Disciplinary and Dissent in Cultural Studies Cary Nelson,Dilip Gaonkar,2013-10-28 First published in 1996 As recently as the early 1990s people wondered what was the future of cultural studies in the United States and what effects its increasing internationalization might have What type of projects would cultural studies inspire people to undertake Would established disciplines welcome its presence and adapt their practices accordingly *Disciplinary and Dissent in Cultural Studies* answers such questions It is now clear that while striking and innovative work is underway in many different fields most disciplinary organizations and structures have been very resistant to cultural studies Meanwhile cultural studies has been subjected to repeated attacks by conservative journalists and commentators in the public sphere Cultural studies scholars have responded not only by mounting focused critiques of the politics of knowledge but also by embracing ambitious projects of social political and cultural commentary by transgressing all the official boundaries of knowledge in a broad quest for cultural understanding This book tracks these debates and maps future strategies for cultural studies in academia and public life The contributors to *Disciplinary and Dissent in Cultural Studies* include established scholars and new voices In a series of polemic and exploratory essays written especially for this book they track the struggle with cultural studies in disciplines like anthropology literature and history and between cultural studies and very different domains like Native American culture and the culture of science Contributors include Arjun Appadurai Michael Denning Lawrence Grossberg Cary Nelson Constance Penley Andrew Ross and Lynn Spigel

Not Just Race, Not Just Gender Valerie Smith,2013-09-13 From the nineteenth century

articulations of Sojourner Truth to contemporary thinkers like Patricia J Williams Black feminists have always recognized the mutual dependence of race and gender Detailing these connections Not Just Race Not Just Gender explores the myriad ways race and gender shape lives and social practices Resisting essentialist tendencies Valerie Smith identifies black feminist theorizing as a strategy of reading rather than located in a particular subjective experience Her intent is not to deny the validity of black women s lived experience but rather to resist deploying a uniform model of black women s lives that actually undermines the power of black feminist thought Whether reading race or gender in the Central Park jogger case or in contemporary media like Livin Large Smith displays critical rigor that promises to change the way we think about race and gender

Whispers on the Color Line Gary Alan Fine,Patricia A. Turner,2004-05-18 Fine and Turner present a wonderful exploration into what our seemingly mundane rumor sharing means for race in our society Filled with examples that we all can recognize and superbly written and argued Whispers on the Color Line will be a classic in the study of race and culture Mary Pattillo McCoy author of Black Picket Fences Privilege and Peril among the Black Middle Class Fine and Turner have written a disturbing yet important book Taking racially tinged or drenched as the case may be rumors as an unobtrusive measure of the state of black white relations in the U S the authors document the yawning social cultural chasm in the nation Contradicting the tepid national narrative that celebrates the before and after racial transformation achieved by the civil rights struggle Whispers on the Color Line reminds us that the peculiar dilemma Gunnar Myrdal wrote about fifty seven years ago is still very much with us Until the whispers grow into a far more open and honest dialogue nothing will change Doug McAdam author of Freedom Summer

Whispers on the Color Line is a logical and necessary extension of the authors earlier books *Fine s Manufacturing Tales* and *Turner s I Heard It Through the Grapevine* which work in tandem to explore racial issues through everyday narratives The authors themselves represent an American cultural dialectic Janet Langlois author of *Belle Gunness The Lady Bluebeard* Whispers on the Color Line is insightful and thought provoking powerfully underscoring the social significance of hearsay rumors and legends in everyday life This rich and poignant narrative reveals and educates an important contribution to social science understanding and to the ongoing discourse about race matters in this country Elijah Anderson author of *Code of the Street Decency Violence and the Moral Life of the Inner City* This book speaks loudly to our most troubling contemporary problem interactions among the races that are carried out in secret The development of media such as the Internet with its various aspects from personal email to screeds sent out through listserves has helped us recognize that rumors have gone public and that we need to become involved in managing this process Roger Abrahams author of *Singing the Master The Emergence of African American Culture in the Plantation South* [Race, Space, and Riots in Chicago, New York, and Los Angeles](#) Janet L. Abu-Lughod, 2007-09-10 *Race Space and Riots in Chicago New York and Los Angeles* weaves together historical narratives of major riots with the changing contexts in which they have occurred to show how urban space politics and economic conditions not simply an abstract race conflict all structure the form and virulence of urban rebellions Comparing six major race riots that occurred in the three largest American metropolitan centers Abu Lughod draws upon archival research primary and secondary sources and field work to reconstruct events especially for the 1964 Harlem riot and Chicago s 1968 riots where no single study currently exists [Flak-Catchers](#) Lindsey Lupo, 2010-12-02 *Flak Catchers* explores the ways in which riot commissions the institutional bodies appointed by an executive in the aftermath of a race riot to determine a riot timeline investigate causes and offer prescriptions for change have dealt with racial violence in the United States over the last century In studying five riots and their commissions Chicago 1919 Harlem 1935 Los Angeles 1965 USA 1967 and Los Angeles 1992 this book shows that riot commissions only serve to give the appearance of strong and responsive government action during uncertain times They primarily benefit the instituting body by focusing on a restoration of law and order while undermining any larger civil rights message However this book also challenges the prevalent idea that riot commissions are all the same by revealing how riot commissions have changed over the last century shifting in their prominence content and focus After the 1968 Kerner Commission which studied the 1967 summer riots it has become increasingly common for the riot commission to fail to answer fundamental questions posed by the crisis *The*
Contested Murder of Latasha Harlins Brenda Stevenson, 2013-07-23 In *The Contested Murder of Latasha Harlins* Stevenson explores the long simmering resentment within LA s black community that ultimately erupted in April 1992 by focusing on an preceding event that encapsulated the growing racial and social polarization in the city over the course of the 1980s and early 1990s the 1991 shooting of a fifteen year old African American girl Latasha Harlins by a Korean grocer who

Representing the City Anthony D. King, 1996-02 Classic representations of the city have focused on simplistic urban dichotomies such as renewal or decline poverty or prosperity and vice or vigor We are left with the question of what actually constitutes a city and what makes it and its people succeed or fail Recent writing on the city however has begun to question the images metaphors and discourses through which the contemporary city is represented Discussing recent visual architectural and spatial transformations in New York and other major world cities in relation to the themes of ethnicity capital and culture Re Presenting the City moves between interpretive representations of the newly emerging metropolis and the theoretical and methodological questions raised by the task of such representations Contributors with backgrounds in urban planning sociology cultural studies architecture art history geography and philosophy reflect on the construction of both the real and the unreal city the images metaphors and discourses through which the contemporary city is represented and the texts which both mediate our experience of as well as contribute to producing the city of the future

Governing American Cities Michael Jones-Correa, 2001-11-29 The new immigrants who have poured into the United States over the past thirty years are rapidly changing the political landscape of American cities Like their predecessors at the turn of the century recent immigrants have settled overwhelmingly in a few large urban areas where they receive their first sustained experience with government in this country including its role in policing housing health care education and the job market Governing American Cities brings together the best research from both established and rising scholars to examine the changing demographics of America s cities the experience of these new immigrants and their impact on urban politics Building on the experiences of such large ports of entry as Los Angeles New York Miami Houston Chicago and Washington D C Governing American Cities addresses important questions about the incorporation of the newest immigrants into American political life Are the new arrivals joining existing political coalitions or forming new ones Where competition exists among new and old ethnic and racial groups what are its characteristics and how can it be harnessed to meet the needs of each group How do the answers to these questions vary across cities and regions In one chapter Peter Kwong uses New York s Chinatown to demonstrate how divisions within immigrant communities can cripple efforts to mobilize immigrants politically Sociologist Guillermo Grenier uses the relationship between blacks and Latinos in Cuban American dominated Miami to examine the nature of competition in a city largely controlled by a single ethnic group And Matthew McKeever takes the 1997 mayoral race in Houston as an example of the importance of inter ethnic relations in forging a successful political consensus Other contributors compare the response of cities with different institutional set ups some cities have turned to the private sector to help incorporate the new arrivals while others rely on traditional political channels Governing American Cities crosses geographic and disciplinary borders to provide an illuminating review of the complex political negotiations taking place between new immigrants and previous residents as cities adjust to the newest ethnic succession A solution oriented book the authors use concrete case studies to help formulate suggestions and strategies and to highlight the importance of reframing urban issues away from the zero sum battles of the past
