tissage have been widely used to define these groups In *Filhos da Terra Ant nio* Manuel Hespanha sets the stage to analyse a process of creolization that followed the Portuguese maritime expansion and consequent colonial buildup after 1415 and until 1800 This translated edition of his work opens up the possibility for future critical scholarly and public comparative discussions about diversity identities and identifications in the context of European empire building Contributors are C tia Antunes Zoltan Biedermann Tamar Herzog Noelle Richardson Sophie Rose and ngela Barreto Xavier [Empires between Islam and Christianity, 1500-1800](#) Sanjay Subrahmanyam,2018-12-27 *Empires Between Islam and Christianity 1500 1800* uses the innovative approach of connected histories to address a series of questions regarding the early modern world in the Indian Ocean the Mediterranean and the Atlantic The period between 1500 and 1800 was one of intense inter imperial competition involving the Iberians the Ottomans the Mughals the British and other actors Rather than understand these imperial entities separately Sanjay Subrahmanyam reads their archives and texts together to show unexpected connections and refractions He further proposes in this set of closely argued studies that these empires often borrowed from each other or built their projects with knowledge of other competing visions of empire The emphasis on connections is also crucial for an understanding of how a variety of genres of imperial and global history writing developed in the early modern world The book moves creatively between political economic intellectual and cultural themes to suggest a fresh geographical conception for the epoch ***Making the British empire, 1660-1800*** Jason Peacey,2020-06-24 This collection offers a timely reappraisal of the origins and nature of the first British empire in response to the cultural turn in historical scholarship and the new imperial history It addresses topics that have been neglected in recent literature providing a series of political and institutional perspective at the same time it recognises the importance of developments across the empire not least in terms of how they affected imperial policy and its implementation It analyses a range of contemporary debates and ideas political and intellectual as well as religious and administrative relating to political economy legal geography and sovereignty as well as the messy realities of the imperial project including the costs and losses of empire collectively and individually ***Tuscany in the Age of Empire*** Brian Brege,2021-07-13 A new history explores how one of Renaissance Italy s leading cities maintained its influence in an era of global exploration trade and empire The Grand Duchy of Tuscany was not an imperial power but it did harbor global ambitions After abortive attempts at overseas colonization and direct commercial expansion as Brian Brege shows Tuscany followed a different path one that allowed it to participate in Europe s new age of empire without establishing an empire of its own The first history of its kind *Tuscany in the Age of Empire* offers a fresh appraisal of one of the foremost cities of the Italian Renaissance as it sought knowledge fortune and power throughout Asia the Americas and beyond How did Tuscany which could not compete directly with the growing empires of other European states establish a global presence First Brege shows Tuscany partnered with larger European powers The duchy sought to obtain trade rights within their empires and even manage portions of other states overseas territories Second

Tuscans invested in cultural intellectual and commercial institutions at home which attracted the knowledge and wealth generated by Europe's imperial expansions. Finally Tuscans built effective coalitions with other regional powers in the Mediterranean and the Islamic world which secured the duchy's access to global products and empowered the Tuscan monarchy in foreign affairs. These strategies allowed Tuscany to punch well above its weight in a world where power was equated with the sort of imperial possessions it lacked. By finding areas of common interest with stronger neighbors and forming alliances with other marginal polities a small state was able to protect its own security while carving out a space as a diplomatic and intellectual hub in a globalizing Europe.
