Our Own Worst Enemy Tom Nichols,2021-07-22 A contrarian yet highly engaging account of the spread of illiberal and anti democratic sentiment throughout our culture that places responsibility on the citizens themselves Over the past three decades citizens of democracies who claim to value freedom tolerance and the rule of law have increasingly embraced illiberal politicians and platforms Democracy is in trouble but who is really to blame In Our Own Worst Enemy Tom Nichols challenges the current depictions of the rise of illiberal and anti democratic movements in the United States and elsewhere as the result of the deprivations of globalization or the malign decisions of elites Rather he places the blame for the rise of illiberalism on the people themselves Nichols traces the illiberalism of the 21st century to the growth of unchecked narcissism rising standards of living global peace and a resistance to change Ordinary citizens laden with grievances have joined forces with political entrepreneurs who thrive on the creation of rage rather than on the encouragement of civic virtue and democratic cooperation While it will be difficult Nichols argues that we need to defend democracy by resurrecting the virtues of altruism compromise stoicism and cooperation and by recognizing how good we've actually had it in the modern world Trenchant contrarian and highly engaging Our Own Worst Enemy reframes the debate about how democracies have ended up in this dire state of affairs and what to do about it

American identity **Rod Serling** Joel Engel, 1989 Tells the intriguing story of the life of the man who created *The Twilight Zone* won six Emmys and a Peabody Award yet was a tormented man who doubted his writing ability *In the Zone* Peter Wolfe, 1997 *The Twilight Zone* explores the possibilities inhering in the ordinary A *Twilight Zone* episode can move us by being poignant and intimate rambunctious or thought provoking It can also be orchestrated as a set of intertwined plot developments or as a serial progression But regardless of whether it takes place on an asteroid in a city pool room or in the backwoods it will usually convey both a folklorist's eye for detail and the born raconteur's sense of pace Rod Serling the show's founder main scriptwriter and artistic director knew how much burden he could place on his rhetorical and dramatic gifts Deservedly celebrated as a pioneer in TV science fiction he also writes about history and loyalty the grip of everyday reality and the dangers of both forgetting about one's ghosts and giving them the upper hand **America's First Network TV Censor** Robert Pondillo, 2010-04-23 *America's First Network TV Censor* The Work of NBC's Stockton Helffrich is a unique examination of early television censorship centered around the papers of Stockton Helffrich the first manager of the censorship department at NBC Set against the backdrop of postwar America and contextualized by myriad primary sources including original interviews and unpublished material Helffrich's reports illustrate how early censorship of advertising language and depictions of sex violence and race shaped the new medium While other books have cited Helffrich's reports none have considered them as a body of work complemented by the details of Helffrich's life and the era in which he lived *America's First Network TV Censor* explores the ways in which Helffrich's personal history and social class influenced his perception of his role as NBC TV censor and his tendency to ignore certain political and cultural taboos while embracing others Author Robert Pondillo considers Helffrich's life in broadcasting before and after the Second World War and his censorial work in the context of 1950s American culture and emerging network television Pondillo discusses the ways that cultural phenomena including the arrival of the mid twentieth century religious boom McCarthyism the dawn of the Civil Rights era and the social upheaval over sex music and youth contributed to a general sense that the country was morally adrift and ripe for communist takeover Five often censored subjects advertising language and depictions of sex violence and race are explored in detail exposing the surprising complexity and nuance of early media censorship Questions of whether too many sadistic westerns would coarsen America's children how to talk about homosexuality without using the word homosexuality and how best to advertise toilet paper without offending people were on Helffrich's mind his answers to these questions helped shape the broadcast media we know today *Loss of Innocence* Melvin E. Matthews Jr., 2019-05-01 America was certainly the big winner of World War II being the last major country intact Euphoria hubris and a naive self confidence became hallmarks of the people This hubris was dented a bit in the 1950s when scandals erupted around the TV quiz shows that made everyone feel so smart and the U 2 spy incident of 1960 that revealed Americans were being lied to by the government The book argues that these two events began the credibility gap that engulfed the nation later in the 1960s

and continues to haunt us to this day When the War ended the United States still had its economy infrastructure and industry intact Taking up where the British Empire left off the powerful new America expanded its influence around the globe Suddenly light years ahead of any competitor Americans abandoned themselves to a haze of consumerism and entertainment trusting that they were safe and could not be harmed The contestants on the big money quiz shows turned out to be fakes and the respected TV executives were also revealed to be liars and cheats Far worse was yet to come The United States government was caught in a lie regarding the CIA s U 2 reconnaissance planes overflying the Soviet Union On the eve of a crucial summit meeting in 1960 the USSR knocked Gary Powers out of the sky along with plenty of incriminating hardware and data Moscow delayed revealing what it knew and Washington spent ten days denying it was a spy plane then denying that President Eisenhower was aware of it The world was turning into a very scary place and soon American schoolchildren were being taught to duck under their desks if a bomb should strike Fear began to percolate into the heart of the nation
