Reflections On Philosophy Introductory Essays:

Reflections on Philosophy Leemon B. McHenry, Frederick Adams, 2000 **Introduction to the Study of Religion**

Leroyce Miles, 2018-08-07 One thing is clear that fighting with other human beings in the name of religion is subhuman As a religious man we are fellow travellers in the direction of the realm of spirit Here the nomenclature of Hindus Muslims Christians etc ceases to be meaningful Of course we have to go very far and we have not made any beginning yet However at present the advaitic principle of difference less Brahman can serve the purpose of harmonizing all religions Here we have adopted this principle Secondly the key concepts of different religions have been shown to mingle into one another The book attempts to interrogate the categories used in western discourse in the study of religion In doing so the book outlines a broad overview of the discussions on issues relating to the methods and theories in the study of religion The book provides an insight into some of the key issues that need clarity in dealing with religions This scholarly presentation is a must read for students of religion culture and philosophy and for those involved with the struggles of the subaltern community

Rethinking the Ontological Argument Daniel A. Dombrowski, 2006-05-29 In recent years the ontological argument and theistic metaphysics have been criticised by philosophers working in both the analytic and continental traditions Responses to these criticisms have primarily come from philosophers who make use of the traditional and problematic concept of God In this volume Daniel A Dombrowski defends the ontological argument against its contemporary critics but he does so by using a neoclassical or process concept of God thereby strengthening the case for a contemporary theistic metaphysics Relying on the thought of Charles Hartshorne he builds on Hartshorne's crucial distinction between divine existence and divine actuality which enables neoclassical defenders of the ontological argument to avoid the familiar criticism that the argument moves illegitimately from an abstract concept to concrete reality His argument thus avoids the problems inherent in the traditional concept of God as static *The Journal of Philosophy*, 1993 Covers topics in philosophy psychology and scientific methods

Vols 31 include A Bibliography of philosophy 1933 **Thoughts on Economic Development in China** Ma

Ying, Hans-Michael Trautwein, 2013-03-05 This book is about mutual influences of thinking about economic development in China and in the West from the 18th century until the present Its chapters are contributed by development economists and historians of thought from China and other parts of the world The book describes important stages in the evolution cross fertilization and contextual modification of ideas about economic order development and institutional change It illustrates how Western concepts and theories have been adopted and adapted to Chinese conditions in different waves of modernization from the late 19th century until the present and that this was and is no one way traffic The book examines to what extent pre classical thinking in the West in particular French Physiocracy in mid 18th century was influenced by China as an ideal and a source of ideas at a time when China was the largest and most advanced economy in the world It discusses to what extent different approaches of modern Western style economics in particular in the fields of development economics

and institutional economics can be used to understand the rapid transitions and developments of the Chinese economy in recent decades and to what extent they need to be modified in the light of new experiences and insights Against this background several contributions to the volume provide assessments of the current state of economic science and teaching in China in particular with regard to Chinese views on Western economics The book should be of interest to those who are interested in the economic history of China **The Graver Thoughts of a Country Parson** Andrew Kennedy Hutchison

Boyd,1893 *Understanding the Other and Oneself* Eckart Ruschman,Detlef Staude,2018-04-18 Philosophy is more than just an academic subject it is useful and enriching in everyday life as well This is the main conviction of philosophical practitioners Philosophical practice has been developing as a new movement within philosophy for several decades now although it has ancient roots Today there are philosophical practitioners throughout the world who exchange ideas and experience in journals and during regular international conferences such as the 14th International Conference on Philosophical Practice which took place in Bern Switzerland in 2016 under the main topic Understanding the Other and Oneself A selection of thirteen papers from this conference as well as five panel contributions on various subjects regarding its main topic are gathered in this book These contributions to the conference will be of significance and interest not only for philosophers and philosophical practitioners but also for psychotherapists counsellors pedagogues and other professionals

Phenomenological Reflections on Violence James Dodd,2017-04-21 This book s six essays are guided by a skeptical philosophical attitude about the meaning of violence that refuses to conform to the exigencies of essence and the stable patterns of lived experience They are readings as much as they are reflections attempts at interpretation as much as they are attempts to push concepts of violence to their limits They draw upon a range of different authors and historical moments but without any attempt to reduce them into a series of examples elucidating a comprehensive theory The aim is to follow a path of distinctively episodic and provisional modes of thinking and reflection that offers a potential glimpse at how violence can be understood *The Complete Works of Samuel Taylor Coleridge: Aids to reflection. Statesman's manual* Samuel Taylor Coleridge,1884 **AIDS to Reflection** Samuel Taylor Coleridge,1868
