Politics Of Unreason

Seymour Martin Lipset

Politics Of Unreason:

The Politics of Unreason Seymour Martin Lipset, Earl Raab, 1971 **The Politics of Unreason** Seymour Martin Lipset, Earl Raab, 1970 **The Politics of Unreason** Seymour Martin Lipset, 1990-06-01 **The Politics of Righteousness** James A. Aho, 1990 The combination of violence with religious and political extremism is explosive and usually surrounded by equally explosive rhetoric And so it is illuminating to discover an objective scientific approach to this timely issue Aho has masterfully examined the religious and political movement that in general calls itself Christian Patriotism Los Angeles Daily News *Politics on a Human Scale* Jeff Taylor, 2013-09-27 Featuring a foreword by Congressman Glen Browder *Politics on a Human Scale* examines political decentralization in the United States from the founding of the republic to the present Part of the desirable equilibrium is a sense of proportionality Some sizes some amounts some levels are more appropriate than others Decentralism is the best political tool to ensure equilibrium to promote proportionality and to obtain appropriate scale Power distribution should be as wide as possible Government functions should be as close to the people as practicable In this way individual human beings are not swallowed by a monstrous Leviathan Persons are not at the mercy of an impersonal bureaucracy led by the far away few Decentralism gives us politics on a human scale It gives us more democracy within the framework of a republic The longest chapters in the book deal with crucial turning points in U S history specifically when decentralists lost the upper hand in the two major political parties Decentralism in our nation runs deep both intellectually and historically It also has considerable popular support Yet today it is a virtual political orphan In Washington neither major political party is serious about dispersing power to lower levels of government or to the people themselves Still there are dissident politicians and political movements that remain committed to the decentralist principle Power needs to be held in check partly through decentralization because power holds a great and dangerous attraction for humans Recognition of this human tendency is the first step in guarding against it and getting back on a better path *The Politics of Unreason* Seymour Martin Lipset, 1970 **The National Front in English Politics** Stan Taylor, 1982-06-18 **American Extremism** D. J. Mulloy, 2004-08-02 American Extremism explains how at the heart of the politics practiced by the militia movement is an attempt to define the nature of Americanism and shows how militia members employ the myths metaphors and perceived historical lessons of the American Revolution the constitutional settlement and America s frontier experience to do so Mulloy argues that militia members search for the authority of history leads them to a position best characterized as ahistorical historicism in which political interests in the present are given greater weight than the demands of a historically accurate reading of the past With discussion of such recent events as the Oklahoma City bombing Waco and the September 11th attacks alongside topical issues including militia conspiracy theories and the origins of Americans right to keep and bear arms this work provides the deepest understanding to date of the American militia movement *The Farrakhan Phenomenon* Robert S. Singh, 1997-07-01 In this penetrating critical analysis

of Louis Farrakhan's ascent to national influence Robert Singh argues that the minister's rise to prominence is a function of race and reaction in contemporary America Singh probes the origins and significance of Farrakhan in American politics Drawing on published and unpublished records personal interviews and Farrakhan's writings and speeches Singh places Farrakhan expressly within the paranoid style of such reactionaries as Jesse Helms and Joseph McCarthy Examining Farrakhan's biographical details religious beliefs political strategies and relative influence Singh argues that Farrakhan is an extreme conservative who exploits both black white divisions and conflicts within the black community for personal advancement Singh proposes that Farrakhan's complex appeal to African Americans is based on his ability to orchestrate the diffuse forces of African American protest against the status quo Paradoxically says Singh Farrakhan has achieved his position in part by positioning himself against most African American political leaders a tactic made possible by the extent to which black American politics now displays the same basic features as American politics in general By stoking the fires of fear and hatred yet effecting no real changes Farrakhan poses a greater threat to black Americans than to whites The Farrakhan Phenomenon is written in a clear accessible style that will appeal to general readers concerned about race relations as well as to scholars of American history and politics It reveals a shrewd opportunist who has capitalized on America's continuing failure to deal with its serious and abiding race problems *Dirty Politics* Kathleen Hall

Jamieson, 1993 In recent years Americans have become thoroughly disenchanted with political campaigns especially with ads and speeches that bombard them with sensational images while avoiding significant issues Now campaign analyst Kathleen Hall Jamieson provides an eye opening look at the tactics used by political advertisers Photos and line drawings

Eisenhower and the American Crusades Herbert S. Parmet, 2019-08-08 Herbert S. Parmet's *Eisenhower and the American Crusades* is a major assessment of the American presidency during the critical period of America at mid century The book follows the career of General Dwight D Eisenhower from 1952 when he decided to leave his NATO command to campaign for the presidency to his retirement at Gettysburg nearly nine years later His entry into politics was well timed A mood of conservatism was sweeping the country surveys indicated that the majority of Americans felt it was time for a change from two decades of executive control by those who had permitted events to get out of hand Parmet based his study of the Eisenhower years on massive research conversations with leading figures of the era and previously unreleased documents This wealth of material has enabled him to provide answers to questions frequently asked about the thirty fourth president Was Eisenhower the kind fatherly man millions grew up to love on their television or was this an image created by a shrewd politician who knew what the country needed in a trying time Did he choose Richard Nixon as a running mate or was Nixon forced upon him by political necessities Was the president intimidated by the appearance of power of Joseph McCarthy and did the Army McCarthy hearings influence Eisenhower's decision to involve the United States in Vietnam Was Eisenhower concerned with the lack of progress in civil rights Was he the right man for the right time in history or was he merely

postponing the major crises of the 1960s Parmet offers a convincing refutation of the idea of the Eisenhower years as being placid or boring No years that contained McCarthy and McCarthyism a war in Korea constant fears of nuclear annihilation and spreading racial violence could be so described For Parmet Eisenhower was a stabilizing force in a time of conflict He may not have been a political genius but he knew perhaps better than anyone else around him exactly what the people wanted and how they wanted it

Race and Class in Texas Politics Chandler Davidson, 2021-02-09 This major work on Texas politics explores the complicated relations between the politically disorganized Texas blue collar class and the rich and the fabulously rich whose interests have been protected by brilliant practitioners of horse trading guile the jovial but serious threat the offer that can t be refused

Consensus and Conflict Seymour Martin Lipset, 1985-01-01 The first of two volumes of Seymour Martin Lipsit s major papers deals with social and political conflict and to a lesser extent the way in which value systems and political institutions maintain order and consensus Together these papers expound Lipset s thesis that although all complex societies are characterized by a high degree of internal tension and conflict consensual institutions and values are necessary conditions for their persistence

The Politics of Unreason Seymour Martin Lipset, Earl Raab, *White Backlash and the Politics of Multiculturalism* Roger Hewitt, 2005-06-23 The murder of Stephen Lawrence led to the widest review of institutional racism seen in the UK Sections of the white working class communities in south London near to the scene of the murder however displayed deep hostility to the equalities and multiculturalist practice of the local state and other agencies Drawing on extensive ethnographic research this book relates these phenomena to the backlash to multiculturalism evident during the 1990s in the USA Australia Canada the UK and other European countries It examines these within the unfolding social and political responses to race equalities in the UK and the USA from the 1960s to the present in the context of changes in social class and national political agendas This book is unique in linking a detailed study of a community at a time of its critical importance to national debates over racism and multiculturalism to historically wider international economic and social trends

Modern Free Society and Its Nemesis Milan Zafirovski, 2007-01-01 Modern Free Society and Its Nemesis explores whether and to what extent conservatism represents a negation to free society and liberty in Western countries

Extremism in America George Michael, 2013-12-10 The American Republic was born in revolt against the British crown and ever since political extremism has had a long tradition in the United States To some observers the continued presence of extremist groups and the escalation of their activities portends the fragmentation of the country while others believe such is the way American pluralism works The word extremism often carries negative connotations yet in 1964 Barry Goldwater famously said Extremism in the defense of liberty is no vice Extremism in America is a sweeping overview and assessment of the various brands of bigotry prejudice zealotry dogmatism and partisanship found in the United States including the extreme right the antiglobalization movement Black Nationalism Chicano separatism militant Islam Jewish extremism eco extremism the radical antiabortion movement and extremist terrorism Many of these

forms of single minded intolerance are repressed by both the state and society at large but others receive significant support from their constituencies and enjoy a level of respectability in some quarters of the mainstream The essays in this volume written by area specialists examine the relationship between these movements and the larger society dissect the arguments of contemporary American anarchist activists look at recent trends in political extremism and suggest how and why such arguments resonate with a considerable number of people

American Maelstrom Michael A. Cohen, 2016-04-21 In his presidential inaugural address of January 1965 Lyndon B Johnson offered an uplifting vision for America one that would end poverty and racial injustice Elected in a landslide over the conservative Republican Barry Goldwater and bolstered by the so called liberal consensus economic prosperity and a strong wave of nostalgia for his martyred predecessor John F Kennedy Johnson announced the most ambitious government agenda in decades Three years later everything had changed Johnson's approval ratings had plummeted the liberal consensus was shattered the war in Vietnam splintered the nation and the politics of civil rights had created a fierce white backlash A report from the National Committee for an Effective Congress warned of a national nervous breakdown The election of 1968 was immediately caught up in a swirl of powerful forces and the nine men who sought the nation's highest office that year attempted to ride them to victory or merely survive them On the Democratic side Eugene McCarthy energized the anti war movement George Wallace spoke to the working class white backlash Robert Kennedy took on the mantle of his slain brother Entangled in Vietnam Johnson stunningly opted not to run again scrambling the odds On the Republican side 1968 saw the vindication of Richard Nixon who outthrust Nelson Rockefeller Ronald Reagan and George Romney by navigating between the conservative and moderate wings of the Republican Party The assassinations of the first Martin Luther King Jr and then Kennedy seemed to push the country to the brink of chaos a chaos reflected in the Democratic Convention in Chicago a televised horror show Vice President Hubert Humphrey emerged as the nominee and finally liberating himself from Johnson's grip nearly overcame the lead long enjoyed by Nixon who by exploiting division and channeling the national yearning for order would be the last man standing In *American Maelstrom* Michael A Cohen captures the full drama of this watershed election establishing 1968 as the hinge between the decline of political liberalism the ascendancy of conservative populism and the rise of anti governmental attitudes that continue to dominate the nation's political discourse In this sweeping and immersive book equal parts compelling analysis and thrilling narrative Cohen takes us to the very source of our modern politics of division

To the Right Jerome L. Himmelstein, 2023-04-28 In this timely book Jerome Himmelstein offers a new interpretation of the growth of conservatism in American politics Tracing the New Right of the 1970s and 1980s back to the Old Right of the 1950s Himmelstein provides an interpretive map of the political landscape over the past decades showing how conservatives ascended to power by reconstructing their ideology and building an independent movement This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest

minds and give them voice reach and impact Drawing on a backlist dating to 1893 *Voices Revived* makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1990 In this timely book Jerome Himmelstein offers a new interpretation of the growth of conservatism in American politics Tracing the New Right of the 1970s and 1980s back to the Old Right of the 1950s Himmelstein provides an interpretive map of the politi

Politics and Political Change Robert I. Rotberg, 2001 This collection shows how the study of past politics can be deepened by theory and practice from political science sociology and economics and how the application of quantitative methods to received assumptions can expand our understanding of all political history
