Bouma,Rodney Ling,Douglas Pratt,2009-12-04 Religious diversity is now a social fact in most countries of the world While reports of the impact of religious diversity on Europe and North America are reasonably well known the ways in which Southeast Asia and Asia Pacific are religiously diverse and the ways this diversity has been managed are not This book addresses this lack of information about one of the largest and most diverse regions of the world It describes the religious diversity of 27 nations as large and complex as Indonesia and as small as Tuvalu outlining the

current issues and the basic policy approaches to religious diversity Southeast Asia and the Pacific Islands are portrayed as a living laboratory of various religious blends with a wide variance of histories and many different approaches to managing religious diversity While interesting in their own right a study of these nations provides a wealth of case studies of diversity management most of them stories of success and inclusion *Exploring Religious Diversity and Covenantal Pluralism in Asia* Dennis R. Hoover,2022-12-26 This book examines the growing diversity of religions and worldviews across South Central Asia and the factors affecting prospects for covenantal pluralism in these regions Going beyond banal appeals for mere tolerance the theory of covenantal pluralism calls for a constitutional order of religious freedom and equal treatment combined with a culture of practical religious literacy and everyday virtues of engagement across lines of religious difference According to the Pew Religious Diversity Index half of the world s most religiously diverse countries are in Asia The presence of deep religious worldview difference is often seen as a potential threat to socio political cohesion or even as a source of violent conflict Yet in Asia as elsewhere the degree of this diversity is not consistently associated with socio political problems Indeed while religious difference is implicated in some social challenges there are also many instances of respectful multi faith engagement practical collaboration and peaceful debate Volume II offers a pioneering exploration of the prospects for this robust and non relativistic type of pluralism in South Central Asia Volume I examined East Southeast Asia The chapters in these volumes originally appeared as research articles in a series on covenantal pluralism published by The Review of Faith International Affairs *Religious Diversity* Roger Trigg,2014-04-21 Religious Diversity examines whether believing in a religion s truth increases intolerance and how the existence and growth of multiple religions affects political societies
