Regaining Compassion For Humanity And Nature:

Regaining Compassion for Humanity and Nature Charles Birch, 1993 Birch convincingly argues that science and religion must come together if we are to heal and renew our planet

Earth Revealing; Earth Healing Denis Edwards, 2015-05-15 The damage human beings are doing to the atmosphere the seas the rivers the land and the life forms of the planet is extreme and deadly It constitutes a crisis that demands all of humanity's wisdom ingenuity and commitment The whole human community needs to be involved in the response to this crisis young and old women and men farmers politicians gardeners teachers planners scientists engineers artists builders cooks and theologians In *Earth Revealing Earth Healing* the authors attempt to make clear the way in which Christian theology opens out into a theology of Earth revealing and challenges us towards a practice of Earth healing *Earth Revealing Earth Healing* offers a rethinking of theology as a significant part of the rethinking that the human community must do in its stance toward creation Aware that some theological attitudes have contributed to exploitative attitudes and to disregard for the good of the planet the contributors are also convinced that the biblical and theological tradition has resources that can be retrieved and developed as an ecological theology Such a theology can contribute to the healing of our planet The chapters of *Earth Revealing Earth Healing* stretch across a number of theological sub disciplines and related areas Among the perspectives from the Christian theological tradition there are reflections on the theology of the Trinity Christology Christian anthropology the theology of the Holy Spirit and contemporary feminist theology There are also more general philosophical and cultural perspectives including discussions of place and of landscape traditions Finally there are practical perspectives including discussions of globalization the challenge of suffering and bioethics Essays and contributors are *The Landscape Tradition A Broader Vision for Ecotheology* by Stephen Downs *Globalization and Ecology* by Christine Burke IBVM *For Your Immortal Spirit Is in All Things The Holy Spirit in Creation* by Denis Edwards *Enfleshing the Human An* *Earth Revealing Earth Healing Christology* by Duncan Reid *God's Shattering Otherness The Trinity and Earth's Healing* by Patricia Fox RSM *Embracing Unloveliness Exploring Theology from the Dung heap* by Lorna Hallahan *Up Close and Personal In the End Matter Matters* by Anthony Lowes *The Relationship Quilt Feminism and the Healing of Nature* by Lucy Larkin *A Timely Reminder Humanity and Ecology in the Light of Christian Hope* by Gregory Brett CM *Ecotheology as a Plea for Place* by Phillip Tolliday *Situating Humanity Theological Anthropology in the Context of the Ecological Crisis* by James McEvoy and *Bioethics Ecology and Theology* by Andrew Dutney Denis Edwards is a senior lecturer in systematic theology at Catholic Theological College and in the ecumenical consortium at the Adelaide College of Divinity Flinders University He has written other books on theology and is a priest of the Roman Catholic Archdiocese of Adelaide

The Unknown God Thomas G. Grenham, 2005 This book explores the idea of religious and theological interculturalism from a Christian perspective as an approach to evangelisation It explores aspects of culture and pluralism as these have been interpreted in post Vatican II approaches to mission and

evaluates interculturalization from a number of perspectives including language symbol and metaphor It draws insight from two New Testament encounters of Jesus with women in Samaria John and in Tyre Matthew and Mark and goes on to explore some historical sources of interculturalization in the missionary endeavours of the Jesuit Matteo Ricci A particular case study is made of the contemporary experience of an African people the Turkana of Kenya *Science and the Indian Tradition* David L. Gosling, 2007-09-12 This new text is a detailed study of an important process in modern Indian history During the late nineteenth and early twentieth century India experienced an intellectual renaissance which owed as much to the influx of new ideas from the West as to traditional religious and cultural insights Gosling examines the effects of the introduction of Western science into India and the relationship between Indian traditions of thought and secular Western scientific doctrine He charts the early development of science in India its role in the secularization of Indian society and the subsequent reassertion adaptation and rejection of traditional modes of thought The beliefs of key Indian scientists including Jagadish Chandra Bose P C Roy and S N Bose are explored and the book goes on to reflect upon how individual scientists could still accept particular religious beliefs such as reincarnation cosmology miracles and prayer *Science and the Indian Tradition* gives an in depth assessment of results of the introduction of Western science into India and will be of interest to scholars of Indian history and those interested in the interaction between Western and Indian traditions of intellectual thought

be established and furthered with the authors of some of these case studies or of the theories presented in this book by using their website and possibly their email addresses This book like a composite gathers contributions from experts from most of the above mentioned fields A lot of practices are discussed and they are among the very best practices according to common professional wisdom in the field Those practices are also reflected upon in an attempt to be somewhat theoretical **Ethical Competencies for Public Leadership** David Bromell, 2019-10-31 This book identifies six ethical competencies for public leadership in contexts of pluralism While diversity in proximity generates conflict where people want and value different things the right kind of leadership and the right kind of politics can minimise domination humiliation cruelty and violence Written by a public policy advisor for fellow practitioners in politics and public life this book applies political theory and social ethics to identify a set of competencies being civil diplomatic respectful impartial fair and prudent to keep ethics at the centre of a pluralist democratic politics The six competencies are described in behavioural terms as personal resolutions They offer valuable tools for mentoring and professional development This book will appeal to politicians and those who advise them and anyone who engages in or aspires to public leadership whether in the public sector the private sector the community and voluntary sector or academia **Tourism Ethics** David A. Fennell, 2006 Arguing for a closer relationship between history and tourism studies this book explores the relationships between tourism representations environments and identities in settings ranging from the Roman Empire to the twentieth century and from Frinton to the Far East

Rewriting God Elaine Lindsay, 2021-11-22 Women are rarely if ever mentioned in commentaries upon Australian Christianity and spirituality Only exceptional women are recognized as authorities on religious matters Why is this so Does it matter Don't people from the same religious tradition share similar experiences of the divine regardless of their gender Rewriting God asks whether women have been writing about the divine and whether their insights are different from those contained in mainstream accounts of Australian Christianity and spirituality An analysis of the writings of popular theologians and religious commentators over the last twenty years suggests that the most popular form of spirituality among Australian theologians is Desert Spirituality An analysis of women's autobiographical writings however suggests that the desert is irrelevant to many women's spiritual experiences This book through a close investigation of the fictions of Thea Astley Elizabeth Jolley and Barbara Hanrahan attempts to posit alternative forms of women's spirituality and to signal ways in which this spirituality is already being expressed From the evidence gathered here it becomes obvious that traditional expressions of Australian Christianity and spirituality are gender specific and that they have functioned to deny women's religious experiences and to silence their claims to equality in the sight and service of the divine It becomes obvious too that women have been developing their own forms of religious expression and that these may be expected to supplant gradually withering images of Desert Spirituality Whether this new imagery will strengthen Australian Christianity or whether it merely marks a decline in the authority of Christianity remains a moot point **Life and Work** Charles Birch, 2003 To get higher profits we

need to work harder and longer Right Wrong In this original book Charles Birch and David Paul look at the working lives of employees managers and executives and propose a new agenda for achieving a work life balance If companies get their relationships with employees and customers right profits will follow as a matter of course But too many organisations focus only on the short term bottom line and are insensitive to the emotional and spiritual needs and dignity of employees back cover
