**The Medieval Chronicle IV** Erik Kooper,2006 There are several reasons why the chronicle is particularly suited as the topic of a yearbook In the first place there is its ubiquity all over Europe and throughout the

Middle Ages chronicles were written both in Latin and in the vernacular and not only in Europe but also in the countries neighbouring on it like those of the Arabic world Secondly all chronicles raise such questions as by whom for whom or for what purpose were they written how do they reconstruct the past what determined the choice of verse or prose or what kind of literary influences are discernable in them Finally many chronicles have been beautifully illuminated and the relation between text and image leads to a wholly different set of questions The yearbook *The Medieval Chronicle* aims to provide a representative survey of the on going research in the field of chronicle studies illustrated by examples from specific chronicles from a wide variety of countries periods and cultural backgrounds The *Medieval Chronicle* is published in cooperation with the Medieval Chronicle Society [Imago Mortis](#) Ashby Kinch, 2013-02-01 Here Ashby Kinch argues for the affirmative quality of late medieval death art and literature providing a new interdisciplinary approach to a well known body of material [Antwerp Royal Museum Annua l2013-2014](#) Paul Vandenbroeck, 2016-12-28 At various points over the course of the 20th century the Belgian State and its various ministries and provinces consciously chose to subsidise not only the fine arts but also the applied and decorative arts and in particular the art of weaving tapestry On the one hand orders were placed for World Exhibitions and for Belgian embassies and on the other competitions were held for tapestries to be hung in important locations such as the United Nations and NATO headquarters and the exhibitions that were organized by the various ministries over the years They provided an overview of the ways in which this branch of the arts was changing as well as representative work by the best tapestry designers The exhibitions organized by the provincial authorities give quite a different image There were the highly conventional exhibitions of Brabantine tapestries to promote the craftsmanship of the province and there were the more innovative textile exhibitions Taken as a whole the commissions competitions and exhibitions give a good overview of what was happening in Belgium in the field of tapestry over the period 1945 1980 They also make it clear what image was being projected abroad that of a country with rich traditions master craftsmanship in weaving and in the 1970s some affiliation to the latest developments in European textile art
