*New York Magazine*, 1993-11-29 *New York magazine* was born in 1968 after a run as an insert of the *New York Herald Tribune* and quickly made a place for itself as the trusted resource for readers across the country. With award winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea.

*Burt Lancaster* Ed Andreychuk, 2015-09-01 With a career in films spanning nearly fifty years, Burt Lancaster brought his unique charisma and energy to roles in films ranging from the adventurous to the bittersweet. This comprehensive filmography of Lancaster's career is accompanied by a biography that provides the background for his immense range of work on the screen. Production information, a synopsis, and commentary is provided for each of Lancaster's 85 films from the first *The Killers* to the last *Separate But Equal*. Photographs from nearly all of Lancaster's films accompany the text, and an index and bibliography are also included.

*Fade to Gray* Timothy Shary, Nancy McVittie, 2016-09-06 Winner Choice Outstanding Academic Title 2017 Americans are living longer and reinventing both work and retirement, but Hollywood movies barely hint at this reality of contemporary society. In many popular films, older characters fade into irrelevance, inactivity, or absurdity, or else they stay in the background as wise elders while younger characters provide the action. Most American films do not attempt to portray the rich variety of experiences or the sensitive aging issues that people confront in the years beyond fifty. *Fade to Gray* offers one of the first extended studies of the portrayal of older people in American cinema from the silent era to the present. Writing in an accessible style for both general audiences and scholars, Timothy Shary and Nancy McVittie examine social attitudes toward aging through an analysis of hundreds of individual films, including such classics as *You Can't Take It With You* (1938), *Rosemary's Baby* (1968), *Grumpy Old Men* (1993), and *Nebraska* (2013). They show how representations of the aging process and depictions of older people embracing or enduring the various experiences of longer lives have evolved over the past century, as well as how film industry practices have both reflected and influenced perceptions of aging in American society. Exposing the social and political motivations for negative cinematic portrayals of the elderly, *Fade to Gray* also gives visibility to films that provide opportunities for better understanding and appreciation of the aged and the aging process.

*It's Still Strictly Personal* Eric Friedmann, 2021-02-15 *It's Still Strictly Personal* continues Eric Friedmann's journey through the movies during the nine-year period of 1983 to 1991. While he and the rest of the world embraced blockbuster motion pictures like *Ghostbusters*, *Back to the Future*, *Top Gun*, *Die Hard*, *Batman*, and *Terminator 2*, it was also alternative films like *A Passage to India*, *Blue Velvet*, *Platoon*, *Do the Right Thing*, and *Cinema Paradiso* that captured his attention and continued to impact his youth while shaping a deeper and more meaningful insight into the possibilities of cinema. Eric's personal story about the movies is still told with great memory and affection for those who still remember a time when movies continued to change, grow, and evolve into deep-rooted memories for all of us who

loved sitting in front of the big screen and waited for the magic to unfold Some movies we just watch Others we feel Those that we can feel may not only tell us who we once were but perhaps who we have the potential to become Eric Friedmann So are you ready to go back in time again and remember Uncle John's Canoramic Bathroom Reader Bathroom Readers' Institute,2014-11-01 The twenty seventh Bathroom Reader in the beloved bizarre trivia series with more than fifteen million copies in print At a whopping 544 pages Uncle John s Canoramic Bathroom Reader is overflowing with everything that Bathroom Readers Institute fans have come to expect from this bestselling trivia series fascinating history silly science obscure origins plus fads blunders wordplay quotes and a few surprises such as some of the creative methods people have used to pay off their alimony And yes Uncle John s latest masterpiece is guaranteed to keep you on the edge of your can So hang on tight as you read about Hairy superstitions Animals who act like people The Mother of the Father of our Country Really BIG Things Eugene Vidocq the world s first private eye Bill Gates and his Toilet Challenge Unclassified The story of the Freedom of Information Act How to behave like a gentleman 16th century style Great Gushers The world s most incredible oil strikes Who s the Suzette in Crepe Suzette Happy Sewerage Day And much much more *Encyclopedia of Motion Picture Sound* Marty McGee,2010-09-29 Ever since 1927 when The Jazz Singer broke the silence of the silver screen sound has played an integral role in the development and appreciation of motion pictures This encyclopedia covers the people processes innovations facilities manufacturers formats and award winning films that have made sound such a crucial part of the motion picture experience Every film that has won a sound related Academy Award is included here with detailed critical commentary Every sound mixer or editor who has been honored by the Academy has his or her own entry and filmography and career biographies are provided for key developers including Jack Foley Ray Dolby George Lucas and more

Mario Garrett,2019-02-14 The story of films is the story of human development From the very first story that defined the

birth of our civilization the Sumerian Epic of Gilgamesh a story of immortality aging and death comes a tale of why we age We are a species of storytellers The stories we tell to each other define who we are However since we are living in a world marked by age apartheid our interaction with people across different generations is becoming more limited As a result the information we gain about older people comes mostly from secondary sources For the general public films remain the most accessible form of information regarding getting older From the early exposure of cartoons to more elaborate dramas our knowledge of what it means to become old relies on our exposure to films This volume provides insight into how accurate these representations are in line with current knowledge that we have about aging and older adults Arguing that films present a simplified view of aging this analysis relies on scientific evidence to explore why and how such stereotypes affect us Stereotypes have the ability of being internalized and becoming prescriptive of our behavior Numerous studies have attempted different ways of understanding the impact films have on aging Theories as seemingly disparate as feminism and disability have contributed to our understanding of how stereotypes influence our aging process This text builds upon this knowledge and provides new insights by applying current gerontological knowledge the science of aging to unpack and analyze the images of aging that films are providing By readdressing this focus on gerontological theories as diverse as biology and psychology the book readdresses an overlooked approach
