Cormac Ó Gráda, 1997 Most Irish historians agree that the southern Irish economy performed very badly between 1920 and the early 1960s This volume critically compares new data for a fresh perspective While providing a comprehensive narrative for a specialist audience it also addresses those aspects of the record that are of interest to general readers 25 illustrations **An Economic History of Ireland Since Independence** Andy

Bielenberg, Raymond Ryan, 2013-05-20 This book provides a cogent summary of the economic history of the Irish Free State Republic of Ireland It takes the Irish story from the 1920s right through to the present providing an excellent case study of one of many European states which obtained independence during and after the First World War The book covers the transition to protectionism and import substitution between the 1930s and the 1950s and the second major transition to trade liberalisation from the 1960s In a wider European context the Irish experience since EEC entry in 1973 was the most extreme European example of the achievement of industrialisation through foreign direct investment The eager adoption of successive governments in recent decades of a neo liberal economic model more particularly de regulation in banking and construction has recently led the Republic of Ireland to the most extreme economic crash of any western society since the Great Depression A Taste of Progress Nelleke Teughels, Peter Scholliers, 2016-03-09 World exhibitions have been widely acknowledged as important sources for understanding the development of the modern consumer and urbanized society yet whilst the function and purpose of architecture at these major events has been well studied the place of food has received very little attention Food played a crucial part in the lived experience of the exhibitions for visitors who could acquaint themselves with the latest food innovations exotic cuisines and traditional dishes for officials attending lavish banquets for the manufacturers who displayed their new culinary products and for scientists who met to discuss the latest technologies in food hygiene Food stood as a powerful semiotic device for communicating and maintaining conceptions of identity history traditions and progress of inclusion and exclusion making it a valuable tool for researching the construction of national or corporate sentiments Combining recent developments in food studies and the history of major international exhibitions this volume provides a refreshing alternative view of these international and intercultural spectacles When Small States Make Big Leaps Darius Ornston, 2012-08-15 At the close of the twentieth century Denmark Finland and Ireland emerged as unlikely centers for high tech competition In When Small States Make Big Leaps Darius Ornston reveals how these historically low tech countries managed to assume leading positions in new industries such as biotechnology software and telecommunications equipment In each case countries used institutions that are commonly perceived to delay restructuring

to accelerate the redistribution of resources to emerging enterprises and industries Ornston draws on interviews with hundreds of politicians policymakers and industry representatives to identify two different patterns of institutional innovation and economic restructuring Irish policymakers worked with industry and labor representatives to contain costs and expand market competition Denmark and Finland adopted a different strategy converting an established tradition of private public and industry labor cooperation to invest in high quality inputs such as human capital and research Both strategies facilitated movement into new high tech industries but with distinctive political and economic consequences In explaining how previously slow moving states entered dynamic new industries Ornston identifies a broader range of strategies by which countries can respond to disruptive challenges such as economic internationalization rapid technological innovation and the shift to services

Leaving the North Johanne Devlin Trew,2016 The first book to survey the history of Northern Ireland migration from partition in 1921 to the present including the personal stories of individuals who emigrated to many destinations abroad some of whom later returned

Ireland Since 1939 Henry Patterson,2008-02-26 A compelling narrative of contemporary Ireland from one of its most highly respected historians The Ireland of today is a place poised between the divisiveness of deep seated conflict and the modernizing pull of material prosperity Though each state s history is strikingly divergent the mirroring ideologies that fuel them are remarkably symbiotic With Ireland Since 1939 one of the most distinguished Irish historians working today casts a fresh and unpredictable eye to Ireland s history from World War II up through the present to show how by putting aside its North South conflict Ireland can look forward to a prosperous economic future

 Frank Barry, 2023-09-07 This book revisits the history of industry and industrial and economic policy in independent Ireland from the birth of the state to the eve of EEC accession Though there were several manufacturing employers of significance and smaller firms in operation in almost every major branch of industry the Irish Free State was predominantly agricultural at its establishment in 1922 Industrial development was high on the nationalist agenda as would be the case across the entire developing world in the later post colonial era Despite decades of protection and a substantial increase in the size of the manufacturing sector Ireland remained under industrialised when it joined the European Economic Community in 1973 Over the previous decade and a half however the foundations of later convergence had been laid Ireland was an early adopter of what would come to be known as dual track reform The policy of attracting outward oriented foreign direct investment was initiated before substantial trade liberalisation began By 1972 there had been a significant diversification in export categories and export destinations and in the nationality of ownership of the leading manufacturing firms Some of the most successful indigenous companies of the future were also beginning to emerge In these and other respects the foundations of the economic progress that would be made over the course of EEC membership were already discernible notwithstanding the post accession collapse of most protectionist era businesses The analysis is supplemented by a unique firm level database that allows for the identification of the leading manufacturing firms in operation at any stage from the early 1900s through to 1972 The database extends by more than 50 years the period for which estimates of the significance of foreign owned industry can be provided Transforming conflict through social and economic development
 Sandra Buchanan, 2016-05-16 Transforming conflict through social and economic development examines lessons learned from the Northern Ireland and Border Counties conflict transformation process through social and economic development and their consequent impacts and implications for practice and policymaking with a range of functional recommendations produced for other regions emerging from and seeking to transform violent conflict It provides for the first time a comprehensive assessment of the region s transformation activity largely amongst grassroots actors enabled by a number of specific funding programmes namely the International Fund for Ireland Peace I II and III and INTERREG I II and IIIA These programmes have been responsible for a huge increase in grassroots practice which to date has attracted virtually no academic analysis this book seeks to fill this gap In focusing on the politics of the socioeconomic activities that underpinned the elite negotiations of the peace process key theoretical transformation concepts are firstly explored followed by an examination of the social and economic context of Northern Ireland and the border counties The three programmes and their impacts are then assessed before considering what policy lessons can be learned and what recommendations can be made for

practice This is underpinned by a range of semi structured interviews and the author s own experience as a project promoter through these programmes in the border counties for more than a decade The book will be essential reading for students practitioners and policymakers in the fields of peace and conflict studies conflict transformation peacebuilding post agreement reconstruction and the political economy of conflict and those interested in contemporary developments in the Northern Ireland peace process

The Slow Failure Mary E. Daly,2006-02-23 Focusing on both Irish government and society Daly places Ireland s population history in the mainstream history of independent Ireland Her book is essential reading for understanding modern Irish history

BOOK JACKET *Ireland's History* Kenneth L. Campbell,2013-12-05 Ireland s History provides an introduction to Irish history that blends a scholarly approach to the subject based on recent research and current historiographical perspectives with a clear and accessible writing style All the major themes in Irish history are covered from prehistoric times right through to present day from the emergence of Celtic Christianity after the fall of the Roman Empire to Ireland and the European Union secularism and rapprochement with the United Kingdom By avoiding adopting a purely nationalistic perspective Kenneth Campbell offers a balanced approach covering not only social and economic history but also political cultural and religious history and exploring the interconnections among these various approaches This text will encourage students to think critically about the past and to examine how a study of Irish history might inform and influence their understanding of history in general

Unhappy the Land Liam Kennedy,2015-10-26 In Unhappy the Land Liam Kennedy poses fundamental questions about the social and political history of Ireland and challenges cherished notions of a uniquely painful past Images of tragedy and victimhood are deeply embedded in the national consciousness yet when the Irish experience is viewed in the larger European context a different perspective emerges The author s dissection of some pivotal episodes in Irish history serves to explode commonplace assumptions about oppression victimhood and a fate said to be comparable only to that of the Jews Was the catastrophe of the Great Famine really an Irish Holocaust Was the Ulster Covenant anything other than a battle cry for ethnic conflict Was the Proclamation of the Irish Republic a means of texting terror And who fears to speak of an Irish War of Independence shorn of its heroic pretensions Kennedy argues that the privileging of the gun the drum and the flag above social concerns and individual liberties gave rise to disastrous consequences for generations of Irish people Ireland might well be a land of heroes from C chulainn to Michael Collins but it is also worth pondering Bertolt Brecht s warning Unhappy the land that is in need of heroes

Ireland on the World Stage William Crotty,David E. Schmitt,2014-06-03 For 2nd and 3rd year courses in Irish Politics European Politics or Comparative Politics International Relations or Economic Development This book provides an up to date analysis of Ireland s place on the world stage exploring its international relations evolving economic power changing relationship with the EU its political role in the world and its changing relationship with England and Northern Ireland The book traces Ireland s development from a rural and isolated country to one that has emerged as an influential player on the international stage It

looks at the continuing difficulties with the North Ireland's role of prominence in Europe and the way in which it has benefited from economic globalisation **Frank Aiken** Bryce Evans, Stephen Kelly, 2014-04-14 Revolutionary statesman polymath Frank Aiken cuts a colossal figure in twentieth century Irish history However he remains a controversial figure regarded as a war criminal by some and a principled proponent of National liberation by others In this engaging biographical collection contributors scrutinise Aiken's thoughts and actions at several critical junctures in modern Irish and world history taking readers through the War of Independence Civil War the birth of the new state the Second World War the Cold War and the modern Northern Ireland Troubles Divided into two sections Nationalist and Internationalist and based on an unrivalled breadth of testimony from academics family members rivals and colleagues this study ultimately details the footprints Aiken left on the national and international political stage Aiken owed his early eminence to military rather than political leadership he was commandant of the 4th Northern Division of the IRA during the War of Independence and was driven to undertake the most daring and spectacular feats of the Irish Civil War He went on to become the Chief of Staff of the Anti Treaty IRA but was expelled for backing de Valera's plan for a Republican government the beginnings of Fianna Fáil Thereafter his instrumental role was to be political a Minister for Defence Finance and External Affairs over the course of the following decades he was to oversee much success and controversy in the burgeoning state This biography represents the first deserving assessment of a monumental personality in 20th century Irish History *Ireland's Invasion of the World* Miki Garcia, 2015-03-02 For much of Ireland's history her people have been emigrating and the Irish Diaspora today is estimated to be over 100 million people fifteen times the current population of Ireland For the most part they scattered not as colonizers but as migrants they took their culture and identity with them and made a mark on their adopted country They fought wars formed societies shaped cultures created new identities and made history This book looks at the Irish contribution to the history of all five continents recalling unsung heroes tragic tales and forgotten legacies **Ireland** Joseph Coohill, 2024-08-01 From the first prehistoric inhabitants of the island to the Windsor Framework for Northern Ireland this uniquely concise account of Ireland and its people reveals how modern Irish society is the product of a rich multivalent history Combining factual information with a critical approach Coohill covers all the key events including the Great Famine Home Rule the Good Friday Agreement and Brexit Newly revised and updated this highly accessible and balanced account will continue to provide a valuable resource to all those wishing to acquaint themselves further with the complex history of Ireland and Irish people **Good Governance Gone Bad** Darius Ornston, 2018-10-15 If we believe that the small open economies of Nordic Europe are paragons of good governance why are they so prone to economic crisis In *Good Governance Gone Bad* Darius Ornston provides evidence that adapting flexibly to rapid technological change and shifting patterns of economic competition may be a great virtue but it does not prevent countries from making strikingly poor policy choices and suffering devastating results Home to three of the big five financial crises in the twentieth century Nordic Europe in the new

millennium has witnessed a housing bubble in Denmark the collapse of the Finnish ICT industry and the Icelandic financial crisis Ornston argues that the reason for these two seemingly contradictory phenomena is one and the same The dense cohesive relationships that enable these countries to respond to crisis with radical reform render them vulnerable to policy overshooting and overinvestment Good Governance Gone Bad tests this argument by examining the rise and decline of heavy industry in postwar Sweden the emergence and disruption of the Finnish ICT industry and Iceland's impressive but short lived reign as a financial powerhouse as well as ten similar and contrasting cases across Europe and North America Ornston demonstrates how small and large states alike can learn from the Nordic experience providing a valuable corrective to uncritical praise for the Nordic model

The Revelation of Ireland Diarmaid Ferriter, 2024-09-05 THE NUMBER 1 IRISH TIMES BESTSELLER SHORTLISTED FOR THE IRISH BOOK AWARDS HISTORY BOOK OF THE YEAR 2024 An Irish Times Book of the Year 2024 Ireland is a strikingly different country now to the one it was in the mid 1990s Dramatic economic social and cultural changes including the Celtic Tiger boom and increasingly secular debate about abortion the status of women and same sex marriage underlined the scale of the transformation The new diversity of the population and literary and musical prowess also revealed a country experiencing rapid alteration The road to peace that saw an end to war in Northern Ireland and culminated in the first visit to southern Ireland of a reigning British monarch in 100 years illuminated the new Anglo Irish dynamic Explosive revelations about deep betrayals from the past destroyed the credibility of the traditionally powerful Catholic Church And in the wake of the 2008 financial crash Ireland rebounded and rebuilt to great success but remained plagued by health and housing failures Economic recovery the end of civil war politics ever closer European involvement and Anglo Irish highs were followed by Brexit lows and increasing talk of Irish unity There is much to open people's eyes in this riveting account of contemporary Ireland As the Republic enters its second century of independence and the North continues to grapple with the legacy of the Troubles Diarmaid Ferriter makes historical sense of post 1990s Ireland and what lies in the darkest corners of its archives

The Catholic Ethic and Global Capitalism Bryan Fields, 2017-11-22 This title was first published in 2003 Fields traces the origins of recent economic growth in Ireland over a long period of development In doing so he opens up an old debate with new data interpretations and evidence that will force many to question existing truths about the role of religion in economic growth The work is founded on an innovative methodology and unique primary and secondary resource material that has never been used in a study of this kind This is timely as the area has a growing international market and addresses some recently ignored themes in the Social Sciences in particular religion Whilst concerned with global issues this text also focuses on one country which economists and sociologists as well as those in other Social Sciences areas will find of great interest
