Representing the Holocaust in Children's Literature Lydia Kokkola, 2013-10-15 Writing about the Holocaust and writing for young readers evoke two quite separate sets of concerns which are not always mutually compatible The first half of *Representing the Holocaust* focuses on how literary material can present historically verifiable material The second half examines how such materials will be perceived by young readers whether they will be able to determine any boundaries between fictionality and factuality and what motivates young readers to keep reading The work concludes by placing the study in the context of Holocaust education

**A Past Without Shadow** Zohar Shavit, 2005-02-22 *A Past Without Shadow* examines 50 years of German children's books in which the darkest horrors of the Third Reich have routinely remained hidden The horrors of the Third Reich are systematically screened and filtered allowing the darker bleaker parts of history to escape illumination Here Zohar Shavit explores 345 German books for children describing the Third Reich and the Holocaust and finds a shocking distortion of the past a recurrent narrative which suggests that the Germans themselves had no hand in the suffering inflicted on the Jews These books Shavit argues have created the false historical lesson that the real victims of Hitler's crimes were the German people themselves First published to great acclaim in Hebrew and now available in English this book is a wake up call for anyone concerned about German children's literature and its responsibility to past and future

*Recovering Jewishness* Frederick S. Roden,2016-02-22 Judaism and Jewish life reflect a diversity of identity after the past two centuries of modernization This work examines how the early reformers of the 19th century and their legacy into the 20th century created a livable liberal Jewish identity that allowed a reinvention of what it meant to be Jewish a process that continues today Many scholars of the modern Jewish identity focus on the ways in which the past two centuries have resulted in the loss of Jewishness through assimilation intermarriage conversion to other faiths genocide in the Holocaust and decline in religious observance In this work author Frederick S Roden presents a decidedly different perspective that the changes in Judaism throughout the 19th and 20th centuries resulted in a malleable welcoming and expanded Jewish identity one that has benefited from intermarriage and converts to Judaism The book examines key issues in the modern definition of Jewish identity who is and is not considered a Jew and why issues of Jewish authenticity and the recent history of the debate Attention is paid to the experiences of individuals who came to Judaism from outside the tradition through marrying into Jewish families and or choosing Judaism as a religion In his consideration of the tragedy of the Holocaust the author examines how a totalitarian regime's racial policing of Jewish identity served to awaken a connection with and reconfiguration of what that Jewish identity meant for those who retrospectively realized their Jewishness in the postwar era
