Reform In Leopolds Congo:

Reform in Leopold's Congo Stanley Shaloff,1970 British Humanitarianism and the Congo Reform Movement, 1896-1913 Dean Pavlakis,2016-03-09 The Congo Free State was under the personal rule of King Leopold II of the Belgians from 1885 to 1908 The accolades that attended its founding were soon contested by accusations of brutality oppression and murderous misrule but the controversy by itself proved insufficient to prompt changes Starting in 1896 concerned men and women used public opinion to influence government policy in Britain and the United States to create space for reforming forces in Belgium itself to pry the Congo from Leopold s grasp and implement reforms Examining key factors in the successes and failures of a pivotal movement that aided the colonized people of the Congo and broadened the idea of human rights **British Humanitarianism and the Congo Reform Movement** provides a valuable update to scholarship on the history of humanitarianism in Africa The Congo Reform movement built on the institutional experience of overseas humanitarianism the energy of evangelical political involvement and innovations in racial imperial and nationalist discourse to create political energy Often portrayed as the efforts of a few key people especially E D Morel this book demonstrates that the movement increasingly manifested itself as an institutionalized and transnational campaign with support from key government officials that ultimately made a material difference to the lives of the people of the Congo **Official Organ of the Congo Reform Association** Congo Reform Association,1909 **African Testimony in the Movement for Congo Reform** Robert Burroughs,2018-06-27 The humanitarian movement against Leopold s violent colonisation of the Congo emerged out of Europe but it depended at every turn on African input Individuals and groups from throughout the upper Congo River basin undertook journeys of daring and self sacrifice to provide evidence of atrocities for the colonial authorities missionaries and international investigators Combining archive research with attention to recent debates on the relation between imperialism and humanitarianism on trauma witnessing and postcolonial studies and on the recovery of colonial archives this book examines the conditions in which colonised peoples were able to speak about their subjection and those in which attempts at testimony were thwarted Robert Burroughs makes a major intervention by identifying African agency and input as a key factor in the Congo atrocities debate This is an important and unique book in African history imperial and colonial history and humanitarian history *E. D. Morel's History of the Congo Reform Movement* Edmund Dene Morel,William Roger Louis,Jean Stengers,1968 **The Congo from Leopold to Kabila** Georges Nzongola-Ntalaja,2013-07-18 The people of the Congo have suffered from a particularly brutal colonial rule American interference after independence decades of robbery at the hands of the dictator Mobutu and periodic warfare which continues even now in the East of the country But as this insightful political history makes clear the Congolese people have not taken these multiple oppressions lying down and have fought over many years to establish democratic institutions at home and free themselves from foreign exploitation indeed these are two aspects of a single project Professor Nzongola Ntalaja is one of his country s leading intellectuals and his

panoramic understanding of the personalities and events as well as class ethnic and other factors make his book a lucid radical and utterly unromanticized account of his countrymen's struggle. His people's defeat and the state's post colonial crisis are seen as resulting from a post independence collapse of the anti colonial alliance between the masses and the national leadership. This book is essential reading for understanding what is happening in the Congo and the Great Lakes region under the rule of the late President Kabila and now his son. It will also stand as a milestone in how to write the modern political history of Africa.

Historical Dictionary of the Reformed Churches Robert Benedetto, Donald K. McKim, 2009-10-06

As its name implies the Reformed tradition grew out of the 16th century Protestant Reformation. The Reformed churches consider themselves to be the Catholic Church reformed. The movement originated in the reform efforts of Huldrych Zwingli 1484-1531 of Zurich and John Calvin 1509-1564 of Geneva. Although the Reformed movement was dependent upon many Protestant leaders it was Calvin's tireless work as a writer, preacher, teacher, and social and ecclesiastical reformer that provided a substantial body of literature and an ethos from which the Reformed tradition grew. Today the Reformed churches are a multicultural, multiethnic, and multinational phenomenon. The second edition of the *Historical Dictionary of the Reformed Churches* contains information on the major personalities, events, facts, movements, and beliefs of the Reformed churches. This is done through a list of acronyms and abbreviations, a chronology, an introductory essay, appendixes, a bibliography, and over 800 cross-referenced dictionary entries on leaders, personalities, events, facts, movements, and beliefs of the Reformed churches.

Historical Dictionary of the Reformed Churches Benedetto, Guder, McKim, 1999-11-03

A historical dictionary of Reformed churches. It includes a detailed chronology followed by specific entries on the geographical regions where Reformed faith has been rooted. Other entries are devoted to outstanding figures who have nurtured and shaped it.

King Leopold's Congo and the "Scramble for Africa" Michael A. Rutz, 2018-03-01

King Leopold of Belgium's exploits up the Congo River in the 1880s were central to the European partitioning of the African continent. The Congo Free State, Leopold's private colony, was a unique political construct that opened the door to the savage exploitation of the Congo's natural and human resources by international corporations. The resulting red rubber scandal, which laid bare a fundamental contradiction between the European propagation of free labor and civilization and colonial governments' acceptance of violence and coercion for productivity's sake, haunted all imperial powers in Africa. Featuring a clever introduction and judicious collection of documents, Michael Rutz's book neatly captures the drama of one king's quest to build an empire in Central Africa, a quest that began in the name of anti-slavery and free trade and ended in the brutal exploitation of human lives. This volume is an excellent starting point for anyone interested in the history of colonial rule in Africa.

Jelmer Vos, University of Glasgow

Belgian Empire Rolf Hedger, The late 19th century marked an era of feverish imperial expansion in Europe, a time when the continent's great powers carved up vast territories across Africa in a race for resources, prestige, and control. Among the many actors in this turbulent reordering of the world stood an unlikely imperialist: Belgium, a young

and comparatively small European nation with no prior tradition of overseas conquest Yet under the leadership of its ambitious monarch King Leopold II Belgium would come to dominate a vast expanse of Central Africa leaving behind one of the most brutal and controversial colonial legacies in modern history Belgian Empire Colonial Ambitions and the Scramble for Africa traces Belgium's imperial journey from obscurity to infamy This book begins by exploring the foundations of Belgian statehood and the monarchy's outsized role in shaping its early national identity Leopold II a king without a kingdom of his own emerges as a pivotal figure driven not only by personal ambition and a thirst for grandeur but also by a calculated understanding of the geopolitical moment As the European powers met at the Berlin Conference of 1884-1885 to formalize their claims over African territory Leopold positioned himself cleverly managing to secure personal sovereignty over the Congo Free State under the guise of humanitarian and scientific advancement But the Congo Free State was no ordinary colony It was in effect a corporate venture underwritten by a monarch operated through a brutal system of forced labor violent coercion and extractive capitalism centered around ivory and rubber The suffering inflicted upon the Congolese population would in time draw international condemnation and lead to the transfer of control from Leopold to the Belgian state in 1908
