The Sixties, Center Stage James M. Harding, Cindy Rosenthal, 2017-04-06 The Sixties Center Stage offers rich insights into the innovative and provocative political underpinnings of mainstream and popular performances in the 1960s While much critical attention has been focused on experimental and radical theater of the period the essays confirm that mainstream performances not only merit more scholarly attention than they have received but through serious examination provide an important key to understanding the 1960s as a period The introduction provides a broad overview of the social political and cultural contexts of artistic practices in mainstream theater from the mid fifties to mid seventies Readers will find detailed examinations of the mainstream's surprising attention to craft and innovation to the rich exchange between European and American theatres to the rise of regional theaters and finally to popular cultural performances that pushed the conceptual boundaries of mainstream institutions The book looks afresh at productions of *Hair* *Cabaret* *Raisin in the Sun* and *Fiddler on the Roof* as well as German theater and performances outside the Democratic National Convention of 1968

[Education for Democracy](#) Chad Alan Goldberg, 2020-11-17 American public universities were founded in a civic tradition that differentiated them from their European predecessors steering away from the pursuit of knowledge for its own sake Like many such higher education institutions across the United States the University of Wisconsin's mission known as the Wisconsin Idea emphasizes a responsibility to serve the needs of the state and its people This commitment which necessarily requires a pledge to academic freedom has recently been openly threatened by state and federal actors seeking to dismantle a democratic and expansive conception of public service Using the Wisconsin Idea as a lens *Education for Democracy* argues that public higher education institutions remain a bastion of collaborative problem solving Examinations of partnerships between the state university and people of the state highlight many crucial and lasting contributions to issues of broad public concern such as conservation LGBTQ rights and poverty alleviation The contributors restore the value of state universities and humanities education as a public good contending that they deserve renewed and robust support

Federalizing the Muse Donna M. Binkiewicz, 2005-12-15 The National Endowment for the Arts is often accused of embodying a liberal agenda within the American government In *Federalizing the Muse* Donna Binkiewicz assesses the leadership and goals of Presidents Kennedy through Carter as well as Congress and the National Council on the Arts drawing a picture of the major players who

created national arts policy Using presidential papers NEA and National Archives materials and numerous interviews with policy makers Binkiewicz refutes persisting beliefs in arts funding as part of a liberal agenda by arguing that the NEA s origins in the Cold War era colored arts policy with a distinctly moderate undertone Binkiewicz s study of visual arts grants reveals that NEA officials promoted a modernist abstract aesthetic specifically because they believed such a style would best showcase American achievement and freedom This initially led them to neglect many contemporary art forms they feared could be perceived as politically problematic such as pop feminist and ethnic arts The agency was not able to balance its funding across a variety of art forms before facing serious budget cutbacks Binkiewicz s analysis brings important historical perspective to the perennial debates about American art policy and sheds light on provocative political and cultural issues in postwar America

Cultural Policy Toby Miller, George Yudice, 2002-12-17 Offering the first comprehensive and international work on cultural policy Toby Miller and George Yudice have produced a landmark work in the emerging field of cultural policy Rigorous in its field of survey and astute in its critical commentary it enables students to gain a global grounding in cultural policy
