challenges the social scientific orthodoxy that once unleashed the modern forces of individualism science and technology inevitably erode the sacred and evoke the profane The book's chapters some by established scholars others by junior researchers document instead in rich empirical detail how modernity relocates the sacred to the deeper layers of the self and the domain of digital technology Rather than destroying the sacred tout court then the cultural logic of modernization spawns its own religious meanings unacknowledged spiritualities and magical enchantments The classical theoretical accounts of modernity by Max Weber Emile Durkheim and others it is argued in the introductory chapter already hinted that there's a future for such religions of modernity Contributors Stef Aupers Kelly Besecke Kirsten Marie Bovbjerg Siobhan Chandler Olav Hammer Dick Houtman Murray Lee Carly Machado Karen Perna Adam Possamai Linda Woodhead and Dorien Zandbergen Religion in the Media Age Stewart M. Hoover, 2006-11-22 Looking at the everyday interaction of religion and media in our cultural lives Hoover's new book is a fascinating assessment of the state of modern religion Recent years have produced a marked turn away from institutionalized religions towards more autonomous individual forms of the search for spiritual meaning Film television the music industry and the internet are central to this process cutting through the monolithic assertions of world religions and giving access to more diverse and fragmented ideals While the sheer volume and variety of information travelling through global media changes modes of religious thought and commitment the human desire for spirituality also invigorates popular culture itself recreating commodities film blockbusters world sport and popular music as contexts for religious meanings Drawing on research into household media consumption Hoover charts the way in which

media and religion intermingle and collide in the cultural experience of media audiences Religion in the Media Age is essential reading for everyone interested in how today mass media relates to contemporary religious and spiritual life

Being Catholic in the Contemporary Philippines Jayeel Serrano Cornelio, 2016-06-23 This book based on extensive original research examines the nature of Catholicism in the contemporary Philippines It shows how Catholicism is apparently flourishing with good attendance at Sunday Masses impressive religious processions and flourishing charismatic groups and with interventions by the Catholic hierarchy in national and local politics However focusing in particular on the beliefs and practices of young people the book shows that young people are often adopting a different more individualised approach to Catholicism which is frequently out of step with the official position It considers the features of this a more personal and experiential relationship with God a new approach to morality in which right living is seen as more important than right believing and a critical view of what is seen as the Catholic hierarchy's misguidedness The book argues that this reinterpreting of religion by young people has the potential to alter fundamentally the nature of Catholicism in the Philippines but that nevertheless young people's new approach involves a solid enduring commitment and a strong view of their own Catholic religious identity
