Peregrine, Melvin Ember, 2003-05-31 The Encyclopedia of Prehistory with regionally organized entries on each major archaeological tradition is a comprehensive overview of human history from two million years ago to the historic period Prepared under the auspices and with the support of the Human Relations Area Files and an internationally distinguished advisory board the Encyclopedia is organized regionally with entries on each major archaeological tradition written by noted experts in the field and edited by Peter N Peregrine and Melvin Ember The volumes follow a standard format and employ comparable units of description and analysis making them easy to use and compare Volume 1 focuses on Africa Volume 2 focuses on Arctic and Sub Arctic Volume 3 focuses on East Asia and Oceania Volume 4 focuses on Europe Volume 5 focuses on Middle America Volume 6 focuses on North America Volume 7 focuses on South America Volume 8 focuses on South Southwest Asia Volume 9 is the index volume *Desert animals in the eastern Sahara : status, economic significance, and cultural reflection in antiquity* Heiko Riemer, Nadja Pöllath, Michael Herb, Frank Förster, 2009-01-01 Patterns of Kingship and Authority in Traditional Asia I. W. Mabbett, 2024-11-01 There has been a tendency to neglect the political life of Asia in favour of religious and aesthetic considerations The myth of the changeless East dies hard Few people are aware that the earliest legislation for the rights of the common man go back to the Sumerians and that outlines for a social contract were drawn up by Indian Buddhists two thousand years before Locke and Rousseau First published in 1985 Patterns of Kingship and Authority in Traditional Asia provides an excellent survey of traditional Asian ideas of government from the earliest kingdoms of the Sumerians and the Egyptians to the time when Western influence first made itself felt Each chapter is written by a specialist on a particular country or region of Asia who seeks to identify some of the essential features of its traditional royal or imperial authority Particularly fascinating is the way in which traditional institutions continue to have a vital influence upon Asian countries The serious reader will obtain a clear outline of traditional Asian ideas and systems of government and will indirectly acquire a deeper understanding of other aspects of Asian civilisations Ancient Southeast Asia John Norman Miksic, Goh Geok Yian, 2016-10-14 Ancient Southeast Asia provides readers with a much needed synthesis of the latest discoveries and research in the archaeology of the region presenting the evolution of complex societies in Southeast Asia from the protohistoric period beginning around 500BC to the arrival of British and Dutch colonists in 1600 Well illustrated throughout this comprehensive account explores the factors which established Southeast Asia as an area of unique cultural fusion Miksic and Goh explore how the local population exploited the abundant resources available developing maritime transport routes which resulted in economic and cultural wealth including some of the most elaborate art styles and monumental complexes ever constructed The book's broad geographical and temporal coverage including a chapter on the natural environment provides readers with the context needed to understand this staggeringly diverse region It utilizes

French Dutch Chinese Malay Indonesian and Burmese sources and synthesizes interdisciplinary theoretical perspectives and data from archaeology history and art history Offering key opportunities for comparative research with other centres of early socio economic complexity Ancient Southeast Asia establishes the area s importance in world history *Biological Anthropology and Prehistory* Patricia C. Rice, Norah Moloney, 2016-12-05 Written specifically for courses that cover biological anthropology and archaeology this superbly illustrated new text offers the most balanced and up to date introduction to our human past Devoting equal time to biological anthropology and prehistory this text exposes students to the many sides of major controversial issues involving students in the scientific thought process by allowing them to draw their own conclusions Amidst discussions of bones and artifacts the text maintains a focus on people demonstrating to students how biological anthropology and archaeology apply to their lives today Featuring the latest research and findings pulled from the original sources this new text is far and away the most up to date text available In addition the superior art program features hundreds of photographs and figures and the multimedia presentation options include documentary film clips and lecture launcher videos Pat Rice a recipient of AAA s Outstanding Teacher Award and past president of the General Anthropology Division of AAA and Norah Moloney an experienced professor and active archaeologist present the material in a clear refreshing and straightforward writing style
