Religion Mobilization And Social Action:

Religion, Mobilization, and Social Action Anson Shupe, Bronislaw Misztal, 1998-06-25 Religious social action groups are emerging as key movers in sweeping sociopolitical changes world wide Although their inspiration is religious their goals are secular This volume considers the role of such groups by examining regions and nations where change has been most dramatic Areas researched include Western Europe North America the Amazonian rain basin Malaysia Japan Russia Northern Ireland and Israel The movements studied are as diverse as Conservative Judaism Roman Catholicism Sun Myung Moon's Unification Church the New Christian Right and Indonesian Muslims In each case social action groups are studied to understand how they evolve within the current political context in order to change it **Religion Matters** William A. Mirola, Michael O. Emerson, Susanne C Monahan, 2022-10-19 Religion Matters How Sociology Helps Us Understand Religion in Our World focuses on religion's interplay with broader society introducing students to the basic questions ideas and methods with which sociologists have analyzed the relationship between religion and society Since the first edition religion as a social force has changed dramatically in its content and consequences for the world In this new edition the authors update the foundational lenses used to understand religion's multiple roles in society assess the impact of technology and social media on religion and faith draw further reflection from contemporary studies of religion and gender and add a new chapter examining the increasing amount of religious polarization in the United States and throughout the world With new illustrations and connections that make this readable textbook more accessible and relevant for today's student the second edition of Religion Matters remains a perfect counterpart for introductory courses concerned with the sociological study of religion **Exposing the Right and Fighting for Democracy** Pam Chamberlain, Matthew N. scientists and other researchers whose study brings them in contact with the study of religion and its impact on social institutions *Voluntary Choices, Religious Mobilization and Political Participation in America* Brian D. McKenzie, 2004

Egypt's Political Economy Nadia Ramsis Farah, 2009 A new assessment of the impact of power relations on economic development **Rethinking Church, State, and Modernity** David Lyon, Marguerite Van Die, 2000-01-01 The contributors consider how Canada's religious experience is distinctive in the modern world somewhere between the largely secularized Europe and the relatively religious United States **Reconciliation and Religio-political Non-conformism in**

Zimbabwe Joram Tarusarira, 2016-05-20 Religio political organisations in Zimbabwe play an important role in advocating democratisation and reconciliation against acquiescent silenced or co-opted mainstream churches Reconciliation and Religio political Non conformism in Zimbabwe analyses activities of religious organisations that deviate from the position of mainline churches and the political elites with regard to religious participation in political matters against a background of political conflict and violence Drawing on detailed case studies of the Zimbabwe Christian Alliance ZCA Churches in Manicaland CiM and Grace to Heal GtH this book provocatively argues that in the face of an unsatisfactory religious and political culture religio political non conformists emerge seeking to introduce a new ethos even in the face of negative sanctions from dominant religious and political systems **The Power of Religious Publics** William H. Swatos Jr., James K.

Wellman, 1999-08-30 Currently public religion is in a time of flux and the notion of the common good once associated with the Protestant voice in America is openly contested by new religious coalitions seeking to communicate their version of the truth and plant their stake in the public domain This edited volume reflects on the changing tone and form of the public voice of religion on its function in American society and on its relationship to the private world of religion It proposes that public religion when exercised in a civil and accountable way can be a responsible and prophetic voice in public life and enrich the American experiment in liberal democracy The contributors first rate scholars including Martin Marty and Robert Bellah focus on public religion's influence on controversial issues such as multiculturalism economic inequality abortion and homosexuality Agents of Discord Susan E. Darnell, 2017-12-02 It is widely acknowledged that the United States has always provided fertile ground for the growth of new religious movements and cults but modern organized efforts to oppose and restrict them have been less well understood In *Agents of Discord* Anson Shupe and Susan E Darnell offer a groundbreaking analysis of the operations and motives of these oppositional groups which they generally group under the umbrella term of the anticult movement Historically there have always been parallel groups opposed to certain religious movements whether these be anti Quaker anti Roman Catholic or anti Mormon The authors establish the cultural context of such movements in the nineteenth century They point out the link between modern anticult movements and nativist movements in American history Turning to the postwar era the authors discuss the rise of anticult movements and focus specifically on one of the most prominent the Cult Awareness Network CAN CAN was a two tiered organization Partly

composed of volunteers donors and families affected by cult movements it also included what the authors call an inner sanctum of behavioral science professionals attorneys and deprogrammers Using never before reported data on CAN s activities the authors cite an extensive history of financial impropriety that finally led to the organization s bankruptcy They offer a pointed critique informed by current scholarship of the brainwashing model of mental enslavement presented by the anticult movement that has been a central assumption undergirding its activities At the same time they show how increasing professionalization has gradually begun a shift of such movements to a therapeutic model of exit counseling that rejects the crude methods of earlier intervention strategies In their analysis of the anticult movement nationally and internationally Shupe and Darnell merge sociological concepts and social history to make unique sense of a hereto
