Excerpt from Religion in Greek Literature A Sketch in Outline After my retirement from the Greek chair at St Andrews I was appointed by my former colleagues to the Gifford Lectureship in that University for the years 1894 1895 I chose for my subject the Religion of the Ancient Greeks and delivered two courses of twelve lectures each besides several intermediate lectures In venturing to bring before the public some part of what was then put forth I have limited myself to the portion of the subject which was most familiar to me and which at present perhaps receives less attention than it deserves Recent researches into the culture of prehistoric times have tended rather to obscure the abiding interest of the age of classical literature in Greece While endeavouring to carry out the intention of the Gifford bequest I have sought to emphasise the element of religious feeling and reflection which pervades that literature and is a possession which forms part of the inalienable heritage of mankind Of late years much has been written on the subject of Greek religion and in revising my work I have availed myself as far as I could find opportunity of the books which have recently appeared About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

A Companion to Greek Religion

Daniel Ogden,2010-02-01 This major addition to Blackwell s Companions to the Ancient World series covers all aspects of religion in the ancient Greek world from the archaic through the classical and into the Hellenistic period Written by a panel of international experts Focuses on religious life as it was experienced by Greek men and women at different times and in

different places Features major sections on local religious systems sacred spaces and ritual and the divine *Among the Gods* John Ferguson, 2021-11-30 First published in 1989 *Among the Gods* uses archaeological evidence to explore ancient Greek religion The book analyses cult statues and inscriptions to provide a detailed discussion of gods and goddesses the priesthood and healing sanctuaries In doing so it highlights the external formal nature of religious practice in ancient Greece such as pilgrimages offerings and hallowed sites Archaeological records are used to examine both the theory and practice of ancient Greek religion and to provide context to a variety of Greek myths and Greek literature *Among the Gods* will appeal to those with an interest in religious history archaeological history and Classical history *A History of Classical Greek Literature* John Pentland Mahaffy, 2025-07-23 Reprint of the original first published in 1880 The Antigonos publishing house specialises in the publication of reprints of historical books We make sure that these works are made available to the public in good condition in order to preserve their cultural heritage *Literature and Religion at Rome* Denis Feeney, 1998-01-13 Recent reevaluations of Roman religion by ancient historians have stressed the vitality and creativity of the Romans religious system throughout its long history of continual adaptation to new challenges Capitalising on these insights Denis Feeney argues that Roman literature was not an artificial or parasitic irrelevance in this context but an important element of the dynamic religious culture with its own status as another form of religious knowledge Since Roman culture both literary and religious was so thoroughly Hellenised the book also makes a case for a reconsideration of the traditional antitheses between Greek and Roman literature and religion arguing against Hellenocentric prejudices and in favour of a more creative model of cultural interaction
