Remaking The Italian Economy Cornell Studies In Political Economy:

Remaking the Italian Economy Richard M. Locke, 2018-09-05

Remaking the Italian Economy Richard M.

Locke, 1995 A great merit of this stimulating volume lies in the fact that by Locke's open explicit claim of the priority to be accorded to a local rather than a national perspective in the interpretation of Italian political economy and more generally in his interpretation of political economies of advanced democracies within a changing global environment he urges interested readers to adopt a point of view

Innovation and Entrepreneurship in Japan Kathryn Iwata-Arens, 2005-11-03 Japan's innovators and entrepreneurs are a real success story against the odds surviving recession in the 1990s to prosper in today's competitive business environment Innovation and Entrepreneurship in Japan explores the struggles of entrepreneurs and civic minded local leaders in fostering innovative activity and identifies key business lessons for an economy in need of dynamic change Iwata-Arens offers in depth analysis of strategy in firms communities and in local government Innovation and Entrepreneurship in Japan examines detailed case studies of high technology manufacturers in Kyoto Osaka and Tokyo as well as bio tech clusters in America demonstrating far reaching innovation and competition effects in national institutions and firms embedded within local and regional institutions The book is essential reading for academics and students of business economics political economy political science and sociology It will also appeal to investors entrepreneurs and community development organisations seeking new perspectives on global competition and entrepreneurship in high technology enterprises

The Political Economy of Trust Henry Farrell, 2009-08-24 Trust and cooperation are at the heart of the two most important approaches to comparative politics rational choice and political culture Yet we know little about trust's relationship to political institutions This book sets out a rationalist theory of how institutions and in particular informal institutions can affect trust without reducing it to fully determine expectations It then shows how this theory can be applied to comparative political economy and in particular to explaining inter firm cooperation in industrial districts geographical areas of intense small firm collaboration The book compares trust and cooperation in two prominent districts in the literature one in Emilia Romagna Italy and the other in Baden Württemberg Germany It also sets out and applies a theory of how national informal institutions may change as a result of changes in global markets and shows how similar mechanisms may explain persistent distrust too among Sicilian Mafiosi

Finance Capitalism Unveiled Richard Edward Deeg, 2010-08-10 If we are moving toward one global financial market will all national financial systems that determine how businesses raise money look the same Richard Deeg argues that despite financial market integration and considerable harmonization in the regulation of financial markets the traditional structure and economic functions of national financial systems are not inevitably undermined Using the case of Germany a country with a strong and distinctive financial sector that is at the center of the pressures of economic integration the author shows how the unique aspects of the German

financial sector and its relationship to the German economy have persisted notwithstanding powerful pressures to change. Posing the German model of coordinated capitalism in which banks play an important role in shaping both firm behavior and the possibilities for state intervention in the economy against the liberal model of the United States and Britain in which the securities markets play a much greater role than banks, Deeg shows how the German model has survived competitive pressures in the international economic system that have pushed Germany and other countries toward the liberal model. This book will appeal to political scientists and economists interested in international financial markets, globalization, and the comparative study of domestic financial markets as well as in German politics and the German economy. Richard Deeg is Assistant Professor of Political Science, Temple University.
