Proceedings of the International Conference Theory and Applications in the Knowledge Economy Eduardo Tomé, 2016-07-08 Foreword TAKE 2016 is a dream that came true In about six months a group of friends and colleagues put together in an upcoming and very dynamic university a conference with 9 streams 3 keynotes and 3 special sessions 60 papers presented 6 posters and around 80 participants from 20 countries This is awesome I would like to deeply thank Aveiro University the GOVCOPP research centre the conference committee the keynote speakers the special session convenors the stream leaders the reviewers the authors and the administrative people for all their work and support I want to have two special words one for Blazenka Knezevic without whom the website would not have been possible the other for Gaby Neumann for work in these Proceedings Scientifically TAKE seems to be as important and new and far reaching We don't have shortage of models regarding the knowledge economy but we decisively lack to explore the relation between theory and practice TAKE is a step in exploring that difference We know that Exact sciences find the best answers and social sciences give the best questions J C Spender

and we also know that Knowledge Management is more preached by scholars than done by practitioners Aino Kianto We assume the first idea and try to overcome the second Hopefully TAKE 2016 will be a great success Thank you for everything

Aligning for Advantage Thomas C. Lawton,Jonathan P. Doh,Tazeeb Rajwani,2014-02-27 In today s multipolar world economy strategic alignment is a key determinant of competitive advantage Coca Cola Danone Diageo DuPont Lufthansa and Tata are some of the companies that strive for a pragmatic approach to balancing competitive strategies with political and social obligations Aligning for Advantage argues that to build and sustain corporate success companies must synchronize business objectives and market positions with political and regulatory activism and social and environmental engagement Moreover to be credible and realizable these external market and nonmarket strategies need to be equally attuned with corporate vision values and culture The book advances a managerial process and conceptual framework for aligning corporate strategy In some cases alignment may mean deep strategically embedded partnerships with governments NGOs or other stakeholders In others alignment may take the form of looser temporary collaborations with outside organizations No matter the approach the relationship between nonmarket and market strategies should be deliberate and genuine not accidental or artificial Truly aligned strategies should reconcile and modulate sometimes conflicting external demands in a way that is appropriate for the corporation s geographic and market positions In the end companies must leverage their overall nonmarket strategy as a source of competitive advantage
