Bibliography Arthur James Wells, 2005 **Ships Monthly**, 2003 **Sea Breezes**, 2006 **Demonic Bodies and the Dark Ecologies of Early Christian Culture** Travis W. Proctor, 2022 *Demonic Bodies and the Dark Ecologies of Early Christian Culture* analyzes how ancient Christians constructed the Christian body through its relations to demonic adversaries through case studies of New Testament texts Gnostic treatises and early Christian church fathers e g Ignatius of Antioch Clement of Alexandria and Tertullian of Carthage This study demonstrates that the formation of early Christian cultures was part of the shaping of broader Christian ecosystems where nonhuman entities like demons played important roles in configuring Christians experience of their bodies and surrounding environments Paul Within Judaism Mark D. Nanos, Magnus Zetterholm, 2015 These chapters explore a number of issues in the contemporary study of Paul raised by questing what it means to read Paul from within Judaism rather than supposing that he left the practice and promotion of living Jewishly behind after his discovery of Jesus as Christ Messiah This is a different question to those which have driven the New Perspective over the last thirty years which still operates from many traditional assumptions about Pauls motives and behavior viewing them as inconsistent with and critical of Judaism **Aging Heroes** Norma Jones, Bob Batchelor, 2015-05-06 Despite the increasing number and variety of older characters appearing in film television comics and other popular culture much of the understanding of these figures has been limited to outdated stereotypes of aging These include depictions of frailty resistance to modern life and mortality More importantly these stereotypes influence the daily lives of aging adults as well as how younger generations perceive and interact with older individuals In light of our graying population and the growing diversity of portrayals of older characters in popular culture it is important to examine how we understand aging In *Aging Heroes Growing Old in Popular Culture* Norma Jones and Bob Batchelor present a collection of

essays that address the increasing presence of characters that simultaneously manifest and challenge the accepted stereotypes of aging. The contributors to this volume explore representations in television programs, comic books, theater, and other forms of media. The chapters include examinations of aging male and female actors who take on leading roles in such movies as *Gran Torino*, *Grudge Match*, *Escape Plan*, *Space Cowboys*, *Taken*, and *The Big Lebowski*, as well as *The Expendables*, *Red*, and *X-Men* franchises. Other chapters address perceptions of masculinity, sexuality, gender, and race as manifested by such cultural icons as Superman, Wonder Woman, Danny Trejo, Helen Mirren, Betty White, Liberace, and Tyler Perry's *Boyz n the Hood*. With multi-disciplinary and accessible essays that encompass the expanding spectrum of aging and related stereotypes, this book offers a broader range of new ways to understand, perceive, and think about aging. *Aging Heroes* will be of interest to scholars of film, television, gender studies, women's studies, sociology, aging studies, and media studies, as well as to general readers.
