AI and Emotional Intelligence for Modern Business Management Bhardwaj, Bhawana, Sharma, Dipanker, Dhiman, Mohinder Chand, 2023-10-16 The ever evolving field of management in today's corporate world is marked by constant disruptions and turbulence. The emergence of Artificial Intelligence (AI) and Emotional Intelligence (EI) presents opportunities for automation, optimization, and effective leadership, but it also raises concerns about job displacement and the need to bridge the gap between these two domains. **AI and Emotional Intelligence for Modern Business Management: Bridging the Gap and Nurturing Success** offers solutions to closing the knowledge gap. This book provides comprehensive insights and practical strategies to academic scholars, researchers, practitioners, educators, and students. Targeting a diverse audience, this book serves as a solution-oriented resource for navigating the complexities of AI and EI in business management. By addressing both AI and EI, the book equips readers with the necessary tools to integrate these domains seamlessly into modern business management practices, stimulating informed discussions, inspiring innovative approaches, and fostering a deeper understanding of the opportunities and challenges posed by these emerging fields.

Religion beyond its Private Role in Modern Society Wim Hofstee, A. van der Kooij, 2013-09-12 The volume **Religion beyond its Private Role in Modern Society** aims at contributing to the debate on the distinction between public and private spheres with regard to the role of religion in modern societies. This issue, which is inherent to many conceptions regarding social order, modernity, freedom of conscience, and the changing role and function of religion, is discussed not only from a social scientific but also from a historical and philosophical point of view. The articles dwell on several aspects of the role of religion in different societies in modern times, and the overall theme is explored from the perspective of various religious traditions and groups, both institutional and non-institutional. It turns out that the distinction made is difficult to maintain. Contributors include Bart Labuschagne, Linda Woodhead, Niek Brunsveld, Dick Douwes, Mohammed Ghaly, Heleen Murre van den Berg, David Novak, Alexandros Sakellariou, Matthew Tennant, Bruno Verbeek, Ernestine G. E. van der Wall, William Arfman, Stef Aupers, Jeroen Boekhoven, Meerten B. ter Borg, and Kees de Groot.

The Changing Nature of Corporate Social Responsibility Renginee Pillay, 2015-02-20 Corporate Social Responsibility (CSR) has increasingly been promoted as an important mechanism for furthering economic and social development goals in developing countries. In such an optimistic climate, questions arise as to whether CSR can bear the weight of the increasing expectations being heaped on its shoulders. This book examines the changing nature of corporate social responsibility as it has been conceived over the past eighty years. It considers the historical and socio-legal developments of the idea of CSR and the various conceptions of the corporation which underlie different realisations of CSR. The book explores the model of CSR deployed in the developing world as well as the links between CSR and development. Renginee Pillay uses Mauritius as a case study, demonstrating how CSR and corporate governance issues have come to the fore of political, financial, and legal landscapes. Drawing on empirical research, the book
