Politics Among Nations The Struggle For Power And Peace:

Politics Among Nations Hans Joachim Morgenthau, 1952 Politics Among Nations Hans Joachim Morgenthau, Kenneth W. Thompson, 1993 Focusing on international politics this edition features various themes including national interest and power Politics Among Nations Hans Joachim Morgenthau, 1972 *Politics Among Nations* Hans Morgenthau, 1955 **Politics Among Nations** Hans J. Morgenthau, 1967 Morgenthau, Law and Realism Oliver Jüterssonke, 2010-08-19 Although he is widely regarded as the founding father of realism in International Relations this book argues that Hans J Morgenthau's legal background has largely been neglected in discussions of his place in the canon of IR theory Morgenthau was a legal scholar of German Jewish origins who arrived in the United States in 1938 He went on to become a distinguished professor of Political Science and a prominent commentator on international affairs Rather than locate Morgenthau's intellectual heritage in the German tradition of Realpolitik this book demonstrates how many of his central ideas and concepts stem from European and American legal debates of the 1920s and 1930s This is an ambitious attempt to recast the debate on Morgenthau and will appeal to IR scholars interested in the history of realism as well as international lawyers engaged in debates regarding the relationship between law and politics and the history of International Law

Righteous Realists Joel H. Rosenthal, 2002-03-01 Political realism in post World War II America has not been about power alone but about reconciling power with moral and ethical considerations The caricature of realism as an expression of amoral realpolitik has been inadequate and false for realism in the nuclear age has pivoted as much on moral principles as on power politics Joel H Rosenthal's survey of five noteworthy self proclaimed political realists explores the realists overarching commitment to transforming traditional power politics into a form of responsible power commensurate with American values Hans Morgenthau George Kennan Reinhold Niebuhr Walter Lippman and Dean Acheson the most important and prolific of the American realists all fought the excesses of crusading moralism while simultaneously promoting a concept of power politics that retained a moral component at its core This is the story of how architects of containment present at the creation of the new bipolar world shaped by the threat of mutual assured destruction became ardent critics of that world It describes realism as a product of a particular time and place a set of values assumptions processes of moral reasoning and views about America's role in the world Much of the current scholarship on the modern American realists dwells on the alleged inconsistencies of realism as a political theory and the tortuous mixture of piety and detachment exhibited in the lives of the realists themselves Rosenthal takes the opposite tack assembling the ties that bind realism into a coherent world view rather than deconstructing it into irreconcilable fragments Rosenthal maintains that the postwar American realists may be best understood as products of the historical and cultural context from which they emerged Their attempts to articulate a public philosophy and integrate values into decision making in international affairs reflected their views on both the way the world is and the way the world ought to be This study explains realism as an effort to articulate a prescriptive framework for

working toward the ideal while living in the real In doing so it reveals the realists insistence on evaluating competing claims and on accepting paradox as an inevitable component of moral choice *Politics Among Nations. The Struggle for Power and Peace ... Second Edition, Revised and Enlarged. [With Maps, and a Bibliography.]* Hans Joachim Morgenthau, 1955

Politics Among Nations Hans Joachim Morgenthau (Politologe, Deutschland, USA), 1953 *Power, Politics, Law* Radhika Withana, 2008 This book hypothesises that an ILI perspective offers a better explanation of the law State behaviour relationship during international crises than rival explanations grounded in positivism realism or functionalism Four case studies of State behaviour of the US the Soviet Union and the PRC during the Korean War 1950 1953 of the US and UK during the Suez crisis 1956 of the US and the Soviet Union during the Cuban Missile Crisis 1962 and of the US and an alliance of Latin American States during the Dominican Republic crisis 1965 are used to test the hypothesis The findings confirm the greater explanatory efficacy of ILI and demonstrate that the significance of international law to foreign policy decision making during international crises is more than that of deterring the use of force as is assumed by rival theoretical approaches grounded in a rule book image of international law Back cover **Cold peace** Pierluigi Sabatini, 2018-04-19 Since its formation the UN Council has been the main actor for the maintenance of international security This essay focuses on the study of the Council and the comparison of the main liberal assumptions with those of the realistic theory The various liberal authors confronting the international structure proposing ideas that can develop that international design aimed at creating a project of perpetual peace Realist thinkers on the other hand concentrate their thinking on the concept of power allowing it to justify a state centric international vision in which states use the strength to satisfy their national interests

Irrational Human Rights? An Examination of International Human Rights Treaties Naiade el-Khoury, 2020-12-15 In *Irrational Human Rights An Examination of International Human Rights Treaties* Naiade el-Khoury pursues the question how effective international human rights treaties really are and offers a discussion on the effects of treaty mechanisms Such an examination as to the effects of international human rights treaties or rather their limits puts prevalent views of international law to the test In doing so this book convincingly argues that rational theories are inadequate to grasp the full effect of international human rights treaties

Realism and International Relations Jack Donnelly, 2000-06-1 The realist tradition

Realist Constructivism J. Samuel Barkin, 2010-03-25 Realism and constructivism two key contemporary theoretical approaches to the study of international relations are commonly taught as mutually exclusive ways of understanding the subject Realist Constructivism explores the common ground between the two and demonstrates that rather than being in simple opposition they have areas of both tension and overlap There is indeed space to engage in a realist constructivism But at the same time there are important distinctions between them and there remains a need for a constructivism that is not realist and a realism that is not constructivist Samuel Barkin argues more broadly for a different way of thinking about theories of international relations that focuses on the corresponding elements within various approaches rather than on a small set of mutually exclusive paradigms Realist Constructivism provides an interesting new way for scholars and students to think about international relations theory
