Chinese Politics in the Xi Jinping Era Cheng Li, 2016-10-18 Chinese politics are at a crossroads as President Xi Jinping amasses personal power and tests the constraints of collective leadership In the years since he became general secretary of the Chinese Communist Party in 2012 Xi Jinping has surprised many people in China and around the world with his bold anti corruption campaign and his aggressive consolidation of power Given these new developments we must rethink how we analyze Chinese politics an urgent task as China now has more influence on the global economy and regional security than at any other time in modern history Chinese Politics in the Xi Jinping Era examines how the structure and dynamics of party leadership have evolved since the late 1990s and argues that inner party democracy the concept of collective leadership that emphasizes deal making based on accepted rules and norms may pave the way for greater transformation within China's political system Xi's legacy will largely depend on whether he encourages

or obstructs this trend of political institutionalization in the governance of the world's most populous and increasingly pluralistic country Cheng Li also addresses the recruitment and composition of the political elite a central concern in Chinese politics China analysts will benefit from the meticulously detailed biographical information of the 376 members of the 18th Central Committee including tables and charts detailing their family background education occupation career patterns and mentor patron ties

Evolutionary Governance in China ,2022-03-07 The People's Republic of China has experienced numerous challenges and undergone tremendous structural changes over the past four decades The party state now faces a fundamental tension in its pursuit of social stability and regime durability Repressive state strategies enable the Chinese Communist Party to maintain its monopoly on political power yet the quality of governance and regime legitimacy are enhanced when the state adopts more inclusive modes of engagement with society Based on a dynamic typology of state society relations this volume adopts an evolutionary framework to examine how the Chinese state relates with non state actors across several fields of governance Drawing on original fieldwork the authors identify areas in which state society interactions have shifted over time ranging from more constructive engagement to protracted conflict This evolutionary approach provides nuanced insight into the circumstances wherein the party state exerts its coercive power versus engaging in more flexible responses or policy adaptations
