Religion And The Higher Life:

Religion and the Higher Life William Rainey Harper, 1904 Education and the Higher Life J. L. Spalding, 2020-08-11
Reproduction of the original *Education and the Higher Life* by J L Spalding **The Editorial** ,1916 *Religion's Sudden Decline* Ronald F. Inglehart, 2020-08-18
Secularization is accelerating From 1981 to 2007 the publics of most countries moved toward placing more importance on God but from 2007 to 2020 the overwhelming majority moved toward placing less importance on God The United States has long been cited as the key evidence that modernization need not bring secularization but in the latest survey it showed the largest shift of any country away from religion and now ranks as the world's 12th least religious country One generally overlooked reason is that for centuries a set of norms evolved that encourage women to produce as many children as possible and discourages divorce abortion homosexuality contraception and any other sexual behavior not linked with reproduction These norms were needed for societies to survive facing high infant mortality and low life expectancy but they require people to suppress strong natural urges that no longer are needed for survival and are rapidly eroding undermining religiosity Philosophy of Religion for a New Century Jeremiah Hackett, Jerald Wallulis, 2004-04-30
Philosophy of Religion for a New Century represents the work of nineteen scholars presented at a conference in honor of Eugene T Long at the University of South Carolina April 5-6 2002 This volume is a good example of philosophy in dialogue there is both respect and genuine disagreement First an account of our present situation in the Philosophy of Religion is given leading to a discussion of the very idea of a Christian Philosophy and the coherence of the traditional concept of God The implications of science and a concern for the environment in our concepts of God are carefully examined A discussion follows on the possibility of speech about God and silence about God Since much of modern European philosophy is concerned with the Death of God theme the positions of Nietzsche and some of his twentieth century interpreters are presented There are presentations on Feminist Approaches to Philosophy of Religion and Comparative Religion is examined in relation to cultures and the demands of rationality The volume concludes with a critical dialogue on the relation of Religious Discourse to the Public Sphere Developing global awareness has led to significant change in the Philosophy of Religion One dimensional approaches have given way to honest dialogue The traditional boundaries between the secular and the religious have shifted and new approaches to traditional problems are required This volume presents examples of these new approaches Encyclopedia of Religion in the South Samuel S. Hill, Charles H. Lippy, Charles Reagan Wilson, 2005
The publication of the *Encyclopedia of Religion in the South* in 1984 signaled the rise in the scholarly interest in the study of Religion in the South Religion has always been part of the cultural heritage of that region but scholarly investigation had been sporadic Since the original publication of the ERS however the South has changed significantly in that Christianity is no longer the primary religion observed Other religions like Judaism Buddhism and Hinduism have begun to have very important voices in Southern life This one volume reference the only one of its kind takes this expansion into

consideration by updating older relevant articles and by adding new ones After more than 20 years the only reference book in the field of the Religion in the South has been totally revised and updated Each article has been updated and bibliography has been expanded The ERS has also been expanded to include more than sixty new articles on Religion in the South New articles have been added on such topics as Elvis Presley Appalachian Music Buddhism Bill Clinton Jerry Falwell Fannie Lou Hamer Zora Neale Hurston Stonewall Jackson Popular Religion Pat Robertson the PTL Sports and Religion in the South theme parks and much more This is an indispensable resource for anyone interested in the South religion or cultural history

Religion and International Law Mark W. Janis, Carolyn Evans, 2004-02-01 One of the great tasks perhaps the greatest weighing on modern international lawyers is to craft a universal law and legal process capable of ordering relations among diverse people with differing religions histories cultures laws and languages In so doing we need to take the world's peoples as we find them and not pretend out of existence their wide variety This volume now available in paperback builds on the eleven essays edited by Mark Janis in 1991 in *The Influence of Religion and the Development of International Law* more than doubling its authors and essays and covering more religious traditions Now included are studies of the interface between international law and ancient religions Confucianism Hinduism Judaism Christianity and Islam as well as essays addressing the impact of religious thought on the literature and sources of international law international courts and human rights law

On the Relation between Science and Religion George Combe, 2023-06-14 Reprint of the original first published in 1857 The publishing house Anatiposi publishes historical books as reprints Due to their age these books may have missing pages or inferior quality Our aim is to preserve these books and make them available to the public so that they do not get lost

The Making of the Modern University Julie A. Reuben, 1996-09-15 Based on extensive research at eight universities Harvard Yale Columbia Johns Hopkins Chicago Stanford Michigan and California at Berkeley Reuben examines the aims of university reformers in the context of nineteenth century ideas about truth She argues that these educators tried to apply new scientific standards to moral education but that their modernization efforts ultimately failed *Religion and the Higher Life* William Rainey Harper, 2015-06-24 Excerpt from *Religion and the Higher Life* Talks to Students There have been gathered together in this volume some of the talks more or less informal which it has been my privilege to address in these last years to companies of young men and women particularly students Three of these papers have been published before The topics are those that all young men and women are compelled to consider whether they will or not I have not supposed that in these talks any new thought was presented I have felt however that something perhaps was accomplished if a fair consideration of the old thought might be secured I am more confident today than ever before that the universities and colleges are not performing their full function in the matter of religious education There is need of a reconsideration of this whole subject Who will undertake the task Meanwhile the least one can do is to present to the students of each scholastic period of four or five years the practical questions of the religious life Do I think that anyone was really helped by these talks

Some have acknowledged that they received help but this acknowledgment was made perhaps only as a matter of courtesy.
