Religion Capitalism Allies Not Enemies:

Religion and Capitalism: Allies, Not Enemies Edmund A. Opitz, 1970 This book deals with the problem of the proper ordering of our economic affairs within the framework supplied by Christian values introduction *Conservatives and the Constitution* Ken I. Kersch, 2019-03-28 Recovers a contested evolving tradition of conservative constitutional argument that shaped the past and is bidding to make the future **A Christian Perspective on Political Thought** Stephen Charles Mott, 1993-05-27 Arguing that Americans make political choices in terms of a general notion of right and wrong yet lack a sound objective foundation for such values evangelical scholar Stephen Mott formulates a Christian political theory that supplies such norms Drawing on theological and biblical sources Mott thoroughly develops the biblical and theological foundations for politics and political evaluation Mott proposes that political philosophies should be evaluated in light of Christian theological and ethical values specifically the understanding of power human nature the nature of group life justice and love government and time He then applies this critical framework in an evaluation of political ideologies including traditional conservatism liberalism democracy laissez faire conservatism Marxist socialism and democratic socialism He gives special attention to their classical exponents and ideas Asserting that political visions ultimately depend on cultural values that themselves require vigorous religious faith in a particular society Mott's study offers a valuable introduction to Christian political thought as well as an illuminating look at the connection between politics and religion *Religion and Cooperative Economics* Jamin Andreas Hübner, 2025-07-09 This volume looks at the intersection between religion and cooperative economics through the lens of economic justice It covers world religious traditions and gives particular focus to cooperative organization the social and economic problems of capitalism and the earliest Christian tradition of the Jesus movement It also examines religious and theological discourse in contemporary defenses of neoliberal capitalism and contemporary advocates of cooperatives The book serves to unfold both how and why cooperative economics can and should supplant traditional employer employee relationships a pillar of modern capitalism and revive interest in cooperation worker solidarity and significant social and political reforms *The Conservative Intellectual Movement in America Since 1945* George H. Nash, 2023-03-28 First published in 1976 George H Nash's celebrated history of the postwar conservative intellectual movement has become the unquestioned standard in the field This new edition published in commemoration of the book's thirtieth anniversary includes a new preface and conclusion by the author and will continue to instruct anyone interested in how today's conservative movement was born The Spirit of Democratic Capitalism Michael Novak, 1991 In this work the author examines the roots of modern democratic capitalism from a theological point of view In his defence of Western capitalism he attempts to reconcile sound faith and sound economics Merchants and Ministers Kevin Schmiesing, 2016-12-14 Two of the most influential forces in American history are business and religion Merchants and Ministers weaves the two together in a history of the relationship between businesspeople and Christian clergy From fur

traders and missionaries who explored the interior of the continent to Gilded Age corporate titans and their clerical confidants to black businessmen and their ministerial collaborators in the Civil Rights movement *Merchants and Ministers* tells stories of interactions between businesspeople and clergy from the colonial period to the present It presents a complex picture of this relationship highlighting both conflict and cooperation between the two groups By placing anecdotal detail in the context of general developments in commerce and Christianity *Merchants and Ministers* traces the contours of American history and illuminates those contours with the personal stories of businesspeople and clergy *The Worth of the Individual, the Value of Work, and the Power of the Mind* Joseph T. Allmon, 2010-10-11 This volume contains the unpublished writings of the late Joe Allmon edited by his son Warren Joe Allmon grew up poor in Depression era Mississippi and became a Baptist minister like his father But he suffered a crisis of faith as a young man and switched careers to become a human resources executive applying many of the counseling skills he had developed in the ministry His life in corporate America however was unusual As the writings collected here eloquently demonstrate he was always in the process of becoming something else and expanding whatever mold he was in Joe Allmon was a Baptist minister who became a Unitarian He was a white southerner who became dedicated to equality of opportunity regardless of race He was a corporate executive who unpretentiously quoted Shakespeare and the Bible wrote poetry and could read Greek and Hebrew He was a Mississippian who had deep admiration for northeastern culture and Ivy league education He was a Republican devotee of laissez faire who wound up proudly voting for liberal Democrats His life was in a way dedicated constantly to struggle to be smarter more educated more cultured never poor again and to leave the world a slightly better place Although he spent almost 20 very influential years living in New York Joe was rooted in the South His strongest memories were always of Mississippi He was shaped by the regions complex history and sometimes contradictory qualities poverty beauty cruelty grace religion gentility ignorance tradition conservatism and the struggle for a better life His life spanned and contributed to a remarkable social and cultural transformation of this region The writings in this volume are divided into three sections First is a selection of the scores of sermons he delivered from his time as a divinity student at Theological Seminary to his service as a Naval chaplain The second includes speeches Joe gave from the 1950s to the 1980s Most of these were given as part of his job as a human resources executive but this included not just personnel matters such as compensation recruiting and training but also serving as a general spokesperson for the company to various public audiences Toward the end of his career Joe was not only invited to talk as a representative of the corporation but also as a respected commentator on business related topics in his own right A number of the speeches are also connected to his not for profit involvements including his association for 50 years with Unitarian Universalism At the end of the volume is a short section that includes a short fragment of a novel and the small number of poems and pieces of prose In their emphasis on individual merit and effort combined with equal opportunity and an intellectual approach to human resources the business speeches are valuable for their own sake What

holds them together with the rest is that they all focus on a limited set of themes the worth of the individual regardless of race or background the value of work and the power of the mind Joe Allmon strongly believed in these three things and he applied them to almost everything he did from his paying job to his volunteer work to his family life The worth of the individual For Joe every person was inherently important and worthy of respect and being listened to no matter what their background or point of view He loved to talk to people and he loved to listen He loved to hear peoples stories where they were coming from why they thought what they did He loved conversation and the learning that he said always resulted He thought that everyone had something interesting to say and that you could always learn something from talking to someone no matter who they were The value of work Like many of his generation which grew up in the Great Depression Joe knew the importance of hard work Although his family was not among the poorest of the poor th

Essays on Foundations of American Constitutional Government Robert D. Gorgoglione,2011-02-25 **The Free Person and the Free Economy**

Anthony J. Santelli,2002-01-01 Foundations of Economic Personalism is a series of three book length monographs each closely examining a significant dimension of the Center for Economic Personalism s unique synthesis of Christian personalism and free economic market theory In the aftermath of the momentous geo political and economic changes of the late 1980s a small group of Christian social ethicists began to converse with free market economists over the morality of market activity This interdisciplinary exchange eventually led to the founding of a new academic subdiscipline under the rubric of economic personalism These scholars attempt to integrate economic theory history and methodology with Christian personalism s stress upon human dignity humane social structures and social justice This final volume in the series systematically applies the praxeological from the first volume and theoretical from the second volume foundations of the personalist tradition to free market economic theory Unlike the previous two this work defends economic liberty in theologically sensitive terms that reference the personalist tradition without compromising the disciplinary integrity of either economics or social ethics Freedom and Economic Order Linda C. Raeder,2018-12-17 Freedom and Economic Order is

the second of three volumes comprising a comprehensive study of freedom and American society The book explores the economic dimension of freedom as historically conceived within American constitutional order and examines the two major modern economic paradigms capitalism and socialism from both utilitarian and moral perspectives Topics include the theory and practice of both capitalism the market process and socialism the planned economy the Marxist critique of capitalism the conceptions of justice and social justice correlative to capitalism and socialism respectively and the ethics of wealth redistribution Volume I Freedom and Political Order examines the meaning of freedom and the legal and political dimensions of American liberal democracy Volume III Limited Government and the Death of God explores the historical rise of freedom in the West and various modern and postmodern threats to the preservation and vitality of the free society *Sow Your Fallow Ground* Charles Simms,2012 Sow Your Fallow Ground begins the discussion of how you choose what action to take for

social justice You must be the judge of why to take action but the reasons to do so are fully explained in the Bible The reason we have the power to choose is our ability to imagine the future effects of immediate choices still we often neglect that God given ability Sow Your Fallow Ground is about communication in light of the science of human action the communication that separates humankind from lesser life forms These concepts merge easily with the authentic Bible in spite of the belief by many that the Bible and natural science are mutually exclusive The science of praxeology which is the common name for human action teaches us how we make hundreds of choices every day How we make those choices is a value free science still without some kind of rudder compass or guiding star we drift into every kind of faulty behavior from unhealthy addictions to economic booms busts and wars There is a very important connection between the infallible Bible human action science neither humanism nor psychology and economics as a single subject Like the biblical Trinity or a three legged stool they are different aspects of the same thing the choices we make

Economic Thinking for the Theologically Minded Samuel Gregg,2001 Economic Thinking for the Theologically Minded provides an introduction to what has been called the economic way of thinking which explains some of the critical concepts and foundational assumptions employed in economics To communicate these ideas effectively to those engaged in theological studies this book avoids using unnecessary technical terminology These concepts are then subject to analysis from the standpoint of Christian ethics with emphasis placed upon the often unsuspected degree of agreement between economics and Christian belief about the nature of the person The second half of the book consists of a collection of selections from classical economic texts representing a range of authors from a variety of schools of thought These selections have been arranged around ten key concepts each of which attempts to deepen understanding of various ideas presented in the book s first half

Poverty William Dudley,1988 Presents opposing viewpoints on various aspects of poverty including its causes ways to end it the welfare system the homeless and the relationship between poverty and discrimination

Defending the Free

Market Robert Sirico, 2012-05-21 Thirty years ago the economic system of the Soviet empire socialism seemed definitively discredited Today the most popular figures in the Democratic Party embrace it while the shapers of public opinion treat capitalism as morally indefensible Is there a moral case for capitalism Consumerism is an appalling spectacle Free markets may be efficient but are they fair Aren't there some things that we can't afford to leave to the vicissitudes of the market Robert Sirico a onetime leftist shows how a free economy including private property legally enforceable contracts and prices and interest rates freely agreed to by the parties to a transaction is the best way to meet society's material needs In fact the free market has lifted millions out of dire poverty far more people than state welfare or private charity has ever rescued from want But efficiency isn't its only virtue Economic freedom is indispensable for the other freedoms we prize And it's not true that it makes things more important than people just the reverse Only if we have economic rights can we protect ourselves from government encroachment into the most private areas of our lives including our consciences Defending the Free Market is a powerful vindication of capitalism and a timely warning for a generation flirting with disaster
