The Making of a Refugee Tasoulla Hadjiyanni, 2002-03-30 Through an examination of interviews provided by 100 children of refugees in Cyprus born after their family's displacement Hadjiyanni illustrates the formation of a refugee consciousness an identity adopted by many children who never experienced the actual displacement of their family Focusing on the process by which a child born into a refugee family develops a refugee identity the book identifies nine dimensions that inform this consciousness Establishing the family as the primary transmitter of the refugee identity and the child as its constructor the author points to the power of homeplace in forming and supporting such an identity The book challenges the notion that refugee consciousness is a separate identity and a crisis by reinterpreting it as a resistance to adversity Shedding new light on what it means to be a refugee this work is a welcome addition to the field Beginning with a discussion of the meaning of the term refugee and how it has been adopted by the children of some refugees in Cyprus the author moves to an examination of the meaning of past and present to the formation of a refugee consciousness She then looks to the causes of such identity formation focusing on the transference of identity from parent to child and the effects of past loss on children who have not actually experienced displacement Housing issues are also examined as a contributing factor as refugee housing is typically distinct and constrained compared to housing for native citizens of a community The author concludes her work with a discussion of the implications of the Cyprus example for both the future and for general refugee studies

The Land Beyond Gudmundur Alfredsson, P. Macalister-Smith, 2021-10-18 This book collects Professor Atle Grahl Madsen's essays on refugee law and policy in a single volume including commentary on the principles of refugee law and on important refugee crisis situations Arranged in chronological order the compilation of work contains all the

author's scholarly English language articles dedicated to the needs and rights of refugees and asylum seekers. The republication of these articles makes an important part of Atle Grahl Madsen's written work more easily accessible than before. The objective of the book is to provide a new perspective on Grahl Madsen's approach, his ideas and the results of his research and thinking. As the United Nations High Commissioner for Refugees, Mrs. Sadako Ogata, has stated in the foreword: 'The timelessness of Professor Grahl Madsen's writings stems from his conscientious and comprehensive research and his clarity of thought as an analyst. His dedication and precision should serve as both an inspiration and aspiration to all who work to defend the rights of the displaced.' The collection shows the extent and quality of Atle Grahl Madsen's legacy in the field of refugee law and human rights and demonstrates the diversity of the subject of international refugee law and its relevance to the world in which we live. *Discourses of Memory and Refugees* Siobhan Brownlie, 2020-02-06. This book explores the discourse by and about refugees and asylum seekers in relation to memory, with a particular focus on the United Kingdom. A series of studies using different analytical approaches is undertaken, and together the studies shed light on this overlooked area of research. The studies or facets presented in the monograph cover a range of contexts and discursive genres: a joint BBC refugee authored television documentary; refugees' oral histories; creative life writing by asylum seekers; parliamentarians' debates; a reworking of canonical texts and sites in a protest campaign; and non-fiction testimonies and fictional works by later generations of refugee background. The monograph introduces a facet methodology to memory studies, arguing that this approach could encourage interdisciplinary research in the field. *Past, Present and Future* United States. Congress. House. Committee on the Judiciary. Subcommittee on Immigration, Citizenship, Refugees, Border Security, and International Law, 2007. *Embodied Violence and Agency in Refugee Regimes* Sabine Bauer-Amin, Leonardo Schiocchet, Maria Six-Hohenbalken, 2022-09-01. Multiple refugee regimes govern the lives of forced migrants simultaneously but in an often conflicting way. As a mechanism of inclusion/exclusion, they tend to engender the violence they sought to dissipate. Protection and control channel agency through mechanisms of either tutelage and victimisation or criminalisation. This book contrasts multiple groups of refugees and refugee regimes, revealing the inherent coercive violence of refugee regimes from displacement and expulsion to stereotypification and exclusion in host countries and academic knowledge essentialisation. This violence is international/national/society based, internalised and embodied, and it urgently needs due scholarly attention. **Refugees, Recent Migrants and Employment** Sonia McKay, 2008-11-14. Upheavals in vast areas of the world have led to a growing number of international refugees, a significant proportion of which have made their way to the West. At the same time, economic and social pressures, together with skills and labour shortages, have encouraged the migration for work of millions of workers worldwide. Although there has been a constant media focus on these two groups, little is known about their labour market experiences. This collection examines the problems faced by refugees and recent migrants in accessing employment, as well as the policy frameworks that address the labour market rights of refugees and

Refugees and the Meaning of Home Helen Taylor, 2015-11-03

Taking an innovative approach it looks at how spaces time social networks and sensory experiences come together as home is constructed. Albanese, Lex Takkenberg, 2020-05-21. The Palestinian refugee question resulting from the events surrounding the birth of the state of Israel seventy years ago remains one of the largest and most protracted refugee crises of the post WWII era. Numbering over six million in the Middle East alone Palestinian refugees status varies considerably according to the state or territory hosting them the UN agency assisting them and political circumstances surrounding the Israeli Palestinian conflict. These refugees are naturally associated with. Despite being foundational to both the experience of the Palestinian refugees and the resolution of their plight international law is often side lined in political discussions concerning their fate. This compelling new book building on the seminal contribution of the first edition 1998 offers a clear and comprehensive analysis of various areas of international law including refugee law human rights law humanitarian law the law relating to stateless persons principles related to internally displaced persons as well as notions of international criminal law and probes their relevance to the provision of international protection for Palestinian refugees and their quest for durable solutions.
