Readings in Social Development Ross D. Parke,1969 *A Selected List of U.S. Readings on Development* Saul Milton Katz, Frank McGowan,1963 **Readings in Social Evolution and Development** Shmuel Noah Eisenstadt,1970 *Early Childhood And Primary Education: Readings And Reflections* Johnston, Jane, Halocha, John, 2010-09-01 Early years and primary are often seen as very separate stages of development although children are expected to progress from one key stage to another in a seamless way and the historical and philosophical ideas underpinning practice at the different stages are often the same or similar To be fully effective professionals need to understand and reflect on both children's experiences before and after the stage they are currently working in and the historical and current ideas and practice The current drive is to equip professionals working with young children with higher level understandings and skills and this involves consideration of the key historical and current theories and the development of the conceptual and philosophical frameworks which positively impact on current practice The strengths of this book are that it develops the necessary understandings and skills and closes the gap between professionals working together to support children's holistic development It also provides opportunities to engage in critical debate on current issues in professional practice as identified in national and international reports and develop their skills through this engagement It will be of benefit to a range of students on Initial Teacher Education Education Studies and Early Childhood Studies programmes as well as professionals working with children from birth to 11 years of age from early career to leaders and lecturers teaching HE courses **Childhood Social Development** Wendy M. Reading Our Lives William L. Randall,Elizabeth McKim,2008-06-03 Against the background of Socrates insight that the unexamined life is not worth living Reading Our Lives The Poetics of Growing Old investigates the often overlooked inside dimensions of aging Despite popular portrayals of mid and later life as entailing inevitable decline this book looks at aging as potentially a process of poiesis a creative endeavor of fashioning meaning from the ever accumulating texts memories and reflections that constitute our inner worlds At its center is the conviction that although we are constantly reading our lives to some degree anyway doing so in a mindful matter is critical to our development in the second half of life Drawing on research in numerous disciplines affected by the so called narrative turn including cognitive psychology neuroscience and the psychology of aging authors Randall and McKim articulate a vision of aging that promises to accommodate such time honored concepts as wisdom and spirituality one that understands aging as a matter not merely of getting old but of consciously growing old *Classic and Contemporary Readings in Sociology* Ian Marsh,Rosie Campbell,Mike

Keating,2014-05-12 Classic and Contemporary Readings in Sociology introduces the reader to sociological issues theories and debates providing extracts of primary source material from both classical and contemporary theorists Theorists are examined within their historical and sociological framework and the text provides an analysis of developments in sociological thought and research The text is divided into four main sections Part One Origins and Concepts surveys the history of the discipline of sociology and examines key themes which have influenced sociological theorising and investigation in particular social control culture and socialisation Parts Two and Four Sociological Theories and Sociological Research include a number of readings from the founding theorists and investigators including Auguste Comte Emile Durkheim Karl Marx Max Weber and Charles Booth and also include more recent theoretical writing and research approaches The focus on theory and research is extended by a selection of readings centred around the theme of Differences and Inequalities Part Three these readings provide students with examples of work from an area where sociological theorising and research has been widely applied *Nine Years Old* M. Pollak,2012-12-06 In 1972 Dr Margaret Pollak published her book Today s Three Year Olds in London This was a sensitive study of family life and the social environment of a large number of London children together with an account of their developmental assessment by various test methods She showed that variations of developmental performances were more closely related to the quality of family life than to social and economic factors Dr Pollak has now re

investigated the same children at nine years of age and this book is a record of her findings The differences in development which were noted at three years of age remain in the older children Those children who at three years of age were

underachievers particularly in verbal and adaptive abilities are the children who at nine years can still be identified by lower achievement at school. These results must be of important relevance to educationalists and all concerned with the psychologists as well as to paediatricians welfare of children. We must all be disturbed by the failure of any children in our urban city centres to benefit from education and our anxieties must be heightened if amongst the underachievers there are particular groups who can be identified by their ethnic identities. In Britain education in school occupies a relatively small part of a child's life. Dr Pollak has identified some of the factors in a child's wider experience and especially in the total home environment which are associated with the persistence of inferior performance.
