enquiry This collection of thirty one commissioned chapters provides a contemporary picture of the diverse field of English studies and is an expert informed text for advanced students and researchers in this field Capital, Commodity, and English Language Teaching William Simpson, 2022-07-28 Capital Commodity and English Language Teaching illustrates how the drive for profit in commercial ELT affects the manner in which language is taught The book looks at education as a form of production and asks how lessons are produced and how the production of profit in addition to the production of the lesson affects the operation of educational institutions and their stakeholders Simpson delivers a theoretically rigorous conception of capital and builds from this an investigation into how the circulation of capital for profit interrelates with the teaching of language Simpson discusses ELT at both a global level in discussion of the ELT industry in the UK the US Ireland Canada Japan Spain and transnationally online as well as at a more local level where finer detailed descriptions of the work lives of those within the Japanese eikaiwa ELT industry are given Drawing on a synthesis of Marxist and Bourdieusian theory the book outlines a dialectical approach to understanding capital and to understanding how the drive for profit and language education interrelate with one another Simpson concludes by showing how such an approach might open up areas for further research in a number of contexts across the globe as well as in light of the Covid 19 pandemic Providing a model for addressing global issues of ELT this book is of interest to advanced students scholars and professionals within applied linguistics TESOL sociolinguistics and linguistic anthropology language economics and related areas Language Policy and Political Economy Thomas Ricento, 2015 English is the common denominator that unites the work presented in this volume it provides a focal point to illustrate the ways in which a political economic approach can account for a range of phenomena in diverse settings in which a global language has attained a special status as an often perceived tool for socioeconomic mobility The findings reveal the complex ways in which government leaders and policymakers as well as communities and individuals in those communities make decisions within a global economy about the languages that will be taught as subjects or used as media of instruction in schools Whether or not the Straight for English policy that has become popular in various countries in southern Africa and elsewhere is a good or bad idea in terms of improving school completion and literacy rates English is often promoted by its advocates as a social good with unquestioned instrumental value yet access to quality English medium education in low income countries is mostly restricted to those with sufficient economic means to pay for it As the capitalist world economy undergoes transformations and assuming that translation technologies continue to improve it is likely that the roles and relative importance that English as a global language has enjoyed over the past century will change significantly Synchronic contextual analyses of English in various countries and regions are snapshots of a moving target with fuzzy boundaries this is even more so the case when the object of analysis is lingua franca English a fluid contextually realized practice that may be described in situ which is not stable and likely never will be The degree to which English serves effectively as a lingua franca depends on who the interlocutors are the situation and the

extent to which interlocutors interests and goals are mutually compatible and understood The Politics of English as a World Language Christian Mair, 2003 The complex politics of English as a world language provides the backdrop both for linguistic studies of varieties of English around the world and for postcolonial literary criticism The present volume offers contributions from linguists and literary scholars that explore this common ground in a spirit of open interdisciplinary dialogue Leading authorities assess the state of the art to suggest directions for further research with substantial case studies ranging over a wide variety of topics from the legitimacy of language norms of lingua franca communication to the recognition of newer post colonial varieties of English in the online OED Four regional sections treat the Caribbean including the diaspora Africa the Indian subcontinent and Australasia and the Pacific Rim Each section maintains a careful balance between linguistics and literature and external and indigenous perspectives on issues The book is the most balanced complete and up to date treatment of the topic to date *Blood Ties and Politics* Louie Benedict R. English Studies from Archives to Prospects Irena Zovko Dinković, Tihana Klepač, Martina Domines Veliki, 2016-04-26 When we think about what it is we do in academic literary studies we do so taking account of time, the time of the institution in which this disciplinary practice takes place and the history of the discipline itself. Since literary studies engage contemporary issues and how they impact the reader we must also acknowledge processes and events outside the field. The contributions to this volume engage with the idea of temporality not only in Anglophone literature studies but in the humanities as a whole. In the first section the literary contributions show that the humanities owe a debt to the past; new paradigms question and challenge the validity of older ones without necessarily discarding them. The second section shows how the disciplinary archive can be modified and expanded to engage its present condition while the last deals with what that condition forebodes. Despite the range of perspectives adopted here all contributions echo the history of the discipline of literary studies itself, its present condition and the possibilities for its survival in an age in which the relevance of humanities is being disputed.

English Language and Literature Modupe Moyosore Alimi, Mompoloki Mmangaka Bagwasi, Patrick James Ebewo, 2020-11-09 *English Language and Literature Cross Cultural Currents* is a collection of essays that interrogate the precarious positions of English and African languages in an era in which English is increasingly becoming the dominant language in Africa while at the same time there is a growing resistance against it. Though many Africans take pride in their own cultural heritage that is expressed by their African languages they require the economic and social benefits of English. The book presents a language dilemma in which both African languages and English enhance, inhibit and influence each other. The data used by the authors spans a broad spectrum of sources including fiction, courts, parliamentary Hansards.

House of Chiefs classrooms internet roads and bus ranks Thus it is reflective of the most and least educated the most and least influential Africans The presentations provide broad insights about African symbols metaphors imagery and folklores representing undocumented literature that challenge scientific imperialism and deficit theories The diversity and freshness of the ideas in the book stem from the unique blend of the background of the contributors English language and literature teachers teachers of African languages educationalists sociologists historians and politicians Thus the book is a valuable asset to scholars in linguistics anthropology and language policy makers

The Politics Of Language Pastora Cafferty, Carmen Rivera-Martinez, 2019-06-21 Demographers predict that by the end of the century Spanish speaking persons will constitute the largest minority group in the United States in this context bilingual education must be considered a crucial issue for educators and policymakers at the state national and local levels Professors Cafferty and Rivera Martinez analyze bilingual education policies and programs particularly as they affect the Puerto Rican child and reach some startling conclusions They find that these programs do not despite the best intentions offer the equal opportunity and social mobility that has been their purpose While the authors attempt to neither examine nor define the general problem of bilingual education methodology they do address the problem of educating the Puerto Rican child as one minority among many They suggest alternatives for solving the problem and recommend specific policies for federal state and local governments attempting to integrate Spanish speaking minorities into the educational process

Asian English Myles Chilton, Steve Clark, Yukari Yoshihara, 2022-01-24 Contesting the idea that the study of Anglophone literature and literary studies is simply a foreign import in Asia this collection addresses the genealogies of textual critique and institutionalized forms of teaching of English language and literature in Asia through the 19th and 20th centuries along with an examination of how its present

options and possible future directions relate to these historical contexts It argues that the establishment of Anglophone literature in Asia did not simply happen there were extra literary and academic forces at work inserting and domesticating in Asian universities both the English language and Anglo American literature and their attendant cultural and political values Offering new perspectives for ongoing conversations surrounding the globalization of Anglophone literature in literary and cultural studies the book also considers the practicalities of teaching both the language and its canon of classic texts and that the historical formation and shape of English studies in Asia offers lessons that relate not only to the discipline but also may be applied to the humanities as a whole An Intercultural Approach to English Language Teaching John

Corbett,2022-03-02 This is a thoroughly revised updated and expanded edition of a practical introduction to intercultural education for teachers of English as a second language It provides a concise summary of the intellectual and pedagogical traditions that have shaped intercultural language education from ethnography to critical pedagogy and cultural studies The book offers clear illustrations of the practical impact of these traditions on curriculum design classroom activities and assessment As well as addressing developments in the field since the publication of the 1st edition this new edition also reflects on the impact of online resources for English language education The book continues to make a powerful case for developing intercultural as well as linguistic competences and will remain invaluable reading for English language teachers across the world
