*American Indian Rock Art*, 1992 *The Oxford Handbook of the Archaeology and Anthropology of Rock Art* Bruno David, Ian J. McNiven, 2018-10-17 Rock art is one of the most visible and geographically widespread of cultural expressions and it spans much of the period of our species existence Rock art also provides rare and often unique insights into the minds and visually creative capacities of our ancestors and how selected rock outcrops with distinctive images were used to construct symbolic landscapes and shape worldviews Equally important rock art is often central to the expression of and engagement with spiritual entities and forces and in all these dimensions it signals the diversity of cultural practices across place and through time Over the past 150 years archaeologists have studied ancient arts on rock surfaces both out in the open and within caves and rock shelters and social anthropologists have revealed how

people today use art in their daily lives The Oxford Handbook of the Archaeology and Anthropology of Rock Art showcases examples of such research from around the world and across a broad range of cultural contexts giving a sense of the art's regional variability its antiquity and how it is meaningful to people in the recent past and today including how we have ourselves tended to make sense of the art of others replete with our own preconceptions It reviews past present and emerging theoretical approaches to rock art investigation and presents new cutting edge methods of rock art analysis for the student and professional researcher alike **The Archaeology of Art in the American Southwest** Marit K.

Munson,2011-04-16 Archaeologists seldom study ancient art even though art is fundamental to the human experience The Archaeology of Art in the American Southwest argues that archaeologists should study ancient artifacts as artwork as applying the term art to the past raises new questions about artists audiences and the works of art themselves Munson proposes that studies of ancient artwork be based on standard archaeological approaches to material culture framed by theoretical insights of disciplines such as art history visual studies and psychology Using examples drawn from the American Southwest The Archaeology of Art in the American Southwest discusses artistic practice in ancestral Pueblo and Mimbres ceramics and the implications of context and accessibility for the audiences of painted murals and rock art Studies of Hohokam figurines and rock art illustrate methods for studying ancient images while the aesthetics of ancient art are suggested by work on ceramics and kivas from Chaco Canyon This book will be of interest to archaeologists working in the Southwest who want to broaden their perspective on the past It will also appeal to archaeologists in other parts of the world and to anthropologists art historians and those who are intrigued by the material world aesthetics and the visual

**Early Rock Art of the American West** Ekkehart Malotki, Ellen Dissanayake, 2018-07-01 A CHOICE OUTSTANDING ACADEMIC TITLE The earliest rock art in the Americas as elsewhere is geometric or abstract Until Early Rock Art in the American West however no book length study has been devoted to the deep antiquity and amazing range of geometrics and the fascinating questions that arise from their ubiquity and variety Why did they precede representational marks What is known about their origins and functions Why and how did humans begin to make marks and what does this practice tell us about the early human mind With some two hundred striking color images and discussions of chronology dating sites and styles this pioneering investigation of abstract geometrics on stone as well as bone ivory and shell explores its wide ranging subject from the perspectives of ethology evolutionary biology cognitive archaeology and the psychology of artmaking The authors unique approach instills a greater respect for a largely unknown and underappreciated form of paleoart suggesting that before humans became *Homo symbolicus* or even *Homo religiosus* they were mark makers *Homo aestheticus*
