Politicheskie Partii Belarusi Mezhdru Proshlym I Budushchim

Игорь Васильевич Котляров

Politicheskii Partii Belarusi Mezhdurazhnykh I Budushchikh:

Postcommunist Belarus Stephen White, Elena A. Korosteleva, John Löwenhardt, 2005 Belarus is one of the least studied European states to emerge from the collapse of the Soviet Union in 1991. In fact few Western specialists paid much attention to its affairs during the Soviet era. Nevertheless Belarus constitutes an important and sensitive border region between Russia and the western part of the continent. In Postcommunist Belarus a stellar group of contributors examines the issues and the search for identity that Belarus has confronted in the period leading up to and following independence. The country is run in an authoritarian fashion by President Alexander Lukashenko and many observers both inside and outside Belarus would use the term dictatorship to describe his rule. Belarusian authorities prefer to emphasize the strong support of the people for the president and his cautious approach to economic reform. It seems unlikely that the country can hold out permanently against the wider pressures of democratization and economic reform that are transforming its neighbors. The country's situation offers political scientists many facets for comparison with established models. Belarus is grappling with challenges that are conceptual and psychological as much as they are political, economic and social. Through new research the contributors to Postcommunist Belarus offer an important, coherent and comparative perspective on this little known country.
