Congress, Harold Takooshian, Abigail Asper, 2020-04-01 Behavioral scientists are increasingly involved in international work through cross cultural research conference presentations and faculty exchanges Psychology and social work NGOs work at the United Nations both on providing professional consultation on timely issues as well as advocating to promote human rights and sustainable development Although this work at the United Nations is an important arena for behavioral scientists this has been barely covered in the academic literature What are growing roles of psychology and the behavioral sciences at the United Nations today This first ever volume brings together over 20 authors both key experts and student interns to answer this question As the United Nations pursues its 17 Sustainable Development Goals SDGs for the year 2030 behavioral scientists now occupy increasingly diverse roles to pursue evidence based answers for these 17 timely SDGs This panoramic yet concise 230 page volume is designed for students and professionals in the behavioral sciences psychology and social work to provide state of the art information on how behavioral scientists are addressing diverse global issues today Each chapter offers a concise overview of a topic including a glossary of current concepts and citations to current research

**ENDORSEMENTS** I am delighted to recommend this volume which uncovers two important truths to the success of the UN 1 The critical role of civil society that makes the UN more humane 2 The important role of behavioral

sciences in shaping UN policies to produce successful outcomes Because of the UN we've not had a third world war yet Human Rights have expanded beyond belief of anyone who founded the UN 75 years ago Bruce Knotts U S diplomat author and Chair of the U N DPI NGO Executive Committee As this new volume describes the world is a better place because of the United Nations where most of the world comes together with diverse and lofty goals such as protecting the environment promoting health supporting equality and maintaining peace All of these major goals require interventions that sometimes maintain and sometimes change human behavior National and international policies need to be informed by the best available research in the behavioral sciences Our future depends on it Diane F Halpern PhD Former President American Psychological Association Attaining the United Nations 17 Sustainable Development Goals SDGs by 2030 is a formidable challenge that can be furthered by a foundation of solid evidence This book provides a base of relevant psychological knowledge that can inform policy and interventions in the achievement of those goals Judith A Gibbons PhD Past President Interamerican Society of Psychology The authors make a convincing case for the relevance of behavioral sciences to the work of the United Nations Progress on women's rights preparing for and recovering from natural disasters adapting to climate change improving child well being and more all have behavioral dimensions These must be addressed for the UN to make progress on its goals By chronicling the involvements of psychology and social work in the United Nations this volume will inspire students and practitioners to engage further in global work and advocacy Lynne Healy PhD International Association of Schools of Social Work Behavioral Science in the Global Arena a timely and significant volume about the role of psychologists at the UN addressing our contemporary social problems i e human rights social justice climate and environmental change As Congress Takooshian and Asper demonstrate it is time for psychologists to move from their individual focus toward social change at a macro diverse and global focus following the UN's 17 sustainable development goals for 2030 We need to acknowledge changing population demographics growing mobility and aging in our population and recognize the continued gender inequities and disparities among migrants salient today No longer can we simply consider psychology's role in the aftermath of disaster but to be proactive and on the forefront about counterterrorism climate change etc to promote global action so that we think and act together toward shared social change Jean Lau Chin EdD ABPP Past President International Division American Psychological Association As the UN celebrates its diamond anniversary it is fitting that thinkers in psychology provide critical insights into psychology's engagement with the UN SDG Agenda The authors have carefully considered the UN from many vantage points especially behavioural This important volume posits fresh ideas for psychology's role and future impact in the only global body that brings all governments together to tackle the social economic political and security factors that are essential for peace and collective human development in our fragile world Saths Cooper PhD Past President International Union of Psychological Scientists IUPsyS I am very excited to see the publication of a much needed book on the contribution of the behavioral sciences at the UN which highlights the role of

social work The editors have successfully illuminated how social workers have been increasingly involved in addressing international issues Speaking as the current president of NASW member of the International Federation of Social Workers Executive and as a social work educator I am especially appreciative of the content on the long term involvement that social workers have had in the work of the UN This book is a gift to students who are increasingly seeking to become involved in international social work I am especially impressed by the editors commitment to promoting the professional development of students by having them co author the chapters in the book with both academics and UN leaders Well done Kathryn Conley Wehrmann PhD LCSW President National Association of Social Workers NASW Library of Congress Catalogs Library of Congress,1976 **Ecol** Environmental Conservation Library of Minnesota,1974 **Why Noise Matters** John Stewart,Francis McManus,Nigel Rodgers,Val Weedon,Arline Bronzaft,2016-04-29 Is noise the most neglected green issue of our age This book argues compellingly that it is and tells you all you need to know about noise as a social cultural environmental and health issue Across the world more people are disturbed by noise in their day today lives than by any other pollutant on Earth From the shanty towns of Mumbai to the smart boulevards of Paris noise is a problem It is damaging people s health costing billions and threatening the world s natural sound systems in the same way that climate change is altering its eco systems Drawing on evidence from all over the world this book showcases policies and strategies that have worked to decrease noise pollution and offers lessons for policymakers and environmental health professionals campaigners and any individual affected by noise Written by a renowned noise campaigner and experts in law and health this book tells you all you need to know about noise as a social cultural and environmental issue and how we can act to build a more peaceful world
