Refiguring The Post Classical City Dura Europos Jerash Jerusalem And Ravenna:

Refiguring the Post Classical City Annabel Jane Wharton, 1995 A study of the Christianisation of the city between the third and the sixth centuries **Christian-Jewish Relations Through the Centuries** Stanley E. Porter, Brook W. Pearson, 2004-12-19 Christian Jewish relations have had changing fortunes throughout the centuries Occasionally there has been peace and even mutual understanding but usually these relations have been ones of tension often involving recrimination and even violence This volume addresses a number of the major questions that have been at the heart and the periphery of these tenuous relations through the years The volume begins with a number of papers discussing relations as Christianity emerged from and defined itself in terms of Judaism Other papers trace the relations through the intervening years And a number of papers confront issues that have been at the heart of the troubled twentieth century In all these papers address a sensitive yet vital set of issues from a variety of approaches and perspectives becoming in their own way a part of the ongoing dialogue **Religion, Society and Culture at Dura-Europos** Ted Kaizer, 2016-11-17 This volume advances our understanding of the religion society and culture of Dura Europos the small town on the Euphrates known since the 1930s as the Pompeii of the Syrian desert Several features make the site potentially our best source for day to day life in a small town situated on the periphery of the Roman world inscriptions and graffiti in ten ancient languages sculptures and frescoes combining elements of Classical and Oriental art the most important papyrological dossier of any military unit in the Roman world documents relating to the local economy over a dozen pagan sanctuaries plus a famously painted synagogue and the earliest Christian house church all set in a gridiron city plan and surrounded by well preserved fortifications Dura s unique findings facilitate the study of life in a provincial small town to a degree that archaeology and history do not usually allow The Oxford Handbook of Early Christian Studies Susan Ashbrook Harvey, David G. Hunter, 2008-09-04 Provides an introduction to the academic study of early Christianity c 100 600 AD and examines the vast geographical area impacted by the early church in Western and Eastern late antiquity from publisher description *The City in Roman and Byzantine Egypt* Richard Alston, 2002-09-11 For those wishing to study the Roman city in Egypt the archaeological record is poorer than that of many other provinces Yet the large number of surviving texts allows us to reconstruct the social lives of Egyptians to an extent undreamt of elsewhere We are not therefore limited to a history of the public faces of cities their inscriptions and the writings of their elites but can begin to understand what the transformations of the city meant for ordinary people and to uncover the forces that shaped the everyday lives of city dwellers After Egypt became part of the Roman Empire in 30 BC Classical and then Christian influences both made their mark on the urban environment This book examines the impact of these new cultures at every level of Egyptian society The result is a new and fascinating insight into the creation of a specific urban society in the Roman Empire as well as a case study for the model of urban development in antiquity Ancient Cities Charles Gates, 2011-03-21 Ancient Cities surveys the cities of the Ancient Near East Egypt and the Greek and Roman worlds

from the perspectives of archaeology and architectural history bringing to life the physical world of ancient city dwellers by concentrating on evidence recovered from archaeological excavations Urban form is the focus the physical appearance and overall plans of the cities their architecture and natural topography and the cultural and historical contexts in which they flourished Attention is also paid to non urban features such as religious sanctuaries and burial grounds places and institutions that were a familiar part of the city dweller s experience Objects or artifacts that represented the essential furnishings of everyday life are discussed such as pottery sculpture wall paintings mosaics and coins Ancient Cities is unusual in presenting this wide range of Old World cultures in such comprehensive detail giving equal weight to the Preclassical and Classical periods and in showing the links between these ancient cultures User friendly features include use of clear and accessible language assuming no previous background knowledge lavishly illustrated with over 300 line drawings maps and photos historical summaries further reading arranged by topic plus a consolidated bibliography and comprehensive index new to the second edition a companion website with an interactive timeline chapter summaries study questions illustrations and a glossary of archaeological and historical terms Visit the website at <https://routledgetextbooks.com/textbooks/9780415498647> In this second edition Charles Gates has comprehensively revised and updated his original text and Neslihan Yılmaz has reworked her acclaimed illustrations Readers and lecturers will be delighted to see a new chapter on Phoenician cities in the first millennium BC and new sections on Gbekli Tepe the sensational Neolithic sanctuary Sinope a Greek city on the Black Sea coast and cities of the western Roman Empire With its comprehensive presentation of ancient Mediterranean and Near Eastern cities its rich collection of illustrations and its new companion website Ancient Cities will remain an essential textbook for university and high school students across a wide range of archaeology ancient history and ancient Near Eastern Biblical and classical studies courses

Living Water Robin Jensen, 2010-11-19 This general survey of early Christian baptismal iconography and architecture integrates visual depictions and physical settings of baptism with textual evidence for its practice and purpose An opening overview of pictorial art paintings relief sculpture mosaics and ivories prompts questions about components of the actual ritual which are treated in the literary sources The study s second half considers selected baptismal structures examining the symbolism purpose and possible meaning of their spatial design and decorative programs In most instances the synthesis of documentary and material evidence is enriching and complementary However even when physical and textual data diverge their discontinuity demonstrates the variability of ritual performance and the perennial distinction between ideal and actual practice

Christ the Miracle Worker in Early Christian Art Lee M. Jefferson, 2014 Images and artistic representations were of significant value to the early Christian communities In Christ the Miracle Worker in Early Christian Art Lee Jefferson argues in fact that images provided visual representations of vital religious and theological truths crucial to the faithful by which art possessed the power to project concepts and claims beyond the limitations of the written and spoken word Images of Christ performing miracles or healings

as demonstrated in this volume functioned as advertisements for Christianity and illustrated explications of the nature of Christ. These images of Christ as worker of miracles and healing form the nucleus of an extensive examination of this power of art, its role in fostering devotion and the deep connection between art and its underwriting and elucidation of pivotal theological claims and developments. back cover

Ostia in Late Antiquity Douglas Boin, 2013-07-22 Ostia in Late Antiquity narrates the life of Ostia Antica, Rome's ancient harbor during the later empire. *A Companion to the Hellenistic and Roman Near East* Ted Kaizer, 2025-11-19 Discover a comprehensive and cross-disciplinary handbook exploring several sub-regions and key themes, perfect for a new generation of students. *A Companion to the Hellenistic and Roman Near East* delivers the first complete handbook in the area of Hellenistic and Roman Near Eastern history. The book is divided into sections dealing with interdisciplinary source material, each with a great deal of regional variety and engaging with several key themes. It integrates discussions of the classical Near East with the typical undergraduate teaching syllabus in the Anglo-Saxon world. All contributors in this edited volume are leading scholars in their field, with a combination of established researchers and academics and emerging voices. Contributors hail from countries across several continents and work in various disciplines including Ancient History, Archaeology, Art History, Epigraphy, Numismatics, and Oriental Studies. In addition to furthering the integration of the Levantine lands in the classical periods into the teaching canon, the book offers readers the first comprehensively structured companion and edited handbook on the Hellenistic and Roman Near East. Extensive regional and sub-regional variety in the cross-disciplinary source material. A way to compensate for the recent destruction of monuments in the region and the new generation of researchers' inability to examine these historical stages in person. An integration of the study of the Hellenistic and Roman Near East with traditional undergraduate teaching syllabi in the Anglo-Saxon world. Perfect for undergraduate history and classics students studying the Near East. *A Companion to the Hellenistic and Roman Near East* will also earn a place in the libraries of graduate students and scholars working within Near Eastern studies as well as interested members of the public with a passion for history.
