Robin Knox Johnstons History Of Yachting:

Robin Knox-Johnston's History of Yachting Robin Knox-Johnston,1990 *Knox-Johnston on Seamanship & Seafaring*
Robin Knox-Johnston,2018-06-12 On 14th June 1968 Robin Knox Johnston set sail from Falmouth to take part in the Sunday Times Golden Globe Race the first non stop single handed sailing race around the world He was an unknown 29 year old Merchant Navy Officer Ten and a half months later he sailed back into Falmouth the only finisher in the race and the first man to complete a non stop solo circumnavigation Since then he has had an illustrious sailing career with 3 further circumnavigations including the fastest circumnavigation and last racing solo round the world in 2007 aged 68 Few people have sailed as many miles as Robin Now 50 years since setting out in the Golden Globe Race you can benefit from Robin s wealth of experience as he shares his thoughts on seamanship and seafaring in this new book selected from his most provoking insightful and perceptive writing from the pages of Yachting World magazine The first half of the book concentrates on seamanship and looks at the skills and gear required The second half allows Robin to reminisce on memorable boats races and places he has experienced in his last 50 years of seafaring The book starts with an original piece by Robin reflecting on the last 50 years In his Foreword round the world yachtsman Alex Thomson says of the first half on seamanship Anyone who ventures to sea would be wise to take advantage of the seamanship lessons that Robin has learnt Of the second half on seafaring he describes the pieces as a joy to read and says that they remind us that sailing is primarily a fun activity to be enjoyed **A History of Sailing in 100 Objects** Barry Pickthall,2016-08-25 Did you ever wonder which civilisation first took to water in small craft Who worked out how to measure distance or plot a course at sea Or why the humble lemon rose to such prominence in the diets of sailors Taking one hundred objects that have been pivotal in the development of sailing and sailing boats the book provides a fascinating insight into the history of sailing From the earliest small boats through magnificent Viking warships to the technology that powers some of the most sophisticated modern yachts the book also covers key developments such as keeps and navigational aids such as the astrolabe sextant and compass Other more apparently esoteric objects from all around the world are also included including the importance of citrus fruit in the prevention of scurvy scrimshaw made from whalebone and the meaning of sailor s tattoos Beautifully illustrated with lively and insightful text it s a perfect gift for the real or armchair sailor the book gives an alternative insight into how and why we sail the way we do today *Proceedings of the Marine Safety Council* United States. Marine Safety Council,1990
Force of Nature Robin Knox-Johnston,2008-09-25 In January 1969 aboard his home built wooden boat Suhaili Sir Robin Knox Johnston became the first person every to sail solo non stop around the world 25 years later Sir Robin again completed a record breaking circumnavigation co skippering Enza with Kiwi yachting legend Sir Peter Blake His place in sailing s pantheon of greats was assured Then after the tragic death of his wife Sue Sir Robin decided he would try again in October 2006 at the age of 67 when most people are settling in to a well earned retirement Sir Robin embarked on another gruelling

single handed race around the world Compared to his rivals he lacked recent experience and a large shore based support team There were some who believed that this time he might have bitten off more than he could chew Then early on it looked like their worst fears might be realised Within days of setting off near Hurricane strength storms in the Bay of Biscay capsized his 60 yacht Saga Insurance But it wasn't just Sir Robin who suffered Three quarters of the entire fleet had to run for shelter When they re-emerged all faced months of hardship and intensity ahead Force of Nature is Sir Robin's first hand account his extraordinary return to the ultra competitive punishing world of single handed offshore racing It turned out to be a very different journey to the one he undertook about Suhaili yet his experience aboard her remains a touchstone throughout this story It's a story of courage ingenuity and resilience played out against the World's oceans But most of all it's a powerful reminder that age is nothing but a number no barrier to realizing one's dreams

Proceedings of the Marine Safety Council, 1990 **Bibliography of Nautical Books** Alan Obin, 2000-02 This is the 15th annual edition of the Bibliography of Nautical Books a reference guide to over 14 000 nautical publications It deals specifically with the year 2000

Sailing History Amelia Khatri, 2025-01-05 Sailing History presents a fascinating journey through humanity's relationship with maritime navigation exploring how sailing evolved from basic rafts to sophisticated racing vessels while profoundly shaping global civilization The book masterfully weaves together three crucial narratives the technical evolution of sailing vessels sailing's role in economic development and its transformation from a survival necessity to a competitive sport Through meticulous research incorporating archaeological findings historical documents and maritime records readers gain unprecedented insights into how different cultures independently developed their sailing technologies The chronological progression takes readers from ancient Polynesian and Mediterranean seafaring cultures through the age of Viking longships and Chinese junks to modern Olympic sailing competitions Particularly intriguing are the detailed examinations of how various vessel designs reflected their cultural contexts and how weather pattern understanding revolutionized navigation methods The book's exploration of underwater archaeological discoveries reveals previously unknown aspects of historical sailing practices adding fresh perspective to our understanding of maritime history Drawing from naval architectural records and shipping manuscripts the work skillfully bridges the gap between academic research and practical application making complex concepts accessible to both maritime historians and sailing enthusiasts The book's unique value lies in its comprehensive approach to connecting past and present demonstrating how ancient sailing wisdom continues to influence modern maritime practices from competitive sailing to sustainable transportation solutions This thorough examination of sailing's evolution provides readers with a deep appreciation for how maritime technology has shaped our world

surfing down 50 foot waves in 50 knot winds at speeds of up to 28 knots Despite these conditions and suffering from sleep deprivation and extreme physical exhaustion Mike maintained a positive attitude His cheerful resilience continually shines through as he describes his adventures and also talks about the team behind his trips both when sailing round the world and in his earlier journey across the Atlantic at the age of fourteen and the stresses and sacrifices involved for his family and friends Mike s achievement is placed in even sharper relief by another young sailor s more recent failed attempt at solo circumnavigation that nearly ended in tragedy Sailing the Dream is an inspirational as well as thrilling story and one for all ages
