Renaissance Go-betweens Cultural Exchange In Early Modern Europe:

Renaissance Go-betweens Andreas Höfele, Werner von Koppenfels, 2005 The volume analyses some of the travelling and bridge building activities that went on in Renaissance Europe mainly but not exclusively across the Channel true to Montaigne's epoch making program of describing the passage Its emphasis on Anglo Continental relations ensures a firm basis in English literature but its particular appeal lies in its European point of view and in the perspectives it opens up into other areas of early modern culture such as pictorial art philosophy and economics The multiple implications of the go between concept make for structured diversity The chapters of this book are arranged in three stages Part 1 Mediators focuses on influential go betweens both as groups like the translators and as individual mediators The second part of this book Mediations is concerned with individual acts of mediation and with the mental topographies they presuppose reflect and redraw in their turn Part 3 Representations looks at the role of exemplary intermediaries and the workings of mediation represented on the early modern English stage Key features High quality anthology on phenomena of cultural exchange in the Renaissance era With contributions by outstanding international experts Early Modern Exchanges Helen Hackett, 2016-03-09 Marcus Gheeraerts's portrait of a Persian lady probably in fact an English lady in masquing costume exemplifies the hybridity of early modern English culture Her surrounding landscape and the embroidery on her gown are typically English but her head dress and slippers are decidedly exotic the inscriptions beside her are Latin and her creator was an incomer artist She is emblematic of the early modern culture of exchange both between England and its neighbours and between Europe and the wider world This volume presents fresh research into such early modern exchanges exploring how new identities subjectivities and artefacts were forged in dialogues and encounters between diverse cultures nations and language communities The early modern period was a time of creative interactions between cultures and disciplines and accordingly this is a multidisciplinary volume drawing together international experts in literature history modern and ancient languages and art history It understands cultural exchange as encompassing both the geographical mobilities of travel and trade and the transmission of ideas across borders and between languages as enabled by the new technology of print Sites of exchange were located not only in distant and unfamiliar lands but also in the bookseller's shop and the scholar's study The volume also explores the productive and complex dialogues between early modern culture and the classical past The types of exchanges discussed include the linguistic transactions of translation and imitation interactions between cultural elites such as monarchs courtiers and diplomats and the catalytic influences of particularly mobile or outward looking individuals and groups Ranging from the neo Latin poetry of an English author to the plays of a nun in seventeenth century New Spain from royal portraits exchanged in diplomatic negotiations to travelling companions in the Ottoman Empire the volume sheds new light **The Culture of Translation in Early Modern England and France, 1500-1660** T. Robert Burton's Rhetoric Susan Wells, 2019-08-30 Published in five editions between 1621 and 1651 *The Anatomy of Melancholy* marks a unique moment in the development of disciplines when fields of knowledge were distinct but not yet restrictive In *Robert Burton's Rhetoric* Susan Wells analyzes the *Anatomy* demonstrating how its early modern practices of knowledge and persuasion can offer a model for transdisciplinary scholarship today In the first decades of the seventeenth century Robert Burton attempted to gather all the existing knowledge about melancholy drawing from professional discourses including theology medicine and philology as well as the emerging sciences Examining this text through a rhetorical lens Wells provides an account of these disciplinary exchanges in all their subtle variety and abundant wit showing that questions of how knowledge is organized and how it is made persuasive are central to rhetorical theory Ultimately Wells argues that in addition to a book about melancholy Burton's *Anatomy* is a meditation on knowledge A fresh interpretation of *The Anatomy of Melancholy* this volume will be welcomed by scholars of early modern English and the rhetorics of health and medicine as well as those interested in transdisciplinary work and rhetorical theory

Theaters of Translation Andrew S. Keener, 2025 In *Theaters of Translation: Cosmopolitan Vernaculars in Shakespeare's England* Andrew S. Keener argues that plays by Thomas Kyd, Mary Sidney Herbert, Ben Jonson and others were shaped by and contributed to a multilingual Europe full of dictionaries, grammars and language learning dialogues. Bringing together critical discussions and methodologies in transnational literary studies, book history and the history of theater and performance, Keener proposes a fresh multilingual approach to English Renaissance drama in a way that also liberates the histories of early modern languages and literatures from their national silos. Rather than accepting Shakespeare as England's national playwright and instead of inscribing the period's theater and drama within England's political, geographic and linguistic limits, *Theaters of Translation* demonstrates the intercourse between England's drama and the great variety of multilingual dictionaries, dialogues, grammars and language manuals circulating throughout Europe. Covering the period 1570-1640, when England's drama and crucially the English language itself was a proving ground for linguistic mixture, Keener emphasizes the term *cosmopolitan vernaculars*, which refers to non-classical languages that modeled transnational forms of belonging for playgoers, readers and authors across early modern Europe. In doing so, he challenges scholarship that continues to figure Renaissance England as a site of national and linguistic cohesion. The critical genealogy of the term *cosmopolitan vernaculars* is itself rooted in studies of premodern Sanskrit and in postcolonial theory addressing the British Empire, so by acknowledging the complexities associated with the terms *cosmopolitanism* and *vernacularity*, Keener offers a conceptual and historical bridge between the medieval period and the imperial era, making room for linguistic considerations of cosmopolitanism in England among French, Italian, Spanish and other European languages in relation to the English theater. Linking recent contributions to cosmopolitan theory with transnational studies of early modern literature and culture, particularly studies examining the dynamics of multiple languages, translation and polyglot manuals and dictionaries in Europe, *Theaters of Translation* highlights both the ways in which cosmopolitanism manifests through vernacular languages in print and performance and the ways languages themselves can exhibit cosmopolitanism for those who encounter them on the page or on the stage. With this evidence, Keener analyzes the workings of cosmopolitan vernaculars in early modern England and in ways that open up new transnational interpretations of plays. *Theaters of Translation* also seeks to make much more out of details known to scholars already, such as the fact that Ben Jonson owned and annotated a copy of Pietro Aretino's scandalous Italian dialogues or that Shakespeare's *First Folio* was advertised for sale in Germany before its London publication, but which have been overlooked or obscured.

because they do not always agree with the prevailing nationally focused approaches to early modern drama in England

Theatre, Magic and Philosophy Gabriela Dragnea Horvath, 2017-07-06 Analyzing Shakespeare's views on theatre and magic and John Dee's concerns with philosophy and magic in the light of the Italian version of philosophia perennis mainly Marsilio Ficino Pico della Mirandola and Giordano Bruno this book offers a new perspective on the Italian English cultural dialogue at the Renaissance and its contribution to intellectual history In an interdisciplinary and intercultural approach it investigates the structural commonalities of theatre and magic as contiguous to the foundational concepts of perennial philosophy and explores the idea that the Italian thinkers informed not only natural philosophy and experimentation in England but also Shakespeare's theatre The first full length project to consider Shakespeare and John Dee in juxtaposition this study brings textual and contextual evidence that Gonzalo an honest old Counsellor in *The Tempest* is a plausible theatrical representation of John Dee At the same time it places John Dee in the tradition of the philosophia perennis accounting for what appears to the modern scholar the conflicting nature of his faith and his scientific mind his powerful fantasy and his need for order and rigor and clarifies Edward Kelly's role and creative participation in the scrying sessions regarding him as co author of the dramatic episodes reported in Dee's spiritual diaries Finally it connects the Enochian Angelic language to the myth of the Adamic language at the core of Italian philosophy and brings evidence that the Enochian is an artificial language originated by applying creatively the analytical instruments of text hermeneutics used in the Cabala
