Remarkable Survivors Insights Into Successful Aging Among Women:

Remarkable Survivors Alice Taylor Day, 1991 Ageing and Diversity Daatland, Svein Olav, Biggs, Simon, 2006-04-05
Assessing the stereotyped conceptions of ageing this book explores the diversity of individual pathways of ageing the sources of identifications migration and otherness and the tension between social structures and personal agency It is aimed at academics students and practitioners in the fields of sociology social psychology and welfare *Self and Identity Through the Life Course in Cross-Cultural Perspective* Timothy J Owens, 2000 This volume represents a new name and a new focus for its predecessor Current Perspectives on Aging and the Life Cycle volumes 1 4 We begin our new series now titled Advances in Life Course Research with volume 5 Its statement of purpose is the publication of theoretical analyses reviews policy analyses and positions and theory based empirical papers on issues involving all aspects of the human life course It adopts a broad conception of the life course and invites and welcomes contributions from all disciplines and fields of study interested in understanding describing and predicting the antecedents of and consequences for the course that human lives take from birth to death within and across time and cultures construed in its broadest sense regardless of methodology theoretical orientation or disciplinary affiliation Wising Up Kathy Black, Heather Murray Elkins, 2010-04-01 Wising Up provides rituals and guidance for women as they age It helps them make the often difficult life transitions wisely and in the context of their faith communities Instead of focusing exclusively on time worn thresholds such as menopause marriage and divorce and dying the book contains affirming rituals on coming to terms with the changes in one s body learning to live with and depend on an item like a walker or a hearing aid giving up one s driver s license deciding how to give away one s household contents and being orphaned In addition to the rituals and guidelines on how to create one s own rituals the book contains a number of short stories hymns prayers quotations and poems to help ease women through the aging process Contributors Susan Beehler Teresa Berger Kathy Black Ruth Duck Heather Murray Elkins Brigitte Enzner Probst Martha Whitmore Hickman Martha Ann Kirk Mary Elizabeth Mullino Moore Susan Roll Deborah Sokolove Linda J Vogel and Janet Walton **The Oxford Encyclopedia of Women in World History** Bonnie G. Smith, 2008 The Encyclopedia of Women in World History captures the experiences of women throughout world history in a comprehensive 4 volume work Although there has been extensive research on women in history by region no text or reference work has comprehensively covered the role women have played throughout world history The past thirty years have seen an explosion of research and effort to present the experiences and contributions of women not only in the Western world but across the globe Historians have investigated womens daily lives in virtually every region and have researched the leadership roles women have filled across time and region They have found and demonstrated that there is virtually no historical social or demographic change in which women have not been involved and by which their lives have not been affected The Oxford Encyclopedia of Women in World History benefits greatly from these efforts and experiences and illuminates how women worldwide have influenced and been

influenced by these historical social and demographic changes The Encyclopedia contains over 1 250 signed articles arranged in an A Z format for ease of use The entries cover six main areas biographies geography and history comparative culture and society including adoption abortion performing arts organizations and movements such as the Egyptian Uprising and the Paris Commune womens and gender studies and topics in world history that include slave trade globalization and disease With its rich and insightful entries by leading scholars and experts this reference work is sure to be a valued go to resource for scholars college and high school students and general readers alike Old Age in English History Pat Thane,2000-05-11 At the end of the twentieth century more people are living into their seventies eighties nineties and beyond a process expected to continue well into the next millennium The twentieth century has achieved what people in other centuries only dreamed of many can now expect to survive to old age in reasonably good health and can remain active and independent to the end in contrast to the high death rate ill health and destitution which affected all ages in the past Yet this change is generally greeted not with triumph but with alarm It is assumed that the longer people live the longer they are ill and dependent thus burdening a shrinking younger generation with the cost of pensions and health care It is also widely believed that the past saw few survivors into old age and these could be supported by their families without involving the taxpayer In this first survey of old age throughout English history these assumptions are challenged Vivid pictures are given of the ways in which very large numbers of older people lived often vigorous and independent lives over many centuries The book argues that old people have always been highly visible in English communities and concludes that as people live longer due to the benefits of the rise in living standards far from being burdens they can be valuable contributors to their family and friends **Understanding the Older Consumer** Barrie Gunter,2012-10-12 In Understanding the Older Consumer Barrie Gunter provides a detailed examination of the demographic behavioural and psychological profiles of the older consumer He shows that without the responsibilities of loans and child raising and with better financial provision than in previous years the over 50s represent a powerful spending force In order to reach this group Barrie Gunter shows how to target advertising and respond to the changes that have occurred Understanding the Older Consumer provides a wealth of information on older people s lifestyles and leisure their interest in the mass media their perceptions of advertising and their shopping **Loss and Trauma** John Harvey,Eric Miller,2021-12-16 Given the relationship between trauma loss and interpersonal bonds the editors have assembled a noteworthy list of contributions discussing trauma associated with close relationships divorce infertility widowhood Certainly trauma is closely associated with loss This edited volume offers the perspective of over twenty leading scholars in the study of trauma and loss Each chapter offers extensive coverage of contemporary issues terror management rational suicide spirituality stigmatization Relationship issues within these topics are also explored *Adult Personality Development* Lawrence S. Wrightsman,1994-03-15 Why do we as adults have the personality characteristics we do No one explanation is accepted by all however in this greatly expanded version of his earlier book Personality

Development in Adulthood Wrightsman helps us understand and organize the three broad theoretical approaches to explain psychological changes during the period from adolescence to the onset of late adulthood Each of these approaches early formation theories stage theories and the dialectical approach are described and contrasted in order to help us more easily compare our experiences with those of others Case histories relevant current events and boxed inserts are used throughout the book to illustrate important concepts in a thought provoking lively manner Written in a compelling non technical style the book is accessible to students and interested readers from all disciplines especially psychology clinical and developmental psychology aging family studies sociology gender studies and nursing
