Religion in Society Ronald Johnstone, 2015-11-17 For junior senior level courses in Religion and Society in departments of Sociology and Religious Studies Using an unbiased balanced approach the 8th edition of this text puts religion in its social context by discussing the impact of society on religion and helps students understand the role and function of religion in society that occur regardless of anyone's claims about the truth or falsity of religious systems

Religion, Civil Society, and Peace in Northern Ireland John D. Brewer, Gareth I. Higgins, Francis Teeney, 2011-12-16 Religion was thought to be part of the problem in Ireland and incapable of turning itself into part of the solution Many commentators deny the churches a role in Northern Ireland's peace process or belittle it focusing on the few well known events of church involvement and the small number of high profile religious peacebuilders This new study seeks to correct various misapprehensions about the role of the churches by pointing to their major achievements in both the social and political dimensions of the peace process by small scale lesser known religious peacebuilders as well as major players The churches are not treated lightly or sentimentally and major weaknesses in their contribution are highlighted The study challenges the view that ecumenism was the main religious driver of the peace process focusing instead on the role of evangelicals it warns against romanticising civil society pointing to its regressive aspects and counter productive activities and queries the relevance of the idea of spiritual capital to understanding the role of the churches in post conflict reconstruction which the churches largely ignore This book is written by three insiders to church peacebuilding in Northern Ireland who bring their insight and expertise as sociologists to bear in their analysis of four years in depth interviewing with a wide cross section of people involved in the peace process

including church leaders and rank and file members of political parties prime ministers paramilitary organisations community development and civil society groups as well as government politicians and advisors Many of these are speaking for the first time about the role of religious peacebuilding in Northern Ireland and doing so with remarkable candour The volume allows the Northern Irish case study to speak to other conflicts where religion is thought to be problematic by developing a conceptual framework to understand religious peacebuilding
