Reflective Journey Toward Order:

The Reflective Journey Toward Order Marion Montgomery, 2008-10-01 This book embodies a sequence of closely related essays which explore the modern poet's uneasy awareness of a tradition the romantic tradition with which he must contend The author's premise is that the romantic age extends from The Divine Comedy through Wordsworth to Eliot The roots of contemporary questions about the self and alienation are seen to extend at least as far back as Dante who is the first poet to choose the ego as a focus for poetry of epic dimensions In the course of the study Montgomery considers the growing emphasis upon the self's becoming the focus of poetry until this shift culminated in the literature of the most autobiographical century in western letters the twentieth Dante Wordsworth and Eliot are discussed at length individually and in relation to one another as principal instances of the reflective poet The critic also considers other illustrative figures such as Milton Coleridge Keats Whitman Pound Joyce and Hemingway These and other writers have traveled along the romantic road anticipated by The Divine Comedy Finally the author suggests the road may end in a labyrinth so far as the contemporary writer is concerned In his increasing concern with the problems of the self and of the mind the poet has been forced to invent new modes and techniques which as the author demonstrates grow out of his response to the psychological and metaphysical preoccupations of his age

Christ Among Them Edoardo Mungio,2009-05-27 This essay newly interprets the rise of the individual within the Italian peninsula between 1180 and 1300 It follows the historical events and the cultural products that define the period keeping in mind that the creators were conscious of a tangible real Christ in their midst For it is the time when Jesus was known to be in the Eucharist as a carnal potentiality as well as a time when Europeans on Crusade had reached his temporal abode As Christ as neighbor became a consistent idea the relationship towards that idea became one of accommodation making subsequent worship a form of individualism The later Renaissance was as much a specific reaction to a particular understanding of Christology within the cultural sphere as it was a reawakening of Classical ideals through a new paradigm of European selfhood outside of Christianity Understood in this way the Incarnation helped to produce an action based Christianity amenable to the needs of the Roman Church The later insistence upon text and notions of personal conscience that identifies the Reformation can now be seen as a true end to the Renaissance Christian praxis which began with the excitement over Christ among them

Stations on the Journey of Inquiry Mary Budde Ragan,2017-03-23 In this collection Stations on the Journey of Inquiry David Burrell launches a revolutionary reinterpretation of how any inquiry proceeds boldly critiquing presumptuous theories of knowledge language and ethics While his later publications Analogy and Philosophical Language 1973 and Aquinas God and Action 1979 elucidate Aquinas s linguistic theology these early writings show what often escapes articulation how one comes to understanding and takes a judgment Although Aquinas serves as an axial figure for Burrell s expansive corpus of scholarship spanning more than fifty years this selection of essays presents other positions and counterpositions to whom his own philosophical theology is beholden Plato Aristotle Cajetan Kant Peirce Moore Wittgenstein Sellars Weiss Ross McInerney and Lonergan With renewed interest in philosophy of language by postmodern thinkers as well as in the wake of Mulhall s Stanton Lectures on Wittgenstein and Grammatical Thomism the publication of these formative writings proves timely for the academy at large Burrell invites us to reconsider not only the way in which we conduct an inquiry but what it is we take language to be and how we take responsibility for what we say Another Sort of Learning James V.
