Douglas Hurt, 2020-03-03 A synthesis of the agricultural history of the Green Revolution The Green Revolution was devised to increase agricultural production worldwide particularly in the developing world Agriculturalists employed anhydrous ammonia and other fertilizing agents mechanical tilling hybridized seeds pesticides herbicides and a multitude of other techniques to increase yields and feed a mushrooming human population that would otherwise suffer starvation as the world's food supply dwindled In *The Green Revolution in the Global South Science Politics and Unintended Consequences* R. Douglas Hurt demonstrates that the Green Revolution did not turn out as neatly as scientists predicted When its methods and products were imported to places like Indonesia and Nigeria or even replicated indigenously the result was a tumultuous impact on a society's functioning A range of factors including cultural practices ethnic and religious barriers cost and availability of new technologies climate rainfall and aridity soil quality the scale of landholdings political policies and opportunism the rise of industrial farms civil unrest indigenous diseases and corruption entered into the Green Revolution calculus producing a series of unintended consequences that varied from place to place As the Green Revolution played out over time these consequences rippled throughout societies affecting environments economies political structures and countless human lives Analyzing change over time almost decade by decade Hurt shows that the Green Revolution was driven by the state as well as science Rather than acknowledge the vast problems with the Green Revolution or explore other models Hurt argues scientists and political leaders doubled down and repeated the same missteps in the name of humanity

and food security In tracing the permutations of modern science's impact on international agricultural systems Hurt documents how beyond increasing yields the Green Revolution affected social orders politics and lifestyles in every place its methods were applied usually far more than once

There Is a Green Hill Jacqui Buckley, 2014-05-07 Whose skeleton is lying on the hilltop on Dooringrand In the nineteenth century a series of events took place in Port Natal and Zululand which culminated in the downfall of the powerful Zulu nation This is the story of three different cultures set against the turbulent backdrop of the AngloZulu wars Many questions are asked Why were more Victoria Crosses awarded in a single encounter than ever before or since for bravery during the defense of Rorkes Drift Why were the English so totally defeated the day before at Isandlwana Why did the Zulus attack so unexpectedly What caused the Boer farmers to align with the British the very people whose oppressive rule they had escaped to Port Natal to get away from And who is really the enemy Journey with the little cattle boy who befriends a queen as he grows and becomes a warrior Experience the ritual of the cleansing ceremonies and others that used to take place before battle Witness his struggle in understanding the morality of warfare and killing Experience the brutality and hardships that the Boer pioneers endured that sowed the seeds of the bitterness that gave birth to the hatred and cruel apartheid system of the future Colonialism was at its height and with it came an arrogance that ignored the needs and cultures of the inhabitants of any new acquisition Learn how this attitude gave Britain one of its biggest and unnecessary defeats It was also by contrast the stage for the most Victoria Crosses awarded for bravery for any single action in Britain's military history All of this went into the melting pot of the rich tapestry that is the South Africa of today

Raw Generals and Green Soldiers Pádraig Lenihan, 2023-08-21 The eleven years of conflict that engulfed Ireland 1641-53 can be seen as a drama in three acts each of which drew Ireland into progressively closer alignment with the Civil Wars 1642-52 in the other two Stuart kingdoms Scotland and England The first act in the Wars of Religion in Ireland 1641-53 began in October 1641 with a rising in Ulster and shuddered to a halt in September 1643 when the insurgents now embodied as the Confederate Catholics agreed a ceasefire with Charles I's representative in Ireland This study is confined to Act One to manage its sheer

scope and scale Not a single county in Ireland was unscathed by war and in summer 1642 there were more men under arms than there ever had been or would be again Moreover Act One was singularly nasty Insurgent slaughter of Protestant settlers in the winter of 1641 42 quickly gained canonical status English and Scots armies routinely massacred natives in the spring and summer that followed After their uprising failed the Irish in 1642 were attacked by English and Scottish armies that were bigger in aggregate than any before or since And that includes the armies of Elizabeth I Oliver Cromwell and William of Orange Lacking munitions forced to disperse their strength and usually outfought in open battle the Confederate Catholics pushed back in war as process and food fights in which castles dominating a chequerboard of hinterlands jostled with hostile neighbors The Catholics were winning this small war when the music stopped in 1643 This is a study of the Catholic armies in Act One through a succinct narrative which reveals underlying pattern and purpose in what would otherwise be one apparently random battle siege skirmish massacre and cattle raid after another devoid of form or meaning The narrative focuses in and out from the strategic through the operational down to the tactical and what happened in a particular place on a given day The narrative also shifts from the southern or Leinster Munster theater to the northern or Connacht Ulster theater Meaning is disclosed through narrative in which the strengths and shortcomings of the Irish armies become clearer The quotation in the title sets up two such shortcomings of leaders and led One reason why the Catholics lost so many battles may be that their generals fought battles when they needn't have showed a fatal preference for the all out attack and did not always deploy in a manner that let their army's components pike shot and horse act in mutual support Another reason may be that the rankers were less invested in the Catholic cause than their officers But the establishing quotation is followed by a question mark Perhaps the real question to be asked is how the Catholic armies achieved so much rather than why they failed
