Orient Of The Boulevards:

The Orient of the Boulevards Angela C. Pao, 1998 The author draws upon the methodologies of theater and cultural studies to examine the construction of the Orient on the Parisian stage during the nineteenth century the period of France's first imperial expansions into North Africa and the Middle East As an increasingly large segment of the French population moved into contact with the Middle East and North Africa as soldiers colonial administrators settlers and merchants the balance between fantasy and immediacy in Orientalized drama shifted The domestic melodrama gave way to elaborately staged military spectacles based on current events Performed before working class audiences many of whose members were to be called up for military service these spectacles bore explicit political and imperial agendas Mining rich archival resources of play texts censorship reports critical reviews and contemporary writings on performance practice this book reveals the complex processes by which the institutions of popular culture helped shape nineteenth century notions of race ethnicity and nationality

Widows, Pariahs, and Bayadères Binita Mehta, 2002 This book analyzes how French dramatists reproduced certain images of India such as the burning widow the lowly pariah or untouchable and the exotic bayadere or dancing girl in four plays and one ballet written from the eighteenth century through the twentieth centuries Addressing questions of Orientalism the book also argues that it was because the French lost their Indian colonies to the British in the eighteenth centuries that India became a part of the French literary imagination

Napoleon's Sorcerers Darius Alexander Spieth, 2007 During Napoleon's rule Freemasonic circles in France invented rituals that allegedly first took place in the temple structures of ancient Egypt This book looks at the cultural environment and intellectual background of one such pseudo Egyptian secret society the Sacred Order of the Sophians

French Theatre, Orientalism, and the Representation of India, 1770-1865 David Hammerbeck, 2021-12-30 This book examines the French theatricalization of India from 1770 to 1865 and how a range of plays not only represented India to the French viewing public but also staged issues within French culture including colonialism imperialism race gender and national politics Through examining these texts and available performance history and incorporating historical texts and cultural theory David Hammerback analyses these works to illustrate a complex of cultural representations some contested Orientalism some participated in Western colonialist discourses while some can be placed somewhere between these two markers of ideology in Western culture and the arts He also assesses the works which participated in shaping the theatrical face of Western hegemony ones directly participating in Orientalism as delineated by Edward Said and others This book will be of great interest to students and scholars in theatre French literature history and cultural studies
