My Melancholy Baby Michael G. Garber, 2021-06-28 2022 Association for Recorded Sound Collections Awards for Excellence Certificate of Merit in the category of Best Historical Research in Recorded Rock and Popular Music. Ten songs from Bill Bailey: "Won't You Please Come Home" (1902) and "You Made Me Love You" (1913) ignited the development of the classic pop ballad. In this exploration of how the style of the Great American Songbook evolved, Michael G. Garber unveils the complicated, often hidden origins of these enduring pioneering works. He riffs on colorful stories that amplify the rising of an American folk art composed by innovators, both famous and obscure. Songwriters and also the publishers, arrangers, and performers achieved together a collective genius that moved hearts worldwide to song. These classic ballads originated all over the nation: Louisiana, Colorado, Illinois, Michigan, and then the Tin Pan Alley industry centered in New York made the tunes unforgettable sensations. From ragtime to bop, cabaret to radio, new styles of music and modes for its dissemination invented and reinvented the intimate, personal American love ballad, creating something both swinging and tender. Rendered by Frank Sinatra, Ella Fitzgerald, and a host of others, recordings and movies carried these songs across the globe. Using previously underexamined sources, Garber demonstrates how these songs shaped the music industry and the lives of ordinary Americans. Besides covering famous composers like Irving Berlin, this history also introduces such little-known figures as Maybelle Watson, who had to sue to get credit and royalties for creating the central content of the lyric for *My Melancholy Baby*. African American Frank Williams contributed to the seminal *Some of These Days*, but was forgotten for decades. The ten ballads explored here permanently transformed American popular song.

possibility in 349 B C when he wrote that Nothing is more easy than to deceive one s self what a man wishes he generally believes to be true 1 Even Jean Jacques Rousseau who suggested the possibility of man as noble savage alerts us to this paradox when he writes Jamais fa nature ne nous trompe c est toujours nous qui nous trompons Nature never deceives us it is always we who deceive ourselves 2 But it was Sigmund Freud who placed this idea firmly into the field of psychopathology and then later into a general psychological theory According to Freud understanding the function of a defense mechanism means not only fathoming the origin of pathological symptoms but also comprehending a model of the mind that includes both conscious and unconscious mental processes From this initial focus on the general process of defense Freud and his followers went on to identify various forms this process might take with the result that today we have a list of 3 more than 37 defense mechanisms described in the literature
