Working Together Amy R. Poteete,Marco Janssen,Elinor Ostrom,2010-05-02 Advances in the social sciences have emerged through a variety of research methods field based research laboratory and field experiments and agent based models However which research method or approach is best suited to a particular inquiry is frequently debated and discussed Working Together examines how different methods have promoted various theoretical developments related to collective action and the commons and demonstrates the importance of cross fertilization involving multimethod research across traditional boundaries The authors look at why cross fertilization is difficult to achieve and they show ways to

overcome these challenges through collaboration The authors provide numerous examples of collaborative multimethod research related to collective action and the commons They examine the pros and cons of case studies meta analyses large N field research experiments and modeling and empirically grounded agent based models and they consider how these methods contribute to research on collective action for the management of natural resources Using their findings the authors outline a revised theory of collective action that includes three elements individual decision making microsituational conditions and features of the broader social ecological context Acknowledging the academic incentives that influence and constrain how research is conducted Working Together reworks the theory of collective action and offers practical solutions for researchers and students across a spectrum of disciplines

Urban Ecology John Marzluff, Eric Shulenberger, Wilfried Endlicher, Marina Alberti, Gordon Bradley, Clare Ryan, Craig ZumBrunnen, Ute Simon, 2008-01-03 Urban Ecology is a rapidly growing field of academic and practical significance Urban ecologists have published several conference proceedings and regularly contribute to the ecological architectural planning and geography literature However important papers in the field that set the foundation for the discipline and illustrate modern approaches from a variety of perspectives and regions of the world have not been collected in a single accessible book Foundations of Urban Ecology does this by reprinting important European and American publications filling gaps in the published literature with a few targeted original works and translating key works originally published in German This edited volume will provide students and professionals with a rich background in all facets of urban ecology The editors emphasize the drivers patterns processes and effects of human settlement The papers they synthesize provide readers with a broad understanding of the local and global aspects of settlement through traditional natural and social science lenses This interdisciplinary vision gives the reader a comprehensive view of the urban ecosystem by introducing drivers patterns processes and effects of human settlements and the relationships between humans and other animals plants ecosystem processes and abiotic conditions The reader learns how human institutions health and preferences influence and are influenced by the others members of their shared urban ecosystem

Understanding Institutional Diversity Elinor Ostrom, 2009-11-13 The analysis of how institutions are formed how they operate and change and how they influence behavior in society has become a major subject of inquiry in politics sociology and economics A leader in applying game theory to the understanding of institutional analysis Elinor Ostrom provides in this book a coherent method for undertaking the analysis of diverse economic political and social institutions Understanding Institutional Diversity explains the Institutional Analysis and Development IAD framework which enables a scholar to choose the most relevant level of interaction for a particular question This framework examines the arena within which interactions occur the rules employed by participants to order relationships the attributes of a biophysical world that structures and is structured by interactions and the attributes of a community in which a particular arena is placed The book explains and illustrates how to use the IAD in the context of both field and experimental studies Concentrating primarily on the rules aspect of the IAD framework it

provides empirical evidence about the diversity of rules the calculation process used by participants in changing rules and the design principles that characterize robust self organized resource governance institutions *Challenging Malaria* Byron B. Carson, III, 2023-09-27 Five years after Ronald Ross discovered the link between malaria and mosquitos American entomologist Leland Howard wrote of the mosquito evil that occurs when everybody s business is nobody s business Howard s insight was largely ignored but it captures what social scientists now refer to as the problem of collective action When this problem persists in the context of malaria individuals under provide prevention and suffer from a higher prevalence of malaria Imagine a group of people trying to drain a pond where mosquitoes breed Everyone in the group faces an incentive to free ride which can hinder their drainage efforts Thus when people fail to resolve issues related to collective action they submit to the mosquito evil and potentially to malaria This book explores Howard s logic the economics of collective action and the history epidemiology and public health of malaria to analyze the conditions under which people privately resolve collective action problems associated with mosquito abatement and malaria prevention Generally people are more likely to resolve these problems when the benefits of abatement and prevention outweigh the costs This logic is developed into a framework and applied to historical and modern day issues related to malaria including the lack or abundance of private prevention in the United States and in developing areas malaria s resurgence in countries like China Venezuela and Bangladesh and the difficulties of large scale insecticide treated bed net campaigns Given this framework we should develop a greater appreciation for entrepreneurial responses civil society market processes and private forms of collective action

Understanding Policy Volatility in Sudan Khalid El Harizi, El Sayed Zaki, Bettina Prato, and Ghada Shields, *The Drama of the Commons* National Research Council,Division of Behavioral and Social Sciences and Education,Committee on the Human Dimensions of Global Change,2002-02-15 The tragedy of the commons is a central concept in human ecology and the study of the environment It has had tremendous value for stimulating research but it only describes the reality of human environment interactions in special situations Research over the past thirty years has helped clarify how human motivations rules governing access to resources the structure of social organizations and the resource systems themselves interact to determine whether or not the many dramas of the commons end happily In this book leaders in the field review the evidence from several disciplines and many lines of research and present a state of the art assessment They summarize lessons learned and identify the major challenges facing any system of governance for resource management They also highlight the major challenges for the next decade making knowledge development more systematic understanding institutions

dynamically considering a broader range of resources such as global and technological commons and taking into account the effects of social and historical context This book will be a valuable and accessible introduction to the field for students and a resource for advanced researchers **Environmental Law and Economics** Klaus Mathis,Bruce R. Huber,2017-04-07 This anthology discusses important issues surrounding environmental law and economics and provides an in depth analysis of its use in legislation regulation and legal adjudication from a neoclassical and behavioural law and economics perspective Environmental issues raise a vast range of legal questions to what extent is it justifiable to rely on markets and continued technological innovation especially as it relates to present exploitation of scarce resources Or is it necessary for the state to intervene Regulatory instruments are available to create and maintain a more sustainable society command and control regulations restraints Pigovian taxes emission certificates nudging policies etc If regulation in a certain legal field is necessary which policies and methods will most effectively spur sustainable consumption and production in order to protect

the environment while mitigating any potential negative impact on economic development Since the related problems are often caused by scarcity of resources economic analysis of law can offer remarkable insights for their resolution Part I underlines the foundations of environmental law and economics Part II analyses the effectiveness of economic instruments and regulations in environmental law Part III is dedicated to the problems of climate change Finally Part IV focuses on tort and criminal law The twenty one chapters in this volume deliver insights into the multifaceted debate surrounding the use of economic instruments in environmental regulation in Europe

Institutionalization of State Policy Miao Zhang,Rajah Rasiah,2015-06-10 Using fresh evidence and a novel methodological framework this book sheds light on how institutions have driven economic reform in China s urban housing sector The book systematically analyzes the developmental role of the state in China with rich empirical evidence to show how decentralization has brought about significant participation by the different levels of government with the central provincial and municipal governments focusing on initiation intermediation and implementation roles respectively Despite many Western analysts claiming that it is single complex superstructure the institutionalization of governance structures in China following reforms has taken place through strong coordination between governments at different levels to meet targeted plans Although China still has a long way to go to before it can be considered developed this book elaborates on how the country offers a unique alternative for other states seeking to develop by striking a balance between capitalist and socialist instruments

The Austrian and Bloomington Schools of Political Economy Paul Dragos Aligica,Paul Lewis,Virgil Henry Storr,2017-11-02 The volume is a unique attempt to explore the relationship between two of the most interesting contemporary schools of thought evolving at the interface between social science and social philosophy The Austrian tradition of F A Hayek and Ludwig von Mises and the Bloomington tradition of Elinor Ostrom and Vincent Ostrom

Conflict, Negotiations and Natural Resource Management Maarten Bavinck,Amalendu Jyotishi,2014-10-17 Conflicts over natural resources abound in India where much of the population is dependent on these resources for their livelihoods Issues of governance and management are complicated by the competing claims of parallel legal systems including state customary religious project and local laws Whereas much has been written about property rights this unique collection takes a legal anthropological perspective to explore how the coexistence and interaction between multiple legal orders provide bases for claiming property rights It examines how hybrid legal institutions have developed over time in India and how these impact on justice in the governance and distribution of natural resources The book brings together original case studies that offer fresh perspectives on the governance of forests water fisheries and agricultural land in a diverse range of social and spatial contexts This brand new research provides a timely and persuasive overview of the fundamental role of parallel legal systems in shaping how people manage natural resources It will be of interest to scholars and practitioners of environmental law property law environmental politics anthropology sociology and geography
