two volumes work together to offer a new picture of the book's significance in literary and intellectual history. Montaigne's is now usually understood to be the school of late humanism or of Pyrrhonian scepticism. This study argues that the school of Montaigne potentially included everyone in early modern Europe with occasion and means to read and write for themselves and for their friends and family unconstrained by an official function or scholastic institution. For the *Essais* were shaped by a battle that had intensified since the Reformation and that would continue through to the pre-Enlightenment period. It was a battle to regulate the educated individual's judgement in reading and acting upon the two books bequeathed by God to man: The book of scriptures and the book of nature were becoming more accessible through print and manuscript cultures. But at the same time that access was being mediated more intensively by teachers such as clerics and humanists by censors and institutions by learned authors of past and present and by commentaries and glosses upon those authors, Montaigne enfranchised the unofficial reader-writer with liberties of judgement offered and taken in the specific historical conditions of his era. The study draws on new ways of approaching literary history through the history of the book and of reading. The *Essais* are treated as a mobile transnational work that travelled from Bordeaux to Paris and beyond to markets in other countries from England and Switzerland to Italy and the Low Countries. Close analysis of editions, paratexts, translations and annotated copies is informed by a distinct concept of the social context of a text. The concept is derived from anthropologist Alfred Gell's notion of the art nexus: the specific types of actions and agency relations mediated by works of art understood as indexes that give rise to inferences of particular kinds. Throughout the two volumes the focus is on the particular nexus in which a copy, an edition, an extract is embedded and on the way that nexus might be described by early modern people.

The Truth (with jokes) Al Franken, 2005-10-25. The #1 New York Times bestseller by Senator Al Franken, author of *Giant of the Senate*. Senator Al Franken's landmark bestseller *Lies and the Lying Liars Who Tell Them: A Fair and Balanced Look at the Right* was praised as a bitterly funny assault. The New York Times that rang with the moral clarity of an angel's trumpet. The Associated Press. Now this master of political humor strikes again with a powerful and provocative message for all of us. In these pages Senator Franken reveals the alarming story of how Bush barely beat Kerry with his campaign of fear, smear and queers and then claimed a nonexistent mandate. Casino Jack Abramoff, the Republicans' nearest and dearest friend, made millions of dollars off of the unspeakable misery of the poor and the powerless. And also Native Americans. The administration successfully implemented its strategy to destroy America's credibility and goodwill around the world. Complete with new material for this paperback edition, *The Truth with jokes* is more than just entertaining; intelligent and insightful. It is at once prescient in its analysis of right-wing mendacity and incompetence and inspiring in its vision of a better tomorrow for all Americans except Jack Abramoff.
