Union Christopher A Whatley, 2014-04-14 Public opinion in Scotland in 1707 was sharply divided between advocates of Union opponents and a large body of don't knows In 1706-7 it was party and dynastic advantage that was the main reason for opposition to the proposed union at elite level Whatever the reasons now for maintaining the Union they are in some important respects different from those which took Scotland into the Union such as French aggression securing the Revolution of 1688-89 and the defence of Protestantism This new edition assesses the impact of the Union on Scottish society including the bitter struggle with the Jacobites for acceptance of the union in the two decades that followed its inauguration The book offers a radical new interpretation of the causes of union Now as in 1706-7 some kind of harmonious relationship with England has to be settled upon There exists on both sides of the border mutual antipathy but also powerful bonds of language kin and economics In the case of Scotland there is a strong sense of being different from England a separate nation But arguably this was even more powerful in the mid 19th century when demand grew not for independence but Home Rule As in 1707 economic considerations are central even if the nature of these now are different the Union was forged in an era of muscular mercantilism Perceptions of economic gain and loss affected behaviour in 1706-7 and continue to affect attitudes to the Union today This new edition lends historical weight to the present day arguments for and against Union Within an Hour of London Town Among Wild Birds and Their Haunts Denham Jordan, 1892 **Lord Wastwater** Sidney Bolton, 1892 *Impressions of Dante and of the New World* John Walter Cross, 1893 **The Zambesi Basin and Nyassaland** Daniel J.
