Religion And The One Philosophies East And West:

Religion and The One Frederick Copleston, 2003-01-01 Theories of one ultimate reality exist in philosophies of both the East and the West and in both traditions such theories are commonly connected with religion In *Religion and the One* Frederick Copleston explores the approach that different philosophies have taken to the question of divine reality with a special focus on the metaphysics of the One In the first part of the book Copleston looks at the features of different traditions discussing Taoist philosophy the Vedanta schools of thought in India the development of philosophy in the Islamic world and a number of movements from the Western tradition The second part questions why people form such theories exploring factors such as the nature of the self and the cognitive value of mysticism Writing with all his hallmark learning and lucidity the author also discusses the consequences of the metaphysics of the One for ethical ideals and social activism Approaching the issues in an open minded and unprejudiced fashion he does not pretend to have answers to all the questions he raises However unlike many theologians and philosophers he is not prepared to dismiss metaphysics as being inherently irreligious

History and Systems of Psychology James F. Brennan, Keith A. Houde, 2022-11-17 The Eighth Edition of this classic textbook connects the rich story of psychology s past to contemporary research and practice [The Epistemology of Comparative Philosophy](#) Joseph Kaipayil, 1995 [Philosophy East & West](#) , 2000 **Auden's O** Andrew W. Hass, 2013-11-01 Explores the rise of the idea of nothing in Western modernity and how its figuration is transforming and offering new possibilities In this groundbreaking interdisciplinary history of ideas Andrew W Hass explores the ascendancy of the concept

of nothing into late modernity He argues that the rise of the reality of nothing in religion philosophy and literature has taken place only against the decline of the concept of One a shift from a sovereign understanding of the One unity universality toward the figure of the O a cipher figure that as nonentity is nevertheless determinant of other realities The figuring of this O culminates in a proliferation of literary expressions of nothingness void and absence from 1940 to 1960 but by century s end this movement has shifted from linear progression to mutation whereby religion theology philosophy literature and other critical modes of thought such as feminism merge into a shared circular activity The writer W H Auden lends his name to this O his long poetic work *The Sea and the Mirror* an exemplary manifestation of its implications Hass examines this work along with that of a host of writers philosophers and theologians to trace the revolutionary hermeneutics and creative space of the O and to provide the reasoning of why nothing is now such a powerful force in the imagination of the twenty first century and of how it might move us through and beyond our turbulent times

The Missiological Spirit Amos Yong, 2015-04-30 The field of the theology of mission has developed variously across Christian traditions in the last century Pentecostal scholars and missiologists also have made their share of contributions to this area This book brings the insights of pentecostal theologian Amos Yong to the discussion It delineates the major features of what will be argued as central to a viable vision and praxis for Christian mission in a postmodern post Christendom post Enlightenment post Western and postcolonial world What emerges will be a distinctively pentecostally and evangelically informed missiological theology one rooted in the Christian salvation history narrative of Incarnation and Pentecost that is yet open to the world in its many and various cultural ethnic religious and disciplinary discourses and realities The argument unfolds through dialogical engagements with the work of others concrete case studies and systematic theological reflection Yong s pneumatological and missiological imagination proffers a model for Christian theology of mission suitable for the twenty first century global and pluralistic context even as it exemplifies how a missiological understanding of theology itself unfolds amidst engagements with contemporary ecclesial practices and academic theological impulses

Reality, Religion, and Passion Jessica Frazier, 2009-01-01 Radical doubt about the truths that govern life has posed a problem for thinkers in many different cultures and periods This study uncovers the solutions offered by a postmodern Western thinker Hans Georg Gadamer and an early modern Indian thinker Rupa Gosvami each of whom offers a renewed postskeptical vision of a revitalized life that is firmly rooted in the transcendental truths of reality

Methodologies of Comparative Philosophy Robert W. Smid, 2010-07-02 What is comparative philosophy This question is ultimately a methodological one according to this much needed book The cultivation of area studies in diverse traditions has opened up opportunities for cross cultural understanding that have rarely existed before and comparative philosophy is a rapidly emerging area of inquiry Yet surprisingly little has been written on comparative methodology in philosophy Of course there is much at stake in how we compare things how comparison is done determines what comparison is Author Robert W Smid provides a critical review of

four of the most influential comparative methodologies within the American pragmatist and process philosophical traditions those of William Ernest Hocking F S C Northrop Robert Cummings Neville and David L Hall in collaboration with Roger T Ames Discussing the history of each methodology s development and critically assessing its strengths and weaknesses Smid demonstrates that it is possible to compare methods as well as traditions and encourages those interested to join the contemporary conversation
