Politics From Anarchy To Democracy Rational Choice In Political Science:

Politics from Anarchy to Democracy Irwin Lester Morris, Joe A. Oppenheimer, Karol Edward So?tan, 2004 Although the study of politics dates to ancient Greece the basic questions that interested those earliest political scientists still linger with us today What are the origins of government What should government do What conditions foster effective governance Rational choice theory offers a new means for developing correctable answers to these questions This volume illustrates the promise of rational choice theory and demonstrates how theory can help us develop interesting fresh conclusions about the fundamental processes of politics Each of the book s three sections begins with a pedagogical overview that is accessible to those with little knowledge of rational choice theory The first group of essays then discusses various ways in which rational choice contributes to our understanding of the foundations of government The second set focuses on the contributions of rational choice theory to institutional analysis The final group demonstrates ways in which rational choice theory helps to understand the character of popular government

The Oxford Handbook of Political Networks Jennifer Nicoll Victor, Alexander H. Montgomery, Mark Lubell, 2018 Politics is intuitively about relationships but until recently the network perspective has not been a dominant part of the methodological paradigm that political scientists use to study politics This volume is a foundational statement about networks in the study of politics

Constitutionalizing World Politics Karolina Milewicz, 2020-07-23 Constitutionalization of world politics is emerging as an unintended consequence of international treaty making driven by the logic of democratic power The analysis will appeal to scholars of International Relations and International Law interested in international cooperation as well as institutional and constitutional theory and practice

The Oxford Handbook of Spanish Politics Diego Muro, Ignacio Lago, 2020 Oxford Handbooks offer authoritative and up to date surveys of original research in a particular subject area Specially commissioned essays from leading figures in the discipline give critical examinations of the progress and direction of debates as well as a foundation for future research Oxford Handbooks provide scholars and graduate students with compelling new perspectives upon a wide range of subjects in the humanities social sciences and sciences

Handbook of Biology and Politics Steven A. Peterson, Albert Somit, 2017-05-26 The study of biology and politics or biopolitics has gained considerable currency in recent years as articles on the subject have appeared in mainstream journals and books on the subject have been well received The literature has increased greatly since the 1960s and 1970s when this specialization first made an appearance This volume assesses the contributions of biology to political science Chapters focus on general biological approaches to politics biopolitical contributions to mainstream areas within political science and linkages between biology and public policy The volume provides readers with a comprehensive introduction to the subject

Research Design in Political Science Dimitar Toshkov, 2016-02-10 This is a comprehensive introduction to research design for university students at all levels across the whole range of political science including international relations and public administration It covers the key steps in the

research process and explains the logic and detail of a variety of classic and cutting edge methods Based on a pluralistic approach the text endorses both quantitative and qualitative research methodologies and outlines the strengths and limitations of different designs for addressing particular research goals Giving accessible and practical advice without use of mathematical formulas or formalized notation this clear and engaging book features many examples of real political science research and will enable readers to design their own research projects as well as to critically evaluate existing research in the social sciences Redrafting Constitutions in Democratic Regimes Gabriel L. Negretto,2020-09-17 This book analyzes how replacing democratic constitutions may contribute to the improvement or erosion of democratic principles and practices

Provisional Politics Elisabeth Ellis,2008-01-01 If we are to vindicate moral reasoning in politics Elisabeth Ellis argues in this original and provocative work we must focus on the conditions of political discourse rather than the contents of any particular ethical system Written in an engaging direct style Provisional Politics builds on Ellis s prize winning interpretation of Kant s theory of provisional right to construct a new theory of justice under conditions of agency and plurality She develops this new perspective through a series of cases ranging from the treatment of AIDS widows in Kenya to the rights of non citizens everywhere as well as the clash between democratic decision making and the politics of species conservation

The book concludes with a sobering discussion of the probable limits of political agency *Models of Political Economy* Hannu Nurmi,2006-10-13 Models of Political Economy will introduce students to the basic methodology of political economics It covers all core theories as well as new developments including decision theory game theory mechanism design games of asymmetric information Hannu Nurmi s text will prove to be invaluable to all students who wish to understand this increasingly technical field **Meritocracy and Americans' Views on Distributive Justice** Richard T.

Longoria,2009-01-01 This book focuses on public opinion on issues related to the theory of meritocracy It employs survey data from a variety of sources in an attempt to understand public sentiments highlighting the contradictory nature of American public opinion and questioning the belief that Americans fully embrace the meritocratic ethos

The Top Books of the Year Politics From Anarchy To Democracy Rational Choice In Political Science The year 2023 has witnessed a remarkable surge in literary brilliance, with numerous captivating novels enthralling the hearts of readers worldwide. Lets delve into the realm of top-selling books, exploring the engaging narratives that have enthralled audiences this year. Politics From Anarchy To Democracy Rational Choice In Political Science : Colleen Hoovers "It Ends with Us" This touching tale of love, loss, and resilience has gripped readers with its raw and emotional exploration of domestic abuse. Hoover skillfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can triumph. Uncover the Best : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This spellbinding historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids compelling storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Discover the Magic : Delia Owens "Where the Crawdads Sing" This mesmerizing coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens crafts a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting. These popular novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of compelling stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a exceptional and thrilling novel that will keep you guessing until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
