Rock Art Papers Volume 12:

Discovering North American Rock Art Lawrence L. Loendorf, Christopher Chippindale, David S. Whitley, 2016-05-01
From the high plains of Canada to caves in the southeastern United States images etched into and painted on stone by ancient Native Americans have aroused in observers the desire to understand their origins and meanings Rock paintings and engravings can be found in nearly every state and province and each region has its own distinctive story of discovery and evolving investigation of the rock art record Rock art in the twenty first century enjoys a large and growing popularity fueled by scholarly research and public interest alike This book explores the history of rock art research in North America and is the only volume in the past twenty five years to provide coverage of the subject on a continental scale Written by contributors active in rock art research it examines sites that provide a cross section of regions and topics and complements existing books on rock art by offering new information insights and approaches to research The first part of the volume explores different regional approaches to the study of rock art including a set of varied responses to a single site as well as an overview of broader regional research investigations It tells how Writing on Stone in southern Alberta Canada reflects changing thought about rock art from the 1870s to today it describes the role of avocational archaeologists in the Mississippi Valley where rock art styles differ on each side of the river it explores discoveries in southwestern mountains and southeastern caves and it integrates the investigation of cupules along Georgia s Yellow River into a full study of a site and its context The book also compares the differences between rock art research in the United States and France from the outset rock art was of only marginal interest to most U S archaeologists while French prehistorians considered cave art an integral part of archaeological research The book s second part is concerned with working with the images today and includes coverage of gender interests government sponsorship the role of amateurs in research and chronometric studies Much has changed in our understanding of rock art since Cotton Mather first wrote in 1714 of a strange inscription on a Massachusetts boulder and the cutting edge contributions in this volume tell us much about both the ancient place of these enduring images and their modern meanings Discovering North American Rock Art distills today s most authoritative knowledge of the field and is an essential volume for both specialists and hobbyists

Ambiguous Images Kelley Hays-Gilpin, 2004 What does rock art say about gender and how can our understanding of gender shape the way that we view rock art A significant contribution to the relatively unexplored field of gender in rock art this volume contains a wealth of information for archaeologists anthropologists and art historians interested in past gender systems Hays Gilpin argues that art is at once a product of its physical and social environment and at the same time a tool of influence in shaping behavior and ideas within a society Taking this stance rock art is shown to be very often one of the strongest lines of evidence available to scholars in understanding ritual practices gender roles and ideological constructs of prehistoric peoples Subsequently issues of representation and the people who made these forms of art are also discussed

Rock Art Papers

Ken Hedges,1983 Landscape of the Spirits Todd W. Bostwick,Peter Krocek,2016-12-01 High above the noise and traffic of metropolitan Phoenix Native American rock art offers mute testimony that another civilization once thrived in the Arizona desert In the city s South Mountains prehispanic peoples pecked thousands of images into the mountains boulders and outcroppings images that today s hikers can encounter with every bend in the trail Todd Bostwick an archaeologist who has studied the Hohokam for more than twenty years and Peter Krocek a professional photographer with a passion for archaeology have combed the South Mountains to locate nearly all of the ancient petroglyphs found in the canyons and ridges Their years of learning the landscape and investigating the ancient designs have resulted in a book that explores this wealth of prehistoric rock art within its natural and cultural contexts revealing what these carvings might mean how they got there and when they were made Landscape of the Spirits is the first book to cover these ancient images and is one of the most comprehensive treatments of a rock art location ever published It conveys the range of different rock art elements and compositions found in the South Mountains animals humans and geometric shapes as well as celestial and calendrical markings at key sites through accurate descriptions drawings and photographs Interpretations of the petroglyphs are based on Native American ethnographic accounts and consider the most recent theories concerning shamanism and archaeoastronomy Written in a simple and accessible style Landscape of the Spirits is an indispensable volume for anyone exploring the South Mountains and for rock art enthusiasts everywhere who wish to broaden their understanding of the prehistoric world It is both an authoritative overview of these ancient wonders and an unprecedented benchmark in southwestern rock art research at a single geographic location **Rock Art Papers** Ken Hedges,1983-12-31 Ritual Landscapes and Borders within Rock Art Research Heidrun Stebergløkken,Ragnhild Berge,Eva Lindgaard,2015-10-31 Ritual landscapes and borders are recurring themes running through Professor Kalle Sognnes long research career This anthology contains 13 articles written by colleagues from his broad network in appreciation of his many contributions to the field of rock art research **Navajo and the Animal People** Steve Pavlik,William B Tsosie,2014-07-01 This text examines the traditional Navajo relationship to the natural world Specifically how the tribe once related to the Animal People and particularly a category of animals which they collectively referred to as the naatl eetsoh the ones who hunt These animals like Native Americans were once viewed as impediments to progress requiring extermination Southwest Cultural Resources Center Professional Papers ,1983 **The Archaeology of Identities** Timothy Insoll,2007-01-24 This definitive sourcebook collates seminal articles from this increasingly important field to present a comprehensive and well balanced representation of approaches and interests in a single volume for students lecturers and researchers *Rock Art Studies - News of the World* Natalie R. Franklin,Matthias Strecker,2008-08-05 This is the third in the five yearly series of surveys of what is happening in rock art studies around the world As always the texts reflect something of the great differences in approach and emphasis that exist in different regions The volume presents examples from Europe Asia Africa and the New

World During the period in question 1999 to 2004 there have been few major events although in the field of Pleistocene art many new discoveries have been made and a new country added to the select list of those with Ice Age cave art Some regions such as North Africa and the former USSR have seen a tremendous amount of activity focusing not only on recording but also on chronology and the conservation of sites With the global increase of tourism the management of rock art sites that are accessible to the public is a theme of ever growing importance **San Diego Museum Papers** ,2003 *The Sahara* Jeremy Keenan,2013-10-18 This collection examines the Sahara holistically from the earliest prehistoric times through the historical period to the present and with political direction into the future The contributions cover palaeoclimatology history archaeology cultural heritage social anthropology sociology politics and international affairs Structured chronologically the volume can almost be read as a narrative of the Sahara from the earliest times to the present i e from the past climates of the Sahara in prehistoric times to the current war on terror and its implications for the peoples of the Sahara Importantly the collection shows how the region must be approached holistically highlighting the importance of each of these subject areas palaeo climates history politics etc in relation to each other Indeed the first contribution is a remarkable and unique paper bringing together the work of some 8 9 internationally recognised scientists to tell the story and show the relevance to the present day of the Sahara s past climates etc Nearly all the contributions stand in their own right at the cutting edge of research in their respective fields e g archaeology history politics etc This book was previously published as a special issue of the *Journal of North African Studies* Between Worlds Lindsey Büster,Eugène Warmenbol,Dimitrij Mlekuž,2018-12-18 The recent resurgence of academic interest in caves has demonstrated the central roles they played as arenas for ritual ceremony and performance and their importance within later prehistoric cosmologies Caves represent very particular types of archaeological site and require novel approaches to their recording interpretation and presentation This is especially true in understanding the ritual use of caves when the less tangible aspects of these environments would have been fundamental to the practices taking place within them *Between Worlds* explores new theoretical frameworks that examine the agency of these enduring natural places and the complex interplay between environment taphonomy and human activity It also showcases the application of innovative technologies such as 3D laser scanning and acoustic modelling which provide new and exciting ways of capturing the experiential qualities of these enigmatic sites Together these developments offer more nuanced understandings of the role of caves in prehistoric ritual and allow for more effective communication management and presentation of cave archaeology to a wide range of audiences Kalyana Mitra: Volume 12 Prof. Katta Narasimha Reddy, Prof. E. Echoes of the Ancients Oregon Archaeological Society, 2004 The Dalles Deschutes region of the Columbia River located in the heart of the Columbia Plateau was a center of prehistoric human habitation for more than 10 000 years Eddies rapids and waterfalls stretching from just upstream of The Dalles through the Long Narrows to Celilo Falls provided the premier fishery on the entire Columbia Plateau Here untold generations of people lived their lives passing their customs traditions and knowledge into the future Echoes of the Ancients honors these people by sharing a bit of their history culture and spirituality with newer generations

Religion at Work in Globalised Traditions Anders Kaliff, 2014-03-26 Why do traditions disappear How is the disappearance of tradition also a vehicle for social change and re inventions of practices and new traditions Using case studies from one Sukuma area along the southern shores of Lake Victoria in Tanzania global processes of how religions work in practice are analysed by focusing on rainmaking witchcraft and Christianity Traditionally Sukuma society was culturally and cosmologically structured around the chief the ancestors and rainmaking Everything was dependent upon the rain Rainmaking as a ritual practice has disappeared and ancestral propitiations are declining while at the same time Christianity is spreading and witchcraft and witch killings are increasing Although Christianity as a religion may provide answers and hopes for life after death the religion provides few solutions in the here and now when it comes to poverty and suffering problems and challenges that have to be solved Witchcraft on the other hand does or is believed to do so and the increase in witchcraft is analysed in relation to the impacts of more than a century of globalisation from the missionaries and colonizers onwards With the declining ancestral tradition witchcraft and Christianity as religious practices supplement each other in the ways they are believed to work in providing answers solutions or divine interferences in different realms this world and the Otherworld Offering an approach going beyond structural functionalism on different premises the book s focus on religion at work will facilitate new understandings of how to study religion as it is perceived and believed in practice

Memory Landscapes of the Inka Carved Outcrops , Jessica Joyce

Christie,2015-12-17 Memory Landscapes of the Inka Carved Outcrops From Past to Present presents a comprehensive analysis of the carved rocks the Inka created in the Andean highlands during the fifteenth and early sixteenth centuries It provides an overview of Inka history a detailed analysis of the techniques and styles of carving and five comprehensive case studies It opens in the Inka capital Cusco one of the two locations where the geometric style of Inka carving was authored by the ninth ruler Pachakuti Inka Yupanki The following chapters move to the origin places on the Island of the Sun in Lake Titicaca and at Pumaurqu southwest of Cusco where the Inka constructed the emergence of the first members of their dynasty from sacred rock outcrops The final case studies focus upon the royal estates of Machu Picchu and Chinchero Machu Picchu is the second site where Pachakuti appears to have authored the geometric style Chinchero was built by his son Thupa Inka Yupanki who adopted his father s strategy of rock carving and associated political messages The methodology used in this book reconstructs relational networks between the sculpted outcrops the land and people and examines how such networks have changed over time The primary focus documents the specific political context of Inka carved rocks expanded into the performance of a stone ideology which set Inka stone cults decidedly apart from earlier and later agricultural as well as ritual uses of empowered stones When the Inka state formed in the mid fifteenth century carved rocks were used to mark local territories in and around Cusco In the process of imperial expansion selected outcrops were sculpted in peripheral regions to map Inka presence and showcase the cultivated and ordered geography of the state **The**

Archaeology of Art in the American Southwest Marit K. Munson,2011-04-16 Archaeologists seldom study ancient art even though art is fundamental to the human experience The Archaeology of Art in the American Southwest argues that archaeologists should study ancient artifacts as artwork as applying the term art to the past raises new questions about artists audiences and the works of art themselves Munson proposes that studies of ancient artwork be based on standard archaeological approaches to material culture framed by theoretical insights of disciplines such as art history visual studies and psychology Using examples drawn from the American Southwest The Archaeology of Art in the American Southwest discusses artistic practice in ancestral Pueblo and Mimbres ceramics and the implications of context and accessibility for the audiences of painted murals and rock art Studies of Hohokam figurines and rock art illustrate methods for studying ancient images while the aesthetics of ancient art are suggested by work on ceramics and kivas from Chaco Canyon This book will be of interest to archaeologists working in the Southwest who want to broaden their perspective on the past It will also appeal to archaeologists in other parts of the world and to anthropologists art historians and those who are intrigued by the material world aesthetics and the visual **Journal of California and Great Basin Anthropology** ,1993
