**The God of Jesus** Stephen J. Patterson, 1998-04-01 This book is the result of the author's involvement with the Jesus Seminar The premise is that the quest for the historical Jesus has always been closely related to the Christian search for God and that this is both good and necessary provided that one properly understands the

relationship between history and theology and does not confuse the two Patterson develops s theology that might properly be called a Jesus Theology and it is here that his contribution to the discussions of and about Jesus makes it a most distinctive contribution

**The Virtues of Vengeance** Peter A. French,2001 In the course of his study of vengeance as a moral concept French exposes important distinctions between types of moral theories karmic and non karmic and between people who are morally handicapped and those who are morally challenged He examines concepts relevant to vengeance such as honor moral authority and evil and issues such as the rationality of revenge and proportionality in punishment BOOK JACKET

*Imagination and Critique* James R. L. Noland,2010-03-03 This book is most easily described as philosophy of history however this descr tion may be a little misleading Truly this is a work of applied philosophy that was originally conceived not in a philosophy seminar but in a school of public policy As a philosopher learning about the study of public policy formation I was f quently struck by what I perceived to be two very different sets of assumptions and methods at work I found these assumptions and methods to be mutually exclusive conceptually but they were often employed simultaneously On the one hand it was often accepted as given when studying past policy changes and political events that history is shaped by impersonal forces that p ple s actions can and ought only to be understood as manifestations of their own material interests and that individuals are to be identi ed as representatives of their respective demographic categories Thus for example the events in question were explained in terms of the race or class of the various parties When such an approach was challenged with an appeal to the actual arguments and stated rationales of the participants of the historical moment in question this was taken to be an option that might be employed either in conjunction with the former method or as an alter tive Which method one chose to emphasize or employ exclusively seemed more a function of inclination or intuition than rational adjudication

*Love and Violence* David Richards,2023-11-25 This book offers both a philosophical and psychological theory of an aspect of human love first noted by

Plato and used by Freud in developing psychoanalysis transference love namely lovers as mirrors for one another enabling them thus better to see and understand themselves and others Shakespeare's art makes the same appeal theater as a communal mirror expressing the artist holding a loving mirror for his culture at a point of transitional crisis between a shame and guilt culture The book shows how Shakespeare's plays offer better insights into the behavior of violent men than Freud's based on close empirical study of violent criminals develops a theory of violence rooted in the moral emotions of shame and guilt and a cultural psychology of the transition from shame to guilt cultures The work argues that violence is contra Freud not an ineliminable instinct in the nature of things requiring autocracy but arises from patriarchally inflicted cultural injuries to the love of equals that undermine democracy and that only a therapy based on love can address such injuries replacing retributive with restorative justice and populist fascist autocracy with constitutional democracy Love thus understood underlies a range of disparate phenomena the appeal of Shakespeare's theater as a communal art the role of love in psychoanalysis in Augustine's conception of love in religion disfigured by his patriarchal assumptions in Kant's anti utilitarian ethics of dignity in a naturalistic ethics that roots ethics in facts of human psychology the role of law in democratic cultures as a mirror and critique of such cultures and the basis of an egalitarian theory of universal human rights inspired by Kant and developed more recently by John Rawls In all these domains uncritically accepted forms of culture the initiation of men and women into patriarchy traumatize the love of equals and thus disfigure and distort our personal and political lives

**the Deuterocanonical and Cognate Literature** Angelo Passaro,2013-12-12 This volume discusses various conceptions of family and kinship in the context of deuterocanonical literature After analyzing the topic family in a narrow sense of the term the articles investigate general ideas of morality respect or love and take a critical look at representations of gender power and social norms in Judaism and Early Christianity      **The Moral Psychology of Contempt** Michelle Mason,2018-03-28

The eye roll the smirk the unilateral lip curl These psychologists tell us are typical expressions of contempt Across cultures such expressions manifest an emotional response to norm violations among them moral norms As such contempt is of tremendous personal and social significance whether in the context of a marriage on the rocks or a country in the grips of racial unrest Scholarship on contempt however lags far behind that of other emotional responses to norm violations such as anger disgust and shame Introducing original work by philosophers and psychologists this volume addresses empirical questions concerning contempt s emotional cognitive and behavioural signature It invites the general reader to reflect on whether contempt is something to be embraced and cultivated as an emotional safeguard of valued norms or rather an emotion from which we have good reason perhaps overriding moral reason to distance ourselves so far as is psychologically possible Advancing the nascent literature on contempt while setting future research agenda the volume is a resource for advanced students and scholars of both empirical and normative moral psychology      **Mutual Boasting in Philippians**

Isaac D. Blois,2020-07-23 Isaac Blois argues that Paul s focus in Philippians on the mutual boasting shared between himself and his converts draws on the mutual boasting shared between Israel and her covenant God as apparent in both Deuteronomy and Isaiah Using the appearance of this central theme in the pivotal passages of Phil 1 25 26 and 2 14 16 as his focus Blois stresses the integral relation between mutual boasting and the role that it plays in Paul s exhortations to the Philippian believers exploring its backdrop in both the biblical tradition and the cultures surrounding them Blois demonstrates how the mutual boasting that Paul shares with his beloved community is culturally appropriate the sharing of honor among friends and family was common in antiquity as seen through the epistolary writing of prominent Roman authors such as Cicero Seneca and Fronto In light of the Scriptural and cultural basis for this motif of shared boasting Blois argues that the apostle is able to deploy the motif in order to motivate an appropriate response from his audience in the letter

Focusing on the prominence of mutual honor and its use for motivation in Philippians 1 and 2 Blois offers a fresh perspective on the exhortative function of the eschatological boasting that is to exist between Paul and his congregation on the day of Christ *Life*, 1918

**Honor in Political and Moral Philosophy** Peter Olsthoorn, 2014-12-03 Argues for revitalizing the place of honor in contemporary life In this history of the development of ideas of honor in Western philosophy Peter Olsthoorn examines what honor is how its meaning has changed and whether it can still be of use Political and moral philosophers from Cicero to John Stuart Mill thought that a sense of honor and concern for our reputation could help us to determine the proper thing to do and just as important provide us with the much needed motive to do it Today outside of the military and some other pockets of resistance the notion of honor has become seriously out of date while the term itself has almost disappeared from our moral language Most of us think that people ought to do what is right based on a love for justice rather than from a concern with how we are perceived by others Wide ranging and accessible the book explores the role of honor in not only philosophy but also literature and war to make the case that honor can still play an important role in contemporary life

The Nordic Bible Marianne Bjelland Kartzow, Kasper Bro Larsen, Outi Lehtipuu, 2023-09-05 The volume offers a new critical reflection on the use of the Bible in contemporary cultural and political debates in the Nordic countries In Nordic Lutheran societies the Bible has been perceived as a basis of religion and social cohesion Whereas such religious and confessional factors are well researched vis vis the historical genesis of the Nordic welfare states the focus here is on public use of the Bible in debates of today
