Religion Scholarship And Higher Education:

Religion, Scholarship, and Higher Education Andrea Sterk, 2002-01-17 Religion Scholarship and Higher Education explores foundational issues surrounding the interaction of religion and the academy in the twenty first century Featuring the work of eighteen scholars from diverse institutional disciplinary and religious backgrounds this outstanding collection of essays issues from a three year Lilly Seminar on Religion and Higher Education Reflecting the diversity of the seminar participants this insightful volume presents a wide variety of viewpoints on the role of religion in higher education and different approaches to religiously informed scholarship and teaching Religion Scholarship and Higher Education is distinct in its orientation toward the personal and the practical Contributors use personal examples to demonstrate how individual religious beliefs and backgrounds shape the way an educator approaches research and teaching The first part of the book addresses foundational issues offering a range of perspectives on the current state of affairs and future prospects for the interrelation of religion and academic endeavor Part II treats specific academic disciplines as they relate to religion and research and provides several models of scholarship grounded in or informed by religious traditions The final section of the volume presents five different approaches to teaching Contributors reflect on how religious perspectives or commitments influence the way in which they understand their role as university or college teachers and carry out their responsibilities in the classroom Sure to capture the interest of scholars teachers and administrators alike this volume features essays from Nicholas Wolterstorff James Turner Alan Wolfe David A Hollinger Mark R Schwehn John McGreevy Nancy T Ammerman Roger Lundin Brian E Daley S J Clarke E Cochran Serene Jones Richard J Bernstein Mark A Noll Denis Donoghue Robert Wuthnow Jean Bethke Elshtain Susan Handelman and Francis Oakley *Christian Faith and Scholarship: An Exploration of Contemporary Developments* Todd C. Ream, Perry Lynn Glanzer, 2007-09-17 In the twenty first century religious faith has reemerged from the margins of modernism and moved back to the center of contemporary scholarly conversations When Jacques Derrida died Stanley Fish recently wrote I was called by a reporter who wanted to know what would succeed high theory and the triumvirate of race gender and class as the center of intellectual energy in the academy I answered like a shot religion A group of evaluators of the Lilly Endowment s Initiative on Religion and Higher Education recently agreed There is today more discussion about the role of religion in the academy than at any time in the past 40 years and more commitment to the project of Christian higher education than there was just ten years ago In recognition of these developments this particular monograph offers an overview of the various ways conversations about religion and religiously informed scholarship are increasing in the academy Although a growing number of faith traditions are finding their place in this conversation the Christian tradition in its various forms is still the dominant voice This monograph addresses the history of secularization in American higher education and scholarship the historical and resistance by dominant religious traditions to that secularization the contemporary ways that individual scholars networks and institutions approach the question of

religious faith and scholarship the concerns such a question raises for academic freedom and the relationship between religious faith and scholarship

The Resilience of Religion in American Higher Education John Arnold

Schmalzbauer, Kathleen A. Mahoney, 2018 A well worn often told tale of woe American higher education has been secularized Religion on campus has declined died or disappeared Deemed irrelevant there is no room for the sacred in American colleges and universities While the idea that religion is unwelcome in higher education is often discussed and uncritically affirmed John Schmalzbauer and Kathleen Mahoney directly challenge this dominant narrative The Resilience of Religion in American Higher Education documents a surprising openness to religion in collegiate communities Schmalzbauer and Mahoney develop this claim in three areas academic scholarship church related higher education and student life They highlight growing interest in the study of religion across the disciplines as well as a willingness to acknowledge the intellectual relevance of religious commitments The Resilience of Religion in American Higher Education also reveals how church related colleges are taking their founding traditions more seriously even as they embrace religious pluralism Finally the volume chronicles the diversification of student religious life revealing the longevity of campus spirituality Far from irrelevant religion matters in higher education As Schmalzbauer and Mahoney show religious initiatives lead institutions to engage with cultural diversity and connect spirituality with academic and student life heightening attention to the sacred on both secular and church related campuses

The ^AAmerican University in a Postsecular Age Douglas Jacobsen, Rhonda

Jacobsen, 2008-02-27 Religion has made a comeback in American society and on university campuses How should higher education respond Contributors others essays from prominent scholars and educators who unpack the key issues

Scholarship and Christian Faith Douglas Jacobsen, Rhonda Hustedt Jacobsen, 2004-04-08 This book enters a lively discussion about religious faith and higher education in America that has been going on for a decade or more During this time many scholars have joined the debate about how best to understand the role of faith in the academy at large and in the special arena of church related Christian higher education The notion of faith informed scholarship has of course figured prominently in this conversation But argue Douglas and Rhonda Jacobsen the idea of Christian scholarship itself has been remarkably under discussed Most of the literature has assumed a definition of Christian scholarship that is Reformed and evangelical in orientation a model associated with the phrase the integration of faith and learning The authors offer a new definition and analysis of Christian scholarship that respects the insights of different Christian traditions e g Catholic Lutheran Anabaptist Wesleyan Pentecostal and that applies to the arts and to professional studies as much as it does to the humanities and the natural and social sciences The book itself is organized as a conversation Five chapters by the Jacobsens alternate with four contributed essays that sharpen illustrate or complicate the material in the preceding chapters The goal is both to map the complex terrain of Christian scholarship as it actually exists and to help foster better connections between Christian scholars of differing persuasions and between Christians and the academy as a whole

Faith, Freedom, and

Higher Education P. C. Kemeny, 2013-03-11 While debates abound today over the cost purpose and effectiveness of higher education often lost in this conversation is a critical question Should higher education attempt to shape students moral and spiritual character in any systematic manner as in the past or focus upon equipping students with mere technical knowledge Faith Freedom and Higher Education argues that Christianity can still play an important role in contemporary American higher education George M Marsden D G Hart and George H Nash among its authors analyze the debate over the secularization of the university and the impact of liberal Protestantism and fundamentalism on the American academy during the twentieth century Contributors also assess how the ideas of Dorothy Sayers C S Lewis Wendell Berry and Allan Bloom can be used to improve Christian higher education Finally the volume examines the contributions Christian faith can make to collegiate education and outlines how Christian institutions can preserve their religious mission while striving for academic excellence

Religious Minority Students in Higher Education Yoruba T. Mutakabbir, Tariqah A. Nuriddin, 2016-01-29 The most recent addition to the Key Issues on Diverse College Students series bridges theory to practice in order to help student affairs and higher education professionals understand the needs and experiences of religious minorities on college campuses Religious Minority Students in Higher Education explores existing literature and research on religious minorities on American college campuses discusses the challenges and needs of religious minorities on campus and provides best practices and recommendations Providing a foundational nuanced approach to religious minorities in the American college context this important resource will help educators at colleges and universities promote religious pluralism and tolerance to support student learning outcomes and campus inclusion among students of diverse religious backgrounds

Religion and Higher Education in Europe and North America Kristin Aune, Jacqueline Stevenson, 2016-12-01 Religion and Higher Education in Europe and North America illuminates the experiences of staff and students in higher education as they negotiate the university environment Religious extremism has been rising across Europe whilst recent attacks have thrown public debate around the place of religion on campus the role of universities in recognising and managing religious fundamentalism and freedom of speech on campus into sharper focus Despite these debates research exploring religion on campus has been largely absent from discourse on higher education outside of America with policy and practices designed to deal with religion on campus largely founded on supposition rather than evidence This book speaks into that void including results from recent studies in the field which form an empirically grounded base from a broad variety of perspectives on religion at universities Aiming to offer a deeper perspective more dialogue and engagement on the experiences of students Religion and Higher Education in Europe and North America presents us not only with an opportunity to counter growing trends of intolerance but for people to connect with the humanity of others Focusing on what research reveals about staff and students experiences it incorporates research from different academic disciplines including sociology education social policy theology and religious studies and across different faith and belief groups This thought provoking and challenging volume features

chapters written by researchers involved in informing policy and practice relating to religion and belief in higher education in the UK US Canada France and the Netherlands Spanning the academic practitioner divide students and academics interested in the sociology of religion and of higher education as well as those responsible for the practical management of campus life will find this text of particular importance *A Theology of Higher Education* Mike Highton, 2012-03-15 Provides a constructive critique of Higher Education policy and practice from the standpoint of Christian theology He focuses on the role universities can and should play in forming students and staff in intellectual virtue in sustaining vibrant communities of inquiry and in serving the public good **Christianity and Moral Identity in Higher Education** P. Glanzer, T. Ream, 2009-11-23 This book offers examples from both Christian and secular democratic institutions of higher education and then responds to possible criticisms about how moral education in a comprehensive humanist moral tradition may short change diversity autonomy and critical thinking
