Music and Manipulation Steven Brown, Ulrik Volgsten, 2006 Since the beginning of human civilization music has been used as a device to control social behavior where it has operated as much to promote solidarity within groups as hostility between competing groups Music is an emotive manipulator that influences attitude motivation and behavior at many levels and in many contexts This volume is the first to address the social ramifications of music s behaviorally manipulative effects its morally questionable uses and control mechanisms and its economic and artistic regulation through commercialization thus highlighting not only music s diverse uses at the social level but also the ever fragile relationship between aesthetics and morality

Music and Politics John Street, 2013-04-17 It is common to hear talk of how music can inspire crowds move individuals and mobilise movements We know too of how governments can live in fear of its effects censor its sounds and imprison its creators At the same time there are other governments that use music for propaganda or for torture All of these examples speak to the idea of music s political importance But while we may share these assumptions about music s power we rarely stop to analyse what it is about organised sound about notes and rhythms that has the effects attributed to it This is the first book to examine systematically music s political power It shows how music has been at the heart of accounts of political order at how musicians from Bono to Lily Allen have claimed to speak for peoples and political causes It looks too at the emergence of music as an object of public policy whether in the classroom or in the copyright courts whether as focus of national pride or employment opportunities The book brings together a vast array of ideas about music s political significance from Aristotle to Rousseau from Adorno to Deleuze and new empirical data to tell a story of the extraordinary potency of music across time and space At the heart of the book lies the argument that music and politics are inseparably linked and that each animates the other
