The Regional Law of Refugee Protection in Africa Marina Sharpe, 2018-07-19 This book analyses the legal framework for refugee protection in Africa including both refugee and human rights law as well as treaty and institutional elements The regime is addressed in two parts Part One analyses the relevant treaties the 1951 Convention relating to the Status of Refugees the 1969 Organization of African Unity Convention Governing the Specific Aspects of Refugee Problems in Africa and the 1981 African Charter on Human and Peoples Rights The latter two regional instruments are examined in depth This includes the first fulsome account of the African Refugee Conventions drafting an interpretation of its unique refugee definition and original analysis of the relationships between the three treaties Significant attention is devoted to the systemic relationship between the international and the regional refugee treaties and to the discrete relationships of conflict and complementary relationships between the two refugee instruments as well as to the relationships between the African Refugee Convention and African Charter Part Two focuses on the institutional architecture supporting the treaty framework The Organization of African Unity is addressed in a historical sense and the contemporary roles of the African Union the African Commission on Human and Peoples Rights and the current and contemplated African human rights courts are examined This book is the first devoted to the legal framework for refugee protection in Africa

Internally Displaced Persons and International Refugee Law Bríd Ní Ghráinne, 2022-03-15 Internally Displaced Persons IDPs are persons who have been forced to leave their places of residence as a result of armed conflict violence human rights violations or natural or human made disasters but who have not crossed an international border There are about 55 million IDPs in the world today outnumbering refugees by roughly 2 1 Although IDPs and refugees have similar wants needs and fears IDPs have traditionally been seen as a domestic issue and the international legal and institutional framework of IDP protection is still in its relative infancy This book explores to what extent the protection of IDPs complements or conflicts with international refugee law Three questions form the core of the book s analysis What is the legal and normative relationship between IDPs and refugees To what extent is an individual s real risk of internal displacement in their country of origin relevant to the qualification and cessation of refugee status And to what extent is the availability of IDP protection measures an alternative to asylum It argues that the IDP protection framework does not as a matter of law undermine refugee protection The availability of protection within a country of origin cannot be a substitute for granting refugee status unless it constitutes effective protection from persecution and there is no real risk of refoulement The book concludes by identifying current and future challenges in the relationship between IDPs and refugees illustrating the overall impact and importance of the findings of the research and setting out questions for future research

International Refugee Law and Socio-Economic Rights Michelle Foster, 2007-07-12 Publisher Description

Research Handbook on International Refugee Law Satvinder Singh Juss, 2019 In an age of ethnic nationalism and anti immigrant rhetoric the study of refugees can help develop a new outlook on social justice just as the post war international order ends The global financial crisis the

rise of populist leaders like Trump Putin and Erdogan not to mention the arrival of anti EU parties raises the need to interrogate the refugee migrant citizen stateless legal and illegal as concepts This insightful Research Handbook is a timely contribution to that debate **International Refugee Law and the Protection of Stateless Persons** Michelle

Foster, Hélène Lambert, 2019-04-04 International Refugee Law and the Protection of Stateless Persons examines the extent to which the 1951 Convention relating to the Status of Refugees protects de jure stateless persons While de jure stateless persons are clearly protected by the 1954 Convention relating to the Status of Stateless Persons this book seeks to explore the extent to which such persons are also entitled to refugee status The questions addressed include the following When is a person without a nationality for the purpose of the 1951 Refugee Convention What constitutes one's country of former habitual residence as a proxy to one's country of nationality When does being stateless give rise to a well founded fear of persecution for reasons specified in the 1951 Refugee Convention and or UNHCR mandate What are the circumstances under which statelessness constitutes persecution or inhuman or degrading treatment How are courts assessing individual risk or threat to stateless persons The book draws on historical and contemporary interpretation of international law based on the travaux préparatoires to the 1951 Refugee Convention and its antecedents academic writing UNHCR policy and legal documents UN Human Rights Council resolutions UN Human Rights Committee general comments UN Secretary General reports and UN General Assembly resolutions It is also based on original comparative analysis of existing jurisprudence worldwide relating to claims to refugee status based on or around statelessness By examining statelessness through the prism of international refugee law this book fills a critical gap in existing scholarship State Responsibility and International Refugee Law Sophie Capicchiano Young, 2025-10-30 As a system of Public International Law PIL International Refugee Law IRL diverges from those that evolved concurrently in certain distinct ways Though internationally recognised with a widely ratified Convention and with complementary regional instruments and municipal legal regimes that require adherence to its fundamental tenets the absence of clear instances of the attribution of international State responsibility is conspicuous This book provides a thorough inquiry into the deficiency that makes IRL so exceptional among systems of PIL through an in depth analysis of the evolving relationship between IRL and general PIL from the late 19th century to the present day
